LONG LIFE

FATHER TIME APPROVES
 our tire vulcanizing, for it is our process which adds long life to both shoe and inner tube. In these days of costly tires, it pays as well to have tires vulcanized as to have old shoes repaired—only in case of an automobile, you save many times what you save on shoe leather. Well worth trying!

All Women Can Vote In Coming Election

One of the most important features in connection with the July election, when the electors will be asked whether or not they want Prohibition or a return of the open bars, is the fact that all women, by merely taking the trouble to register within two weeks of election day, will have an opportunity to vote and assist in eventually giving New Brunswick real Prohibition.

Circuit Court

Chief Justice McKeown presided at the May session of the Circuit Court for the County of Northumberland, which opened at Newcastle Tuesday morning at 11 o'clock. There was a large attendance of barristers including Hon. J. B. M. Baxter, K. C., of St. John and Peter Hughes of Fredericton.

Jump In Rates For Insurance On Farm Property

Because the losses by fire on farm buildings show a percentage considerably heavier than losses on other forms of property, the New Brunswick board of fire underwriters will increase farm rates twenty-five per cent. per annum. The rate for persons owning and occupying farm property will be lower than in cases where the farms are occupied by tenants. Insurance men consider that men owning and occupying farms take greater care and exercise stricter precautions against fires than do the tenants who have little to lose outside of their furniture and contents of barns and sheds. There is, of course, a lighter premium where farms are located in fire districts of town and cities—Telegraph.

You've Got to be Warm to be Happy
A COLD HOUSE is more than disagreeable. It is miserable. There is no relief. Warm Air—the simplest and least costly of all heating systems, is the best for cleanliness, health and comfort. Stoves and base-burners throw their dust all over the house and only heat parts of it. They heat the same air over and over again. The Enterprise Blazer combines heating and ventilation and it furnishes the moisture your lungs must have. The
ENTERPRISE BLAZER WARM AIR FURNACE
 is a comfort that you owe to yourself and your family—to your pocket-book, too—for it is a money-saver on the coal. After thirty-five years of furnace building, it is the most economical furnace we know how to make.
 Health and Comfort
 Furnaces look alike—but they differ. Talk the matter over with your dealer and write us for our free booklet on the subject—"Warmth and Comfort". It will give you a lot of useful information.
