

Cetewayo's Message to the Queen.

Cetewayo has been visited at Cape Town by the two young sons of the Prince of Wales. After the usual formal courtesies and exchange of photographs, the two boys rose and expressed a wish to see Cetewayo's wives. "Stay my children," said the ex-King with a dignified wave of his hand; "I have a word to say. Do you see that picture?" pointing to a print of the Queen. "I think much when I look on that. You are the grandsons of that lady. I wish you to give her a message from me. I have been long down here, no one has yet told me what wrong I have committed, nor give me an opportunity of answering for my conduct. I do not know that I ever committed any wrong against the English. Yet they have taken me prisoner and keep me here, and give me no reasons, tell your grandmother this; and say that when the war is over (the war in the Transvaal) I would like her to let me visit England."

The Imprisoned Czar.

St. Petersburg, June 21.—The Czar is living in complete seclusion at Peterhof. The harbor is guarded by two gunboats and a torpedo boat, and the Palace by detachments of the guards and Cossack patrols. He sees no one but the members of his suite and ministers, and when he takes a walk he is accompanied by an escort. He looks weary and haggard. The superstitious in St. Petersburg do not expect him to return alive. It is said Nihilists have been arrested in the woods, which a most surround the Castle, and attempts have been made to fire both the woods and Castle. It is stated however that precautions to secure the Czar's safety make it impossible for the Nihilists to reach him. It is reported that the Czar recently remarked that his subjects in the mines had no reason to complain seeing he shared their captivity and was at the mercy of masters, more blood thirsty than the Cossack. The Czarina is utterly broken down.

A Murder and a Lynching at a Picnic.

On Wednesday, the 11th, Dr William Tools accompanied his little daughter, 7 years old, to a picnic out on the Falson River, in Alabama. The mother of the little girl had dressed her up very handsomely, putting on gold ornaments and a diamond ring. During the afternoon she got separated from her father; and he went in quest of her, and on approaching the falls he saw a negro man carrying something with flying garments, and rushing up to him, he saw that it was the dead body of his child. The negro had choked the child to death and strangled her of the jewellery. The father attacked the negro and a terrible fight took place over the child's dead body. Help arriving, the negro was overpowered, a rope procured, and he was hung to the first tree, where he was still dangling at the last accounts.

AGENTS FOR HERALD

The following gentlemen have kindly consented to act as our agents, all intending subscribers will therefore confer a favor by sending in their names and subscriptions that they may be forwarded to this office.

- Briggs—Mr. P. J. Power, School Teacher
- Bay Roberts—Mr. G. W. R. HIRSHLEY.
- Heart's Content—Mr. M. MOORE.
- Bett's Cove } Office Little Bay.
- Little Bay } Office Little Bay.
- Twillingate—Mr. W. T. Roberts.
- Pogo—Mr. Joseph Resdell.
- Tilton Harbor—Mr. J. Burke, Sr.
- King's Cove and Keels—Mr. P. Murphy.
- Bonaville—Mr. P. Templeman.
- Catalina—Mr. A. Gardiner.
- Bay de Vids—Mr. James Evans.
- Collier—Mr. Hearn.
- Conception Harbor—Mr. Kennedy.
- HARBOR MAIN—Mr. E. Murray.
- SALMON COVE—Mr. Woodford.
- HOLYWOOD—Mr. James Joy.

Notice.—This paper will not be delivered to any subscriber for a less term than six months—single copies fourpence.

All correspondence intended for publication must be sent in not later than Wednesday evening.

THE CARBONEAR HERALD

"Honest labor—our noblest heritage"

CARBONEAR, JULY 8.

Holloway's Pills.—The chiefest wonder of modern times.—This incomparable Medicine increase the appetite, strengthens the stomach, cleanses the liver, corrects biliousness, and prevents flatulency, purifies the system, invigorates the nerves, and reinstates sound health. The enormous demand for these Pills throughout the globe astonishes everybody, and a single trial convinces the most sceptical that no medicine equals Holloway's Pills in its ability to move all complaints incidental to the labour under internal or external disease. The purification of the blood, removal of all restraints from the secretory organs, and gentle aperient action, are the prolific sources of the extensive curative range of Holloway's Pills.

The Season's Prospects.

From all quarters comes the most gratifying assurance of a successful result of the season's operations, whether in the prosecution of the fishery or of agricultural enterprise. The weather which from the opening of the season, has to the general observer been apparently capricious and unfavorable, has nevertheless, in our opinion tended in no small degree to the present favorable aspect of our industrial interests generally. To the variable winds and lowering state of the atmosphere, pretty generally throughout the past month or six weeks may we think be attributed that marked success which has attended fishing operations along so wide a range of our coast, whilst to the superabundance of moisture, especially within the past month, may also be attributed the present favorable appearance of the various crops, which give every promise of a yield equally as abundant, if not more remunerative to the labors of the agriculturist than for many years past, by latest advices from Labrador we are not as yet in a position to venture an opinion as to the probability for the season of future fishery operations in that quarter, but judging even from the limited intelligence received and considering that the season could scarcely be said to have opened for active operations in connection with the summer's fishery, we feel every confidence that there as elsewhere the most satisfactory results may generally be anticipated from the prosecution of the fisheries along that line of coast. Upon the whole, from the present outlook of industrial operations generally, more particularly as connected with the two leading interests of the colony, we feel that our local prospects generally, have not for some years past, presented a more favorable appearance.

On Monday evening last "the Carbonear Volunteer Fire Brigade" were out for their usual monthly practice. The engine exceeded the expectations of all present, the water being put with great force over the residence of Hon John Rorke, which is, from the lower side, the most difficult house to put the water over, it being built on high ground and in itself being very high, every person present was very highly pleased with the evenings practice. We hope the Government will extend their hand financially to this indispensable organization, as also the several Insurance Agents who are in the habit of taking risks in this town. We feel sure our friend Simon Donovan, Esq., will be one of the first of these gentlemen to come forward and show encouraging example. Of course we must give hon John Rorke his merit, as well as his deservit, as we have no prejudice against him, except when we see him working contrary to public interest it is our duty to remind him of it "in square talk" which we will ever do while we can wield an independent pen. Yes, and native interest will be attended to by us. To return to the subject of the Fire Company, the hon John Rorke has indeed given this Company every financial help within his reach as far as prudence would allow him. Certainly it would not be right to give too much of the special grant to the Company and so many other callings upon it. But we must only live on the hopes that the Insurance Companies will lend them a helping hand considering the heavy expense of organizing it and getting it in working order. Another matter which we would wish to bring under Mr Rorke's notice is the useless condition of the public pumps. Now we would suggest,

as the pumps are about to be repaired, he will please make the one expense of it and have them thoroughly overhauled by a competent person, also see that the wells are deep enough and the pumps not too long for the wells, and if too long have them cut. We would not by any means interfere with Messrs Gur, who are already commenced at them; but in the interests of the public we would wish to see this work well done now, as this expense will be best in the end. As the work is now in the hands of Guy Brothers, blacksmiths, whom we believe to be competent persons to do the mechanical part of it, we would suggest that a committee of five, or seven, be appointed to investigate and report on the real condition of the pumps, and if they are to be taken up have the wells examined, then we would have our pumps set properly and they would not be out of repair as they have been for the past few years, costing a large amount of money. It is time to have matters handled in a different way in future. We leave the matter for the present in the hands of Messrs Rorke and Gur; but time alone will prove the utility of our suggestions. Next matter of public importance is the very disagreeable way in which our local and main line affairs are handled by the Road Board. This spring a large amount of money was given to men, not neatly, for hauling stone, though the work was intended for men who were at the time starving; but they only got twelve shillings and sixpence, and some less, whilst comfortable persons got pounds and pounds for hauling stone and this out of money given specially to the Road Board to help the starving people and enable them to procure seed potatoes. Now, when they got this money they commenced a work which would take half the amount to purchase and haul stone instead of repairing the different roads so badly in need of the same, and give the poor men the benefit of their own money, then the roads would not be in the condition they are now in, nor would so many gardens be without potatoes. But the interest of the poor man is forgotten. In fact it is not bad enough to be poor, but you must tell the world of it before you can get work to help you. Remember, gentlemen of the Government, if you are deaf to the voice of the people now. The people will be deaf to your voice when the time comes for it to sound in the district. We now speak the sentiments of a large majority of the people without fear of contradiction. Yes, from the Clergyman and Doctor to the poor farmer and fisherman who has to haul his caplin or provisions and other things miles on, perhaps, a half-starved horse, a couple of dogs, or his own pack. Clergymen tell us day after day that the road to Perry's Cove is in many places impassable, across the Carbonear Beach it is equally as bad, and other places too numerous to mention just now, but will return to the subject in a future issue and give further particulars as well as the names of the Roads referred to. Every day brings a new and more grave charge against the Road Board to our ears. The above facts, in connection with the Road Board, we challenge any person to contradict and we will give them the privilege of any length of space in our journal for that purpose.

Correspondence:

[FOR THE HERALD]

Reception of Father Phippard at Placentia.

When the telegraphic announcement of the departure of Rev R Phippard from St John's for Placentia became public, preparations were immediately made to receive the first son of the Ancient Capital who fully realizing his expectations after an absence of seven years, returned from Rome with full power and authority to "go forth and preach to all nations." The Rev W Veitch, P.P., King's Cove, and Rev S Flynn, P.P., Fortune Harbor, accompanied Father Phippard as far as Holywood where he remained for the night as guest of Mr John Veitch, of the Anglo American Telegraph Staff. The next day brought him through the picturesque scenery of Salmonier Valley on to the village of Colinet until the South East Woods was reached, where, although twelve miles from Placentia, the Rev gentleman first met with the friends of his youth, the companions of his earlier days. On reaching the waters of the South East Arm the party rested, to partake of the hospitality which is always to be met with, at the house of Mr Kelly, much more so on this occasion.

On the Road from the "Head" to the "Block-House" may be seen signs of welcome, flags at every house floated in the evening breeze, and now the pretty beach of Placentia, eighty-four miles from St John's, was reached, whereon crowds of people, young and old stood to see Father Phippard and accompany him to town. The firing of guns from this point and the display of banners in the town told plainly how welcome Father Phippard was to the home of his childhood, hundreds saw him beneath the parental roof, and night closed a scene that shall long hold a place in the memory of Father Phippard, no matter where the scene of his future labors may be.

He's now at home amongst his friends, No College doubts and fears; And when a few days home he spends, He goes to Father Sears. Well done West Coast, hail native worth. And let merit have its place; Encourage the youth of Newfoundland. Like they done in Harbor Grace.

Local and other Items.

We were surprised at the delapidated piece of paper the Clerk of the Peace read from in presence of Court of Quarter sessions on Monday. We would advise him to get that printed and not insult the Court.

C. B. Hawkins, the popular New York Comedian, and St John's favorite, will visit Harbor Grace on Tuesday next, accompanied by Miss Clara Fisher a lady of well known ability, for the purpose of giving an entertainment in the Total Abstinence Hall on the evening of their arrival, consisting of selections from Pinafore. We hope our friends of Harbor Grace and Carbonear will patronize this enterprising gentleman who contemplates visiting us with a first class Company in September.

On Saturday last, 2nd inst., intelligence was received here by telegraph, to the effect that the assassination of Garfield, President of the United States, had that day been attempted as he was about to take the train for New York. The would-be assassin is a foreigner named Charles Giteau, who is practicing law at Chicago. It is said he has been a disappointed office seeker. Two shots were fired at him by Griteau, one striking him in the back entering near the kidneys, the other lodging in his right arm. At first reports it was very doubtful if the President would recover. Tuesday's despatches said the President slept quiet on Monday night, but his pulse was as high as 124, and a despatch received on Wednesday stated that his pulse were down to 98, and that his recovery is hopeful.

The Rev R Brown, P.P., Tilton Harbor, and the Rev J Scott P.P., River Head, Saint John's, are in town.

Rev Father Martin, Saint John's was in Harbor Grace on Tuesday last.

Rev. R. M. Sheehan, P.P., Bett's Cove, left by the last Plover for his Parish.

Our friend, Rev. S. Flynn, P. P., Fortune Harbor, passed through here on Sunday last, on his way to Bay-Verd, where he intended taking the Plover for his home in Green Bay.

A man named Fennel, was

killed yesterday by falling over the stairs. We have not as yet got full particulars, He was son of Mr. Fennel, late Clerk of the Peace Harbor Grace.

On Tuesday last, the Zulu Cricket Club's Excursion arrived at Harbor Grace about half past nine o'clock. About 12 the cricket match commenced but owing to the rain they had to give it up after an hour and a half. The Terra Nova's Club, who went in first scored but 49 runs for 6 wickets, the other 5 not out. In the evening the Concert and Bonnet Hop took place which were a financial success.

We wish it to be understood by all parties that we are not responsible for the sentiments of the Wasp.

The "Wasp."

"I hope I don't intrude."

TO CORRESPONDENTS.

TRAVELLER.—Yes, we believe the owl it was (hatched we were going to say) born in Harbor Grace and a credit (sic) he is to it. He is expected here shortly and you may be able to make a bargain with him.

SNIFE.—We have received your bite in reference to "Pat of the moustache" and the way he was lined on the Parade Ground in St John's too late for this issue. We shall give it a prominent place next week.

Several interesting bites have been crowded out this issue.

"Fine" buildings—Police Courts.

It was the horastinger who insisted on the Corney showing the bogus ticket to Moriarty.

Is it true that Run-em-down Jack made Maurice and Pat of the Moustache "ride the goat" at a meeting of the club a few nights ago?

It was something more than common to see that graceful young lady accompanied by our Bay Leanderite on Tuesday night. In fact it was a variety. TOLBY

To speak ill of woman is a sin, because all the benefactors of mankind were born of women, and therefore we are obliged to women for all the good that has ever been done in the world.

No, Swap Guest, we decline your lines on the "bird." If he stole your flask and afterwards struck you on the Omnibus when you accused him of the theft you should appeal to a Magistrate.

A preacher in Chicago advocates the introduction of lady ushers in Church to make the young men attend. Even then we hardly think Mickey Lane would go; because he's death on women.

A powerful eye was on you Maggie before you had time to clear him off, never mind, we will keep it a secret, but was it ever possible he made a second impeachment? For shame! For shame. NIGHTINGALE.

I say young man; you are carrying your politeness to far and beginning to act rather barbarously; you had better mind your whereabouts, or you may be duffed against a butt.

A VOICE FROM THE BARKING POT:

You ought to have better sense young man, than to be Joking and even kissing, in the Twilight, on the public street, before the gaze of so many passers-by. It was too spoony friend, and don't you forget it.
