It is understood that a decision has been reached and that in all future contracts the mail steamers must call at Sydney, C. Toronto advices of the 29th, say: Cerebro spinal meningitis, a disease which so far has baffled the science of doctors is making deadly ravages among the poorer farming community in the Ottawa Valley. The number of cases has reached the proportion of an epidemic, and yesterday Dr. Charles A. Haddet, secretary of the Provincial Board of Health paid a personal visit to the district to investigate. He found the conditions fully as bad as reported. One doctor lost four out of eleven cases; another on the Quebec side lost six cases in one house.

The parade of the School Children to Victoria Park, and the parade thither and evolutions there of the military drew a very large throng of people to the Park on Thursday afternoon. The military forces were reviewed by His Honor the Lieutenant Governor. The military, infantry and mounted, presented a very fine appearance, and their evolutions were most interesting and evoked much applause. The sudden coming on of a heavy rain and thunder storm, brought the exercises to a rather abrupt termination and all scampered for shelter as quickly as possible.

Roderick McEachern an employee of James Reid, contractor, fell from the wall of the new bank of Montreal building at five o'clock last Wednesday afternoon and received serious injuries. It seems that the unfortunate man was holding the guy rope which controls the lifting of the stories, when in some way he lost his balance falling backward a distance of 28 feet. In falling he struck his heels and fell over backwards. He was at once removed to Highland View Hospital and on examination it was found that no bones were broken but he was terribly shaken and may possibly have been seriously injured in his spine. McEachern is twenty-five years of age and belongs to P. E. I.

Four men were buried by the caving in of a trench in New York, on Friday last. They were digging for a new gas plant at Long Island City. They were saved by laborers who happened to pass and saw directly in front of them on what appeared to be level ground a man's hand and part of a forearm. Frightened, they stopped and then the fingers of the hand moved. A hasty examination showed the nature of the accident and the laborers dug into the loose soil as rapidly as possible. The owner of the hand was soon taken out unconscious. At the same time the diggers came across the leg of another workman. Later they uncovered two more men. After several hours work the physicians at the hospital restored the four trench diggers to consciousness.

The Elder Despatch liner the Angola, the first steamer of the Canada-Cuba-Mexico service arrived at Halifax early on Thursday last. She left Montreal Saturday. The Angola is a fine steamer of 2800 tons, commanded by Capt. Jones. She took a large quantity of cargo on board at Montreal and she could hardly take all the cargo offered at Halifax. Shipments from there included 1000 drums fish and 20,000 feet of lumber, besides smaller lots. From there she goes to Nassau, Havana, and then to Progreso, Coahuila, Vera Cruz and Tampico, Mexico. Her passengers from Halifax were Mr. and Mrs. F. C. Baker for Mexico. The Angola returns to Halifax. The Dominion will be the next steamer for Mexico leaving Montreal August 20th and calling at Halifax. The Angola sailed Friday. The Dominion may call at Charlottetown.

A crash of thunder woke Leola, daughter of Melville Morton, at Cleveland Ohio Sunday morning just in time to save her father from death by electrocution administered by burglars. The burglars had chloroformed Morton and ransacked the house when a terrible thunder storm broke waking the daughter. She was hurrying to her father's room when she detected the odor of the drug and gave the alarm. Morton was revived after neighbors had worked for an hour or more.

A "Corner" in wheat ended in the Winnipeg Grain Exchange on Monday. July wheat opened at \$1.27 bush, bid, and closed with sales \$1.35. Buyers for Carrothers & Co., who were believed to be in the corner bought 85,000 bushels, presumably with a view to maintaining their position. It is said they and the Ogilvie Company are now loaded with high priced wheat which will be difficult to unload without a greater price than that made by the corner. There were no defaults on exchange, although some of the shorts lost heavily, and the first wheat corner ever manipulated at Winnipeg, closed with no trace of excitement.

Another Ideal Tour.

To the Pacific Coast and the Lewis & Clark Expedition.

On August 28th, the second and last of Bowler's personally conducted tours to the Pacific Coast will start from Portland and Boston, the two sections joining in Montreal, where a Special Train will be taken for the entire journey. This will include the "Trip of a Lifetime," as has been declared by the entire party which started with Mr. Bowler on July 5th. The members of that party cannot say enough as to the generous treatment received. The excellent Dining Car Service was much appreciated, the high class hotels used fully enjoyed, and the excellent routes and side trips called for pronounced enthusiasm from one and all. All are loud in their praises of the service which they received and declare that they will always recommend Bowler's Tours as the "Ideal Tours." You may verify this statement by consulting any one of the July party. Any interested in the August tour should make their reservations at once.

Address R. C. BOWLER, Bethel, Me.

Many are Ready for the West.

It has been announced by the C. P. R., that at least thirty thousand extra men will be required in the Northwest during the next few months to assist in garnering the immense crop of wheat. Five thousand of these laborers will be wanted from the maritime provinces, and the officers of the C. P. R. passenger department are now beginning to size up the situation. Since the reports have been circulated as to the number of men needed, applications for information have been pouring in. The agents of the C. P. R., in all parts of the provinces report that they are besieged with seekers after information, and that the rush to the west this year promises to eclipse anything heretofore known. The traveling passenger agents also state that they are being held up all along the line, and that it looks as though half the people of the provinces were getting ready to move. Last year about thirty-seven hundred people went from St. John, and this year five thousand will be required. The present indications are that fully this number will be ready to go. The exact date for the farm laborers' excursion has not yet been fixed, but it will be in the last week in August. From C. P. R. Atlantic division points in Canada passengers will pay twelve dollars to the western points, and upon presentation of work certificate will be ticketed back to their homes for eighteen dollars. From I. C. R. points in Nova Scotia and Cape Breton the rates will be thirteen dollars westbound and nineteen eastbound, and from P. E. I. Island it will be a half dollar additional each way. There will be only one farm laborers' excursion, but it will of course consist of a series of trains. A little later two harvesters' excursions will be run for which only return trip tickets will be sold. The rate for these will be the same as last year.
