Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent side of it. Buy high quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"
PURITY FLOUR
 You can buy as little as a 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks. Also in barrels and half-barrels.
 Purity may cost a little more than some flours but you'll find its more than worth the difference. To be a must bear the trade mark.

SOLIGNUM!
 Used on Three Hundred Wooden Buildings.
 I consider that SOLIGNUM is all that you claim it to be. We have treated over three hundred wooden buildings and miles of fencing, and in every case our customers have been pleased.
 It is not only a good preservative, but a very good disinfectant. It looks better than paint and does not require doing over again. (Signed) J. WILCOX.
 The above is only one of hundreds of testimonials that may be seen at our office. Copies may be had on application, with price lists and shade cards, from
