The Dental Bill.

Editor Evening Telegram.

Dear Sir,—Please permit me the use of your space to give publicity to certain facts in connection with the amendment to the Dental Bill now before the Legislature. There seems to be quite a strong opinion with regard to the desirability of altering the law regulating the practice of dentistry in this Colony, and while I do not take up the position that some amendment is not necessary, I am of opinion that the state of affairs which will be created by the proposed new law, will be much more objectionable than the conditions that existed previously. If I understand the position correctly it was contended that the Dentists of this city exercised the powers given them by the Legislature to "freeze out" young men, natives of this Colony as well as others from the practice of dentistry here. This was accomplished first by an examination as to fitness, and secondly by charging an exorbitant fee for such examination, and with a view to preventing such an alleged abuse of their powers, there has been introduced into the Legislative Council, a Bill, which provides that every person who had gone through a certain course at a Dental College would be entitled to admission to practice here without examination. The Dentists asked to be heard against this measure and contended that there was no intention or desire to exclude from practice any properly qualified applicant but that in order to properly conserve the public interests it was necessary that an applicant for admission to practice should pass an examination in practical work other than his College or graduating examination and the result has been that the Legislature has modified its original Bill so that it now reads that any applicant who has passed the examination of a Board in Great Britain or any of the Provinces of Canada or States of the United States may be admitted.

Mr. Editor, I hold no brief for one side of this question or the other, but it seems to me that the enactment now proposed is unfair and unjust to any of our young men who are either practicing dentistry at present or may enter that profession in the future. In the medical profession and the legal profession I understand that some sort of a reciprocal arrangement exists by which the standard of outside places which grant a similar privilege to us are recognized here. Now, the Dental Act will mean that the examinee of any State of the American Union or of any Province of Canada can come here to practice, whilst there is no reciprocal provision whatever in favor of one of our men. In fact, to go further, these Provinces and States themselves do not recognize each others examinations except in some few cases where the interchange of licenses has been provided for. It seems to me, Mr. Editor, that in view of these facts the obviously correct course would be to admit to practice only holders of certificates from such States or Provinces as grant the same privileges to the holders of a Newfoundland certificate.

Yours truly,
CITIZEN.

April 3rd, 1913.

The Stupid Policy.

Editor Evening Telegram.

Dear Sir,—A short time ago the Government press reported Sir Edward Morris as saying in the House, in reply to Mr. Kent, that "one need only visit the outports to find that great benefits have already come to the people in improved stock and crops." He also referred to the reports of the outport secretaries of our agricultural societies in proof of his argument. I propose to show how much we, in this district, have benefited by the Government's agricultural policy. Last year we were sent seed potatoes as usual. They were covered with a black scale resembling coal dust (some said they were out of the ice in sealing ships). They were shared out to the people, who set them expecting a big crop. If Sir Edward had taken a drive through this district in August last, he would easily have seen the result of his policy in this direction by the naked spots in almost every person's potato plot. We also got some sheep every year. Who will say that the breed of sheep has improved one iota? As the butchers who are in the habit of buying the lambs about their increase in weight. The pigs have shown an improvement over the old stock in an average of about twenty-five lbs in weight, or about three dollars worth of pork more when killed, but they produced another effect, namely the raising of the price of young pigs from one dollar formerly to four dollars now. Thus we stand to lose a net value of one dollar on every pig we purchase and rear for our consumption on account of Morris's agricultural policy.

Of bulls we received a few, resembling a cross between a male brown bear and a Kerry cow. Result: 1. From here. As to the secretaries' reports, Mr. Editor, Sir Edward should know that the average secretary is talking for his twenty dollars, and in some cases for free potatoes for his family table during the summer months, besides free cabbage, turnips and other seeds for his garden! These are about the only men in the outports who are benefited by the present agricultural policy.

The top screws of your agricultural machinery are too loose, Sir Edward. The men in charge appear to know nothing about the selection of stock or seeds, so become easy victims to our more alert neighbors of the Canadian Provinces. But then, I suppose they must get the pickings.

In conclusion, I will remind the Hon. John C. Crosbie that his friends are expecting him over with the 'bar' soon.

With thanks for space,
I am, Yours etc.,
FISHERMAN FARMER.
Bay de Verde District.
March 29th, 1913.

PILES CURED IN 6 TO 14 DAYS.
Your druggist will refund money if PIAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c per box.

Cable News.

Special to Evening Telegram.

NELSON, B.C., April 4. Eight of 16 teachers in the Nelson public schools went out on strike this morning. They signed the register and then calmly left the school.

VANCOUVER, April 4. Prospectors in the new gold field at Silver Creek, in northern British Columbia, found gold bed-rock, yielding 75 cents to the pan. It will take several months, however, to prove the gold fields, as on most claims water and ice prevent working.

LONDON, April 4. Countess Cooper, who died at Cannes on March 23rd, had a peculiar funeral at Hertford, England. The coffin was taken to the church on a timber wagon drawn by two farm horses, with a white pall over the casket, made out of her wedding robe.

LONDON, April 4. The suffragettes made a wholesale attack on the pictures in the Manchester Art Gallery last evening, smashing the glasses of the pictures before they were checked. Three were arrested. Christabel Pankhurst says that her mother's sentence is an incitement to violence.

HARTFORD, April 4. Curtis Dewey, serving a seven years' term for forgery, made a sensational escape from the State prison at Wethersfield, yesterday. He concealed himself in a packing case supposed to contain products of the prison shirt factory. The box was taken to the railroad freight car where he pried it open and escaped.

LUNESVILLE, April 4. The Zeppelin, after refueling, ascended and departed for Germany shortly before 3 o'clock this afternoon, her landing having been satisfactorily explained to the French authorities. The airship and her crew were afterwards released on payment of \$2,000, as customs duty for the incident was declared closed.

HAVANA, April 4. The British cruiser, Cumberland, with Prince Albert on board, arrived here yesterday. A dinner was given by the British Minister last evening to the officers, but the Prince did not attend, as midshipmen are not eligible to be present at official functions, and the Prince is in mourning for his great uncle, King George of Greece. The British colony will have an entertainment in his honor to-morrow. The Cumberland sails for Bermuda on Sunday.

FRIEDRICHSHAVEN, April 4. Carload tanks of hydrogen for the Zeppelin stranded at Lüneville, have been despatched from here. Captain Glund, the aviator in charge, hopes to complete the formalities permitting him to return by the air route to-day, but merely expresses regret that he crossed the French frontier during a fog, and does not mention in his telegraphed despatch any defect in motor or steering gear. It is thought that the landing at Lüneville was due solely to a shortage of gasoline.

LONDON, April 4. Warnings have been sent out by the railroad systems that the suffragettes have threatened to burn railway stations. Patrols have been organized at all stations and in the streets. Some empty trains were damaged by explosives near Stockport, during the night. Explosives had been placed under one of the cars with a quantity of flammable material soaked with oil. The force of the explosion splintered the sides of several of the cars, a number of the doors being hurled a long distance. An attempt was also made to blow up the Oxford station, Surrey, on the London, Brighton and South Coast Railway, but the damage was considerable, only the windows and door of the lavatory being shattered. A travelling basket was found in the lavatory, containing a clock timed to go off at 3 a.m., and some cans of petroleum. A fuse had been set in a small package of gunpowder, which evidently exploded without igniting the petroleum. A revolver was found outside the lavatory, which apparently had been dropped during a hurried flight.

AUBURN, N.Y., April 4. Rioting in the Columbia Rope Co's plant was renewed this morning. A prisoner was forcibly taken from the hands of the police, who drew their pistols. They fired one round over the heads of the strikers. When again attacked, they fired into the crowd. Six strikers, two women and four men, dropped and were taken to the City Hospital. Two will die, one of them a woman. After the shooting the mob reformed and made an attack on Chief of Police Bell and his thirty officers. They obtained bags of salt and threw them into the eyes of the police, who to avoid further bloodshed, took up positions inside the mill gates. The strikers then charged the gates, the police fighting against great odds. Rumors that many of the strikers had gone back to the foreign colonies to obtain weapons, caused Chief Bell to send for the fire department. They continued in an ugly mood until the Mayor decided to call out the Militia. The riot call was sounded through the streets. Within an hour, Captain Johnston assembled his men, and they were ordered to patrol the entire city, while the Mayor parleyed with the strikers.

'Another Success.'
The Casino Theatre was crowded again last night, and the players made a more favorable impression than on Thursday night, if that be possible. It is not often that a company of actors make such a big hit in the opening performance as Mr. Barr and his assistants. The attendance last night was very large and everybody came away charmed. The company was in excellent form and their work was most creditable. This afternoon there will be a matinee, while to-night there will be two shows. On Monday night there will be a new play, entirely different from "The Train Robber," but equally as good.

A FAULTLESS FOOD PRODUCT

EPPS'S COCOA

Breakfast is made a delight with "EPPS'S" steaming from every cup.

ON raw cold mornings EPPS'S Cocoa gives you a glow of generous warmth which makes you defy the cold. It contains the most nutritive product of the finest cocoa beans, viz., the cocoa butter. "Epps's" is a favourite throughout the world, and is as strengthening as it is delightful to the palate.

Children Thrive on "EPPS'S"

At the City Hall.

Yesterday afternoon the weekly session of the Council Board was held. Owing to the death of Councillor J. J. Channing no business was done. In opening the Mayor, Mr. Ellis referred to the deceased Councillor with deepest regret. The Councillors all spoke in similar terms, regretting the death of their brother member of the Board.

That following Resolution of Condolence was then submitted and passed:

"WHEREAS: It has pleased the Almighty to remove from our midst our fellow councillor Jas. J. Channing and, whereas: the close association held by our deceased colleague with this Board during the past three years, render it proper that we place on record our sincere appreciation of his services to the Municipality and his merits as a man, therefore:

BE IT RESOLVED: That in the death of our colleague this Council loses one who was always active and zealous in his work as a Councillor; ever desirous of advancing the interests of his native city and devoted to its welfare and prosperity; one who was wise in counsel and fearless in action, an honest and upright man whose many good qualities endeared him not alone to the members of this Council, but to all his fellow citizens.

"RESOLVED: That the Council tender its heartfelt sympathy to the family and relatives of our deceased brother in their sad affliction.

"RESOLVED: That these Resolutions be entered upon the minutes of this Council and a copy forwarded to the family of deceased colleague.

"BE IT FURTHER RESOLVED: That out of respect for the memory of our deceased colleague the regular business be dispensed with. The Mayor and five Councillors and the heads of the different departments in connection with the Council will attend on funeral. It was moved that the Secretary obtain a wreath to rest on the coffin of the deceased councillor.

From All Over the Great West

COME REPORTS FROM WOMEN OF DODD'S KIDNEY PILLS.

Telling of Renewed Health and Fresh Vigor Through Using the Great Canadian Remedy.

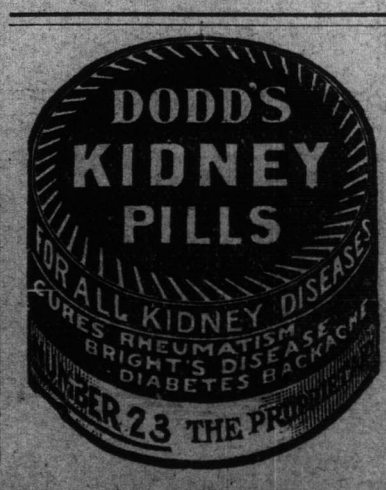

Overland, Sask., April 4. (Special).—From all over this great west are coming statements from women who have found renewed health and fresh vigor through using Dodd's Kidney Pills and in this growing community evidence is not lacking that the great Canadian remedy is daily gaining friends among those on whom the burdens of life fall most heavily. Mrs. D. Forsberg, a well-known resident, says: "Dodd's Kidney Pills did me a great deal of good. I tried two other brands of medicines before using them but it was Dodd's Kidney Pills that benefited me."

Women's health depends on the kidneys. If the kidneys are not right the result is weakness and weariness and a burden of pain almost too great to bear. But when Dodd's Kidney Pills make the kidneys right the result is that all poison is strained out of the blood, the seeds of disease are removed and the purified blood carries health and vigor to all parts of the body. Almost any bright, healthy woman can tell you why Dodd's Kidney Pills are known as woman's best friend.

Whaling News.

The whaler Cabot, Capt. Bull, sails to-day for Balena to begin the season's operations. A member of the crew, the blacksmith, is at present in Sydney hospital but will be sufficiently recovered in a few weeks to join the steamer. Capt. Bull met with fair success last year. The Hump, Puma and Lynx are now getting ready for this season's work. All three are on dock being overhauled. Their crews are at present en route from Norway. The Cachet will not be able to operate at Hawke's Harbor until later on in the season, owing to the ice on the coast.

POGIE FISHING. — Forty young men belonging to Torbay and adjacent places left by the City of Sydney. They will go to Boston and New York to engage at pogie fishing. Last summer they made good money.

DODD'S KIDNEY PILLS

CURES ALL KIDNEY DISEASES

BRONCHITIS, RHEUMATISM, GRAVEL, DIABETES, BACKACHE, NEURALGIA, MIGRAINE, ETC.
