

SPORTOGRAPHS

NEW WORLD'S RECORD.

DOVER, Eng., Aug. 13. Hermann Tilchocchi, the Argentine swimmer, landed here this afternoon after swimming the English Channel from Cape Gris Nez, France, in the record time of sixteen hours, thirty-three minutes.

INTERMEDIATE RACE OFF.

"Sportographs" Sir—On behalf of the St. John's Amateur Club I regret to say that we are unable to accept the challenge to row St. Bon's again owing to the coxswain and one of the crew being out of town.

H. Rogers.
(St. Mary's Stroke).

GOLF.

The third and fourth rounds of the St. John's Amateur Championship were played at Freen on July 28. Mr. John Wilson, the holder, was defeated by K. B. Symington, a local player in the third round. There was a very wind blowing. Mr. Symington turned 1 up and won the next 2

holes, winning the match on the 16th green by 3 and 2. Mr. Willis MacKenzie won his match in the third round against J. R. Hoels.

AN EXPLANATION.

The challenge of Jack Dunphy, the St. Bon's stroke, in "Sportographs" on Saturday, has since been repudiated by the balance of the crew, on the grounds that in the first place he apparently had no right to take upon himself the authority to issue such a challenge to St. Mary's, and secondly that St. Bon's consider it would not be living up to the ethics of the game to even suggest that the race be re-rowed after St. Mary's winning in such a sportsmanlike manner. We have not been favored with a copy for publication of the letter which the challenger saw fit to write the News this morning. In it he states that the editor of "Sportographs" is in no way responsible for the challenge. Well, we should say not, seeing that it was put in and signed at Mr. Dunphy's urgent request in the presence of Mr. John M. Tobin, Secretary of the St. Joseph's Regatta Committee. When he suggested that the challenge be published in the Telegram he was

informed that this could not be done unless his signature were appended. So that's that!

LAWN TENNIS.

Scotland Beat England. Scotland beat England by three matches to two in the International Match, which was concluded at Ravelston Dykes, Edinburgh, on July 28.

REGATTA TO-NIGHT.

Should weather conditions at all permit the balance of the St. Joseph's Regatta program will be run off to-night. The first race will be the District at 8.30, followed by the Old Commodore, Fishermen, and Championship, all of which should be most exciting. The Mount Cashel Band will be in attendance. For the Old Commodore a most unique silver trophy in boat shape will be presented. It was presented through the kindness and generosity of Messrs. Fred and Gus Wadden and it is at present on exhibition at Milley's where it is attracting much attention. The programme will conclude with a dance in the Parish hall.

SQUASH RACKETS.

The Tennis and Rackets Association have received an invitation from America to send a team of squash racket players to represent England in the American and Canadian Championships and in an international match. The invitation has been accepted, and probably a team of six players will sail in February. The Squash Rackets Championship in this country will be held on December 10th, and following days at the Harcourt Club, on two standard courts, which are now in course of erection and should be completed by the end of October.

GRAND FALLS TEAM.

Mr. R. E. Innes, who is going to Grand Falls as manager of the city team, has received a letter from the Secretary of the Grand Falls Club, stating that all arrangements are finalized for the inter-town series, the opening game of which will be played on Monday next, and the remaining games during the week.

An railway accommodation must be arranged by to-morrow, all who intend going out with the team should send in their names to-day, as in case sufficient fans offer, a special excursion train will be made up by the General Passenger Agent Pittman, to leave here Saturday night, the fare for the return trip being \$13.50 first class. Last year Grand Falls almost turned the tables on the city eleven, and it was only Wain's goal tending that saved the situation. This year Wain is again going out, while Tait, Thistle, Maddigan, Meaney, Duggan, Hunt, Flynn, Ewing and Coultas are also going which will make a strong aggregation and an interesting series is anticipated.

\$50,000 OFFER TO DEMPSEY. NEW YORK, Aug. 11.—Harry Verner and Simon Flaherty, boxing promoters, to-day deposited with a bank a cheque for \$50,000 which they said would be given Jack Dempsey if he would meet Harry Wills for the heavyweight title before battling with Luis Angel Firpo. The promoters declared they had an option on an arena at Greater New York that would seat at least 90,000 persons.

HIGHLAND GAMES WEDNESDAY. Competitors are reminded that entries will be received to-day and to-morrow between 8 and 9 p.m. at St. Andrew's Club Rooms by Mr. Jack MacNeil. The games will be held under the distinguished patronage of His Excellency the Governor, and nothing is being left undone by the energetic committee to make it the most successful event ever held in Newfoundland. The final meeting will be held to-night.

SWIMMING.

The most important event at the sale of the Croydon Ladies' Swimming Club, which was held at Croydon Baths, was the semi-final tie of the Southern Counties Water Championship, in which the Otter Swimming Club beat the Forest Hill Swimming Club by six goals to three. The Otter Swimming Club will now meet the City Police in the final tie. The 100 yards boys' championship of the Borough of Croydon was won by P. J. Weston, who beat the existing "record" made by K. D. MacLennan in 1913, by three-fifths of a second.

BROAD COVE REGATTA.

The Broad Cove Regatta will be held at Broad Cove on Wednesday next, the 15th. The energetic committee in charge has prepared an excellent programme for the day and the following races will be run off:—Single Scull, Double Scull, Farmers, Fishermen, All-Comers. Entries for the races are to be in to the Committee not later than this evening. At night a dance will be held in the old school house and the presence of friends from the city will be appreciated by those in charge.

STATED WITH FIRPO.

OMAHA, Nebraska, August 2.—Luis Angel Firpo was forced to go through ten rounds with Homer Smith, of

Kalamazoo, Michigan, heavyweight, to-night, before winning by a referee's decision. Firpo won the bout by a large margin, newspaper men at the ringside said, scoring knock-downs almost at will. It was the first time since the Argentine's entry to his country that he did not win his fight by the knockout route.

DRAWN BIG CROWD.

The arranged match between the West and East teams to augment the Inter-town Football funds attracted a large gathering on Saturday evening, the gate being worth about eighty dollars. The West Enders put it all over the wise man from the East by a score of 4 to 0. It was really too one sided to be interesting, but at times there were flashes of really good soccer.

Mr. Lewis Pricks the Moscow Bubble.

(Saturday Evening Post.) When the other day John L. Lewis, International President of the United Mine Workers of America, expelled from his organization the Reds of Cape Breton and revoked their charter, he did not mind matters. He reminded Livingstone, McLachlan and others of their Moscow affiliations, and made it clear that people of this revolutionary stripe had no place in the U.M.W. Livingstone, and his evil genius McLachlan, as President Lewis called him, may kick and squirm for a time, but the power of the U.M.W. wrested from them, they and their Red followers will eventually subside. It is quite possible that the fare-up may result in another miners' union being formed by the Reds, but this, getting little or no public support, would eventually die in its tracks.

Shrewd leader that he is, Mr. Lewis realizes, as does Mr. Gompers, that labor unions on this Continent must be kept clear of Moscow influence, else their death knell is sounded; and moreover they must, to be successful, obtain and retain the respect of the large mass of people who are in no wise affiliated with unionized trades. As Mr. Lewis pointed out in his official communication, a union must, like any other concern, live up to its contracts, a thing which leaders like McLachlan take no account of.

In this country "papier-mache revolutionists" such as McLachlan, can in the end get nowhere, and while the situation in Cape Breton is serious, it is, thanks to the presence of armed forces, in no way dangerous. Law and order in this country are going to be maintained, and Mr. Lewis' declaration denouncing this "mad adventure," as he calls it, is going to be a great help in restoring the reason of many who were taking too much stock in such gas bags as these Red leaders have proved themselves to be.

In the meantime the steel workers are going back to work in large numbers, and the miners, with no funds upon which to draw, and no union status, are bound to follow.

The Leading Light

for home illumination now-a-days is unquestionably Electricity. It is superior to gas in many ways—cleaner, too, and not nearly so dangerous. Every home should now be lighted with Electricity—it is so easy to install, so easy to operate. And the light it gives far transcends gas. We are prepared to install electric light systems in households at a most reasonable figure—to fix the same complete and attend to all details and necessary repairs.

MINARD'S LUMBER FOR BARN, DRUFF.

Our Last Day in Camp.

Fine day all day, probably the most agreeable day during the camping period. Morning devoted to thorough cleaning up of grounds and lines preparatory to inspection by His Excellency the Governor. Everything was up and again. Lt.-Col. Rendell arrived in camp about 11 a.m. and His Excellency the Governor with Lady Allard, Major Bell and Capt. Goodfellow, arrived at 11.45 and inspected the guard at the entrance to the camp. The Battalion was drawn up in close column of companies on the parade ground and received the Vice Royal Party with the General Salute. The total on parade were 10 officers and 100 hundred other ranks. The officers were:—Lt.-Col. Rendell, C.B.E., Major Tait, M.C., Capt. Snow, Short, Lewis; Lieuts. Reid, Hayward, Moty, and Ash, 2nd Lieut. Barly. The latter was Orderly Officer for the day. The special guard was under Sergeant L. Hooker. Lt. Harold Hayward was in charge of the Colour Party. His Excellency inspected the Companies which were in charge of Capt. Snow and Lieut. Reid, respectively. The Battalion then marched past in four columns toward the saluting base in review orders and saluted the Governor. His Excellency then addressed the troops and complimented them upon their numbers and appearance. He was glad to see the Outpost detachments in a common camp, and reminded the lads that the C.L.B. was doing a great work for the young manhood of the Island and advised them to get their pals to join up. He said it was a good training ground for development of citizenship. After the address, the Camp Commandant called for three cheers for His Excellency and Lady Allard. The Governor's party then made a thorough inspection of camp and appeared greatly pleased with the layout and the conveniences for the lads. They were especially interested in the new mess hut and cook-house. He greeted the staff there and complimented them. He then came back to the parade ground where the battalion gave him the general salute on his departure. The afternoon was spent in dismantling the camps and preparing for the return to headquarters. The Colonial Cordage truck came about 4 p.m. and marked the first step in bidding farewell to camp. Topped, Bell Island, and Bay Roberts contingents left at 9 a.m. and both contingents were given a hearty send off. Motor cars began to arrive at 7.30 and return to town was made at 8.30. Many thanks are due to kind friends who placed cars and trucks at the disposal of the brigade. Gas Lester lent his bus and truck. All got back to town safely. Lt.-Col. Rendell and Major Tait brought up the rear and saw all ranks underway. Quartermaster Moty and staff are deserving of great praise for their efficient and whole hearted service. The cooks stayed over to look after the final cleaning up of their department. Grand Falls contingent left for their homes by Sunday's express. This Company's contingent made themselves very popular and we hope to see more of them next year. In fact Camp Commandant, Major Tait, M.C., reports he had nothing to complain of. All the lads behaved like gentlemen and no breaches of discipline were on record. All ranks break camp with great regret and wished the period was two weeks instead of ten days. This may be Major Tait's last camp for some time as he leaves Newfoundland next month to reside in Boston, Mass. with his family on account of climatic conditions. The Major is a most popular officer with the Brigade and it is a hard blow to his comrades to hear of his intended departure. However, we hope he will organize the C. L. B. movement in Boston—where there is a bigger field and a crying need for an institution of this sort. Well 1923 camp is over—the attendance has been the biggest on record. Notwithstanding the weather threats to all kind friends, everybody voted it a great success and we are sure have given the campers a new lease of life.—Q.

Mike Resents the Light of Truth.

Mike Healy, of North Worth, Texas, did not like my last reference to his invitation to British agents to send him cash for "pool interests" in what he described as "the irresistible oil-fortune-making opportunities" of Mike Healy, Limited. He sat down and addressed to me yet another letter, from which I extract the following:— "I darsay that you have never constructed or built anything worth while in your entire career; you belong to the howling derelict class; you thrive on malice, sarcasm and mischief; you are a circulator of dirty, malicious and libellous lies.

Just to enlighten your polluted and destructive brain, I enclose you a reprint showing several reports about the big gusher well we completed on May 27, that in nine days has made over 70,000 barrels of oil. Do not think for one minute that we are after little stock sales, as our plans are constructed on sound business lines that will be carried out over a period of years with long-experienced and capable management.

Some day the writer trusts to have the pleasure of meeting you personally, and at that time you will probably hear ringing in your ears the echo of 1776, when a few Yankee colonists gave a bunch of asinine British redcoats the damnest thrashing your race has ever suffered since its organized Government was formed. After chastising you properly and fully, we will consider old scores at an end, and in a spirit of a true sportsman will entertain you with a few choice woodcock and ample portions of the best champagne. Take an inventory of yourself, old sport, and get a brand new set of ideas. Cut out all that bally rot in your poison pen, and mend your ways from the "Holler Than Thou" spirit you employ from your pedestal of mutton pies and barley water."

This effusion gives colour to the stories one hears about the dogging of the Prohibition law in America, for it is incredible that Mike finds his inspiration in barley water.—Truth.

The biggest, brightest and snappiest programme yet attempted will go with a swing at the Highland Games on Wednesday.—aug13.11

How Population is Lost to Canada.

(By Dr. Clifton D. Howe, M. F., Acting President, Canadian Forestry Association.)

(Saturday Evening Post.) The disastrous effect of a forest policy which compels the lumber industry to migrate from place to place is to be found not only in the forest itself and on the farm, but also, in the larger towns. Throughout Eastern Canada there are many towns once growing and prosperous, but now declining and discouraged because the saw-mill, or other wood-using establishment, has gone out of business through the failure of forest supplies. They are in the condition which the commercial traveller so aptly designates as "dead."

The older men of my readers will at once recall illustrations of what I mean, but for the benefit of the younger men let me give one example. Forty years ago the town had a population of 1,300. Then came a saw-mill, or at least the old mill was rejuvenated and enlarged. In ten years the town had a population of 3,000 and in another decade it had reached 5,800. From this point the output of the mill declined and about fifteen years ago the work became spasmodic and finally the mill went out of business because the river valley above had been logged out. The population decreased with the declining fortunes of the mill until now the town has less people than it had 40 years ago. Stores and shops have been abandoned; whole streets have vacant, tumble-down houses. Discouragement and despair are written everywhere in that village—in the faces of its people as well as in the condition of its streets.

This town, like many others, is the victim of an administrative policy on the part of the Government which regards a forest only as so many trees to be cut and not as a restorable resource capable of producing crops indefinitely when properly treated. The river valley had and still has forest soil enough to support three such towns as the above at the time of its best development, under intelligent use and conscious effort to keep the forest continuously productive.
