MANHOOD:

How Lost, How Restored. We have recently published a new edition of DR CULVERWEEN'S CELEBRATED ESSAY on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc. resulting from excesses.

Price in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay clearly demonstrates from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the ap-plication of the knife; pointing out a mode t once simple, certain and effectual, by means f which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of very youth and every man in the land.

#### The Canada Permanent Loan and Savings Company. HEAD OFFICE-MASONIC HALL, TORONTO.

The Cheapest Loan Company in the Dominion.

The undersigned continues to act as Appraiser to this old established and favorably-known A BANKING OFFICE has this day been opened in JOHN R. McRAE's BLOCK, Main Street, Glencoe, where a BLOCK, Main Street, Glencoe, where a list. You can obtain any sum you require at any time, and for any term you choose, not

exceeding 20 years, and at the lowest rate of interest.
2nd. The full amount of the Loan is advanced; no deduction being made for commission, payments in advance, or, if desired, for lawyer's fees or other expenses.

3rd. You can receive the money from the Society and pay it back through the Agencies of the Bank of Montreal, or Bank of Toronto, free of charge.

4th. You can repay the Loan by yearly or half yearly instalments, as best suits your convenience, and pay the first instalment at any time within eighteen months.

5th. You can pay back any sum you please, in advance of the regular instalments, and interest at 6 per cent. per annum will be allowed for every clear month.

6th. You can pay off your Mortgage in full if you desire, without notice, upon air and equitable terms, and as the Company has a fixed location, the place for gayment is always become

known.

7th. Having to pay off your Mortgages by small instalments, at a low rate of interest, and in your own time, you avoid all risk of losing your property, or of having to borrow again to pay off the Loan. By taking the longest term, your annual payment for principal and

interest will be little more than what you would have to pay for interest alone.

Sth. The necessary expenses are fixed, and lower than those usually rarged. They may be included in the Mortgage and paid back with the instalments, when there will be not lawyer's or other fees retained out of the Loan.

9th. You secure the strictest privacy as to your affairs in your own reighborhood, and

are not subject to the mercy or caprice of any individual, and as the Company cannot own real estate, it can have no possible interest in oppressing you if unprepared to excet your engagements.

10th. You are dealing with a wealthy corporation of long standing, which has already

made nearly 11,500 Loans, amounting to about eight and a half millions of dollars, and in no instance has it ever taken undue advantage of one of its customers. In last year it effected more than One Thousand Loans.

Car The superiority of the Sinking Fund System for the repayment of Loans over the old plan of having the principal fall due in one sum is now so well established both in this country and Europe, that any lengthened reference to it is unnecessary, but I think it proper to call the attention of borrowers to the following examples, showing the comparative cost

a loan from this Company, and one obtained at 8 per cent, upon the ordinary terms of interest payable half yearly, and the principal payable at the end of the term: EXAMPLE I .- INTEPEST AND INSTALMENTS PAYABLE AT THE END OF MACH MALF-YEAR.

Upon a loan of \$1,000 for 5 years there will be required for Interest, 10 half-yearly payments of \$40 each. \$400 00 Principal money. \$400 00 Upon a loan of \$1600 for the same term from this Company, there will be required, to redeem both principal and interest, 10 half-yearly instalments of \$126.40 each, 1264 60

Difference in favor of the Company...... \$136 60 EXAMPLE II.—INTEREST AND INSTALMENTS PAYABLE IN ADVANCE. Upon a loan of \$1000 for 10 years, there will be required for interest, 20 half-

yearly payments of \$40 each Total payments on a loan at 8 per cent... \$1800 06 pon a loan of \$1000 for the same term from this Company, there will be required, to redeem both principal and interest, 20 half-yearly instalments of \$73 60 cach, 1472 00

Difference in favor of the Company ..... \$328 00 Landed proprietors are also reminded that by paying in advance a yearly instalment of 101.80 on a loan of \$1000 for 20 years, or a small fraction over 10 per cent per annum, both incipal and interest will be entirely paid off. All further particulars may be ascertained on applying personally to
