Before the council convened the varous committees and municipal bodies had informal meetings to endeavor to reduce their estimates if this could be reasonably done. The \$10,000 which the water commissioners proposed to spend on capital account will be raised by bentures, after the usual manner, nstead of being taken from the curcent revenue, as was set down in the original estimates. No. 1 committee reduced its estimate for incidentals from \$6,367 10 to \$5,858 37. The Board of Works whittled \$3,500 off streets and general improvements, and \$200 off repairs to bridges, and added \$1,000 for treets and street elegating. street cleaning, \$700 for sewers and ment. There was a general opinion that hight. He said there was another bylaw, proand fences. No. 3 committee effected a reduction of \$600 on fire halls; the Hospital Trust also sawed off \$500; the Board of Education, \$1,000 on public schools, and the Separate School Board With the final estimates now in

finance committee were enabled to ported to the council when it met immediately afterwards. When the motion was put it carried

without a dissenting voice.

THE MAYOR'S EXPLANATIONS. The mayor asked permission to make a few remarks. He said the rate was practically the same as last year. For example, the man who paid \$10 taxes in 1896 would pay \$10 07 this year, so that it was practically correct to say that the rate of 1897 was the same If they had not had to give the School Board so large a sum the rate would have been lower. He did not say this with a view to reflecting on the School Board, as there were exceptional circumstances this year preventing that board from making such a reduction as the council would like. If the board had been able to limit itself to the natural and usual increase of \$3,000, the rate would have been lessered, but, as it was, the board had to have about \$6,000 increase. Taking the items under the control of the council, the mayor pointed out that in 1897 the Board of Works asked for \$31,400, while in 1887 the board spent \$30,857, and the latter sum was lower than any spent since that time. He mentioned this to correct the general impression that the council was not as economical as it ture, the council this year compared the salary be made \$1,050 per annum. very favorably with others. Considering that they had to meet extraordinary expenses, such as the Grand Trunk not beat about the bush bonus, the sewers, and the Lewis case, the aldermen had reason to be well satisfied with their record. The rate

At the request of Mr. C. R. Sayer, the council unanimously extended an invitation to the international Y. M. C. A. to hold its convention in London MEDICAL MEN PETITION.

Dr. English, for the Medical Association, asked for the appointment of a city bacteriologist, and the establishment of a laboratory here.

city bacteriologist, and the establishment of a laboratory here.

Dr. Ferguson first appeared in support of the request. He said it had been under the consideration of the Medical Association for a long time. The cost would be about \$500 for the first year, \$300 for the laboratory, and \$200 in salary. Dr. Ferguson pointed out clearly the necessity for such, especially in diphtheria, tuberculosis, and the establishment of a laboratory here.

Aches and Pains.

For headaches (whether sick or nervous), toothache, neuralgia, rheumatism, lumbago, pains and weakness in the back, spine or kidneys, pains around the liver, pieurisy, swelling of the joints and pains of all kinds, the application of Radway's Ready Relief will afford immediate ease, and its continued use for a few days effect a permanent cure.
