THE CHASE AFTER DEWET

The Wily Boer Commandant's Flight Checked.

Kruger Denies That He Intends to Surrender.

Invalided Canadians Coming Home-Boers Shoot an Englishman.

London, Saturday, Aug. 11 .- A Pretoria dispatch of yesterday's date,

"It is said that Lord Methuen has arrested Gen. Dewet's march.

"All of the Boers in the field credit a rumor, circulated by their leaders, that Lord Roberts is dying. Lord Roberts, however, is now in excellent health, is displaying wonderful energy, und rides long distances daily."

KRUGER'S INTENTIONS.

According to the Lorenzo Marquez correspondent of the Daily Express, President Kruger, in the course of an interview last Wednesday, said that the report that he intended to surrender was without foundation. He declared that the war would last a long time yet.

BOER REPORTS.

"A Boer bulletin," continues the correspondent, "announces a big battle between Lydenburg and Middleburg, in which the British had 500 killed and wounded. It also announces the recapture by the burghers of Heilbron, Devilliersdorp and Frankfort."

(Boer reports via Lorenzo Marquez lately have proved worthy of little credence.]

STERN MEASURES DEMANDED. The Pretoria plot is the theme of many editorials this morning. All the papers decry the idea of treating the Boers too leniently. "Examples, and stern examples," says the Daily Mail, "are necessary. Although we may not agree with Sheridan's fierce maxim, that nothing should be left an enemy but eyes to weep with, yet this was the conclusion of a not inhuman officer, who thoroughly understood war."

It is persistently rumored in Lorenzo Marquez, according to a dispatch to the Daily Telegraph, dated yesterday, that Mr. Steyn has committed suicide.

BOERS SHOOT AN ENGLISHMAN. Cape Town, Aug. 10.-The Lorenzo Marquez correspondent of the Cape Argus telegraphs that the Englishman. Cooper, who was convicted at Machadodorp of blowing up the Magdalene bridge on the Delagoa Railway, and condemned to death by court-martial, was duly shot. He refused to disclose his accomplices unless the Boers would agree to spare his life, a condition which they refused.

The Canadians.

INVALIDS COMING HOME.

London, Aug. 10 .- Some of the Canadian invalids will sail for home on Tuesday and others on Thursday following. It seems impossible to induce the war office to move in the matter of shipping the Canadians home. Many of the men are willing, if permitted, to pay their own passage rather than remain here in idleness, but that permission they cannot get. Lord Strathcona and the Canadian officials have been indefatigable in their efforts on behalf of the invalids, but without

FIT FOR DUTY.

London, Aug. 10 .- The official returns show that the following Canadians are fit for duty, and have been sent to Shorncliffe from Woolwich Hospital: 110, Pte. Brown; 7,365, Lieut. McCosh; 137, Pte. A. G. Hall.

Trade conditions still exhibit many of the irregularities incident to the transitory slackness between the midsummer and early fall trade. Prices are not showing the precipitate declines noted some time ago, and among the really encouraging features are the advance in wheat, mainly based on improved export inquiry. From July 1 to date this season, wheat exports are 887,629 bushels, against 22,125,060 bushels last season. Corn exports for the week aggregate 2,890,754 bushels, against 3,890,000 bushels last week and 5,905,361 bushels in this week a year ago. From July 1 to date this season, corn exports are 21,864,025 bushels, against 26,995,564 bushels last season, and 17,032,344 bushels in 1898-99.

THE I. O. O. F.

Substantial Proofs of the Order's Prosperity-The Oddfellows' Home Scheme to be Carried Out.

Hamilton, Ont., Aug. 10.—The grand lodge, I. O. O. F., resumed its session today. The several recommendations made by the committee on reduction of grand lodge expenses were considered and amendments made thereto. The grand lodge will in future endeavor to limit its sessions to two days, and sessional committees will meet a day previously to prepare reports.

The report of the finance committee, presented by P. G. M. Joseph Oliver, of Toronto, showed a balance at the close of the year of \$732 82, or \$487 06 more than at the close of last year. It was decided to continue the publication of the Independent Oddfellow as the official organ. Past Grand Master J. A. Young, of Thamesford, presented a committee report on subordinate constitutions, which made several recommendations of minor importance.

Representative H. J. Guppy, of Ottawa, presented a very satisfactory report of the advisory committee, respecting the Oddfellows' Relief Association of Canada. The association is a highly solvent and far-reaching, helpful, fraternal organization.

The financial standing of the association is much more satisfactory than last year, showing a prosperous and steady growth in the reserve fund, which is now \$200,000, besides having in other funds the amount of \$13,244 19. The death rate has fallen from per cent in 1895 to 6 per cent in 1900. During the year death claims to the amount of \$89,500 have been paid in relieving the widows and orphans of deceased members, \$64,000 being paid in Ontario alone. The membership of the association now numbers 11.961, Ontario leading with 8,757 members; thus over one-third of the membership of Ontario Oddfellows are members of the relief association. The grand lodge of British Columbia has given its consent and approval to the association to do business in that province, so that its field of operations now extends from ocean to ocean. The representatives then considered

a number of claims. The special committee's report on the Oddfellow's Home, presented by Past Grand Sire Dr. Cl. T. Campbell, of London, was received enthusiastically. Eleven thousand dollars have already been subscribed, and when \$10,-000 more is on hand the home will be built. The report recommended that each lodge subscribe \$35 and \$20 each, and committees be appointed to get individual subscriptions. No place for

the home has yet been selected. Votes of thanks were tendered the mayor, city council and citizens generally for the very kind and courteous reception of delegates.

Grand Master McLurg installed his successor, O. L. Lewis, of Chatham, and the latter installed the other officers, as follows: J. R. Oliver, Wood-that it will be corstock, grand marshal; R. R. Brett, the British Cabinet. Essex, grand conductor; James Hoare, Military men in I Guelph, grand guardian; A. S. Murray, Niagara Falls South, herald: Rev. E. Anderson, Smith's Falls, grand chap J. Turner was reappointed D. D. G. M. for Hamilton district.

Grand lodge then adjourned. GUELPH NEXT YEAR.

Guelph and St. Thomas competed for teh honor of having the annual session of 1901, as also did Sarnia, Guelph was almost unanimously chosen.

From the first the pills helped me, and I could feel my strength gradually returning. I continued the use of the pills according to the directions until I had taken eight boxes, when I was again enjoying perfect health. My strength had entirely returned, my appetite was splendid, the heart trouble and nervousness had ceased, while the blessing of sleep, once denied, had again returned. I had gained over 30 pounds in weight, and was able to do all my housework with lease of life. It says: "Sir Michael Hicks-Beach is not distinguishing himself as a borrower. The large American subscrip-tions is the first signal proof yet vouchsafed that New York has be-come a great international investment New York had previously loaned to Canada and Russia, but this is the first time that it has taken the leading part in an issue by a European government of the very highest credit.'

NEW ATLANTIC CABLE. The laying of the first telegraphic cable to connect the United States directly with Germany started at 6 a.m. today, from the Commercial Cable Company's station on Coney Island, New York harbor. This is the cable for which sanctions were granted by the president of the United States and German emperor early last year. It will make the second cable connection between this country and the Azores, and will be the most direct telegraphic line to the European continent. The cable is now on board the cable ship Anglia, and is approximately 2,500 miles in length. Although the formal opening of the cable at this end is made today, the Anglia will not start for the Azores until about Tuesday next. If she is attended by bad luck, she will probably reach Fayal in fourteen days. It is expected that the cable will be ready for the transmission of messages soon after Sept. The cost of the cable will be £935,000.

THE KAISER'S CLEVER MOVE. A dispatch to the New York Tribune from London says: The nomination of Count Von Waluersee to the command of the expeditionary forces in China has been favorably received here, and though it is scarcely correct to say that the official consent of all the allied governments had been obtained to the appointment prior to the public announcement on Wednesday, there is no doubt that it will be cordially accepted by

Military men in London admit that since Roberts and Wolseley are out of the question, no more distinguished soldier could be found for the chief command in the far east than Count Von Waldersee. In addition to his personal distinction, the count possesses the necessary qualification for holding the grade of field marshal, so he will be superior in rank to any of the officers commanding the various national contingents. It has been suggested that the German Emperor adroitly forced the hands of some of the other powers who threatened to squabble interminably over the generalissimo question by suddenly informing them that he intended to send out a Prussian field marshal to assume direction of the German detachment. As this officer would necessarily take precedence of every general in the field, it was an easy transition to place him nominally at the head of the entire al-An Attack of La Grippe Left the Suf- lied force, but the precise authority Von Waldersee is to wield is still the terer Weak, Nervous and Enteebled subject of discussion. LORD RUSSELL

The Distinguished Career of Britain's Great Jurist.

London, Aug. 11.-The Right Hon. Lord Charles Russell, of Killowen, In fact, I had received a new LL.D., grand commander of the Order of St. Michael and St. George, was born at Newry, Ireland, in 1833. 1886, when he was knighted by Gladstone, and then Sir Charles Russell, as he was up to 1894, when he was appointed in April to become one of the lords of appeal and received a life-peerage from the Gladstone-Rosebery administration, was educated in Trinity College, Dublin, and began his professional career as a solicitor in Belfast. He was called to the bar in London in 1859 and became Queen's counsel, and was elected bencher of Lincoln's Inn in 1872. He entered politics as a Home Ruler and Liberal, and was in parliament from 1880 to 1886, when he became attorney-general in Gladstone's cabinet, being the first Catholic who filled that post since the reformation, and the second Irishman, Lord Cairns being the other. Such his reputation at the bar then that John Morley, in a speech, called him "the greatest advocate in England." When Gladstone's government returned to power in 1892 Sir Charles was again appointed attorney-general. the six years between the two

administrations his private practice had been enormous, amounting in all to an income of \$125,000 a year, and fame in his conduct of the trial of Paring period of the stoppage of gold excross-examiner, and his eloquence, recognize the high importance of the shone as never before and attracted as much attention in the United States as in England. In 1893 he was of counsel for Britain before the Bering Sea tribunal, acting with Sir Richard Webster, who had been his opponent as counsel for the Times in the Parnell case. His speeches made in this case, and his speeches on the home rule bill, over to Lord Rosebery, who became premier in March, 1894. After Sir Charles became Lord Russell in April of that year he was appointed succes-sor to Lord Coleridge, the lord chief justice, who died in July, and it was as lord chief justice of England that he came to America in 1896 to attend the meeting of the American Bar Association in Saratoga. His address on international law, delivered before that body, has become a classic in its line

because of its profound lucidity. Lord Russell's career on the bench confirmed the wisdom of his appointment, and his most recent judicial act
-his prompt refusal to let legal quibbles and the cobwebs of precedent obscure the Jameson case—is fresh in the public mind. It has been said of him that he was probably Britain's greatest jurist since Blackstone.

MUST TREAT OUR HORSES BETTER

Ella Wheeler Wilcox Says People Should Think More of Their Duty to Dumb Animals.

This is the season of driving. I want to say a word to all men and women who own or are in the habit of hiring

Do not let the blinders press against the eyes of your horse. It affects the sight and produces blindness. Open the blinders as much as possible-gradually if the animal has always been used to them-but with a little more freedom of vision each day you can soon accustom his eyes to freer vision. Make it your own case. Put a pair of pasteboard box covers each side of your eyes, leaving only two or three inches in front open, and go about your work for a few hours. You will realize the discomfort, the strained effect upon your vision, and the increased nervousness better by this personal experiment than by anything I can

Our splendid Society for the Protect tion of Animals, and the beautiful "Animal Protective League," started by Mrs. Myles Standish, are both doing a noble work, which will do more for the regeneration of the world than all our Sunday schools combined.

In a little pamphlet issued by the latter society, children are asked to remember the following rules. better than repeating the catechism: Get people who drive dock-tailed horses to cover them with fly nets. Be sure and turn a horse's head away from the sun.

Water dogs, horses and cats frequently.

Be kind and gentle with all animals: never rough or impatient. Do not allow anyone to hurt, tease or frighten any animal.
