Is unequaled. It has stood the test in all kinds of weather and has been acknowledged by experienced men, well known to all in the City of Toronto, that it is the best not only for its durability, but for its healthiness, cleanliness; that it can be laid perfectly water-tight, that it never absorbs fluids of any kind and never becomes slippery, and for many other reasons it is preferred by all who know of it. It is more durable than stone and does not cost half the price. For cellar floors it is a decided preventive against rats or mice or dampness or bad smells. Please see what Dr. Strange says of it in his letter, which we have below given a copy of. No cellar should be without it to insure healthiness.

For garden walks and driveways it is unsurpassed, President—The Hon. G. W. Allan, Speaker of the control of the property of the control of the co

What the Consumers' Gas Company Say About It.

Gentlemen:
The Asphalt flooring laid by your firm last year in my stables and coach-house has given me great satisfaction. It appears to be perfectly durable, does not absorb fluids and given me great satisfaction. Another good feature it possesses is that it never is consequently always sweet and clean. Another good feature it possesses is that it never becomes slippery. I do not see how it is possible to have a more satisfactory flooring for yours very truly.

Yours very truly.
