John J. Dixon & Co. received the following from Counselman & Day of Chicago: Wheat just held its own to-day, opening and closing same as yesterday. Liverpool advices were ½ dearer, upward tendency. Paris strong and advancing on unfavorable weather. New York reported 40,000 bushels red winter taken for the Scottinent at ½c over May afloat, and Baltimore reported 400,000 bushels chartered to load in September. Late Beerbohm quoted Liverpool 1½d ligher. Strong Paris June 50, July 40 centimes higher, wheat, and May to July 20 to 70 centimes higher, wheat, and May to July 20 to 70 centimes higher, wheat, and May to July 20 to 70 centimes higher, wheat, and May to July 20 to 70 centimes only to work a scalpers' advance of ½c. Late advices of 4½ million gold for export and English visible half-million bushels above estimated requirements for the week caused closing slump of ½c again. We regard market as inherently weak and think July wheat will dip into two figures again soon. Corn and cats followed wheat closely on the early advance, but holders lost courage when estimates of to-morrow's receipts were announced, and early advances were lost. Provisions were gradually higher all day; the lighter receipts and higher prices of hogs induced considerable outside buying and local shorts covered freely, when the short interest fully eliminated. We anticipate that the pressure of large stocks on hand will prevent much advance.

Drummond & Brown received the following today over their private wire from W. G. McCormick & Co. of Chicago: The wheat market has been dull, but fairly firm. Serious apprehension has been felt for a day or two in regard to the effect of the dry weather on the spring wheat, and it was natural to expect a break in prices as soon as we had good rains in the Northwest. These rains came to-day and more are predicted all around within the next 24 hours, and yet the wheat market has been steady. Late cables noted strong markets at Liverpool, London, Berlin and Paris, especially for spot wheat. Clearances from the four Atlantic ports were 129,000 bushels wheat, 17,500 packages of fiour. Cargoes on passage to the United Kingdom and continent showed a decrease of about a million and a half, but the English visible showed an increase of 600,000. Receipts at 11 primary points, 470,000; shipments, 378,000. Near the close of the market it was reported that freight room had been engaged for 400,000 bushels of wheat from Baltimore, but little attention was paid to it, as it was said to be for September shipment.

Provisions have been firm throughout the day with very light offerings and indications of uneasiness among the shorts who have sold on the recent break. Receipts of hogs were to-day 5000 under the estimates and market 5c to 10c higher. We notice good buying of all articles and expect to see higher price before we have further break.
