Toronto. BOARD OF TRADE NOTES.

Matters of Interest Before the Council of The Council of the Board of Trade met yesterday afternoon for routine business. R. H. Myers of Myers & Son, merchants, Los Angeles, was the only new member

The London Chamber of Commerce has extended invitations to the Local Board to send representatives to the third Congress of the Chambers of Commerce of the Empire, to be held in London in June, 1896. Messrs. Gurney, Ellis and Donogh were appointed a committee to prepare subjects for discussion.

The Committee on Fire Insurance met yesterday morning and prepared a report, which was presented to the council in the afternoon, recommending the laying of new water mains in certain sec-tions of the city. The following reso-lution was adopted: "Your committee recommend that bylaws for the issuing of \$90,500 and \$135,500 debentures for the enlargement of the water mains should be carried. In the opinion of your committee the bylaw for the issue of \$75,000 debentures for the Island in-take pipe should be defeated. This pipe, in our opinion, should be repaired out of current revenue, with as great economy as efficient work will warrant."

In the matter of the school boundary, cases affecting East Toronto, the Townships of York and Scarboro, the following five questions were argued before the Chancellor and Mr. Justice Meredith by Mr. A.F. Lobb of Lobb & Baird, on

dnesday:
1. Can the north part of school section 12, Scarboro, be now formed into a union with school section 26, York, and can the south part of school section

12, Scarboro, be formed into a union
with union school section 6 of the Township of York and village of East To-

2. By an award under section 87. dated April 13, 1895, the inspector for the south part of the County of York deter-mined that the boundaries of union school section, 6 of the Township of York and village of East Toronto should refusof the arbitration and the other declin to join in the award?

Is this a valid award?

3. If this is valid, can there be an ap peal against it to the County Council?

4. Does sub-section 2 apply in such case, so that the senior County Judge or his appointee may be added as an arbitratic. 5. Can part of school section 12, Scar-

boro, be attached to school section 10, Scarboro? Judgment was reserved.

Yesterday the wharves assumed their midsummer garb, crowds of people wending their way to the docks to partake of the enjoyment of a cool trip on the water.
The Chicora and Empress of India brought over large loads of American ex-

cursionists, many of whom spent most of their holiday on the Island, it being the their holiday on the Island, it being the only available spot where the temperature was lower than 90.

The steamer Greyhound will be again commanded by Captain Boyd, and is lying at the city wharf ready to com-

mence the season's business.

Capt. Jackson will have charge of the Eurydice again this season. She is at the city wharf being thoroughly repaired.

Several schoolers arrived yesterday, lalen with coal from the United States. The summer customs department was opened yesterday on Geddes' Whari. Mr. George Munroe is in charge.

New York, May 31.-Bradstreet's says the advance of prices of staples in the Dominion of Canada has stimulated busimess notably. Retail stocks at Montreal, which had long been depleted, are being replenished, and the volume of business is larger than a year ago. Hot weather has increased the demand for summer goods at Toronto, and it is striking that wheat at Ontario points is com-manding \$1. Nova Scotia crop pros-pects are favorable, but trade there is not active. Much distress continues among Newfoundland fishermen. Imports into that colony this year are only about one-half the value of those in a

ing the first Congregational missionary from North to South America. Yesterday afternoon the Toronto Executive of the South American Exangelical Mission met at the Northern Congregational Church to examine Mr. De Barritt, preparatory to his ordination in that shareh met at the Northern Congregational Church to examine Mr. De Barritt, preparatory to his ordination in that church last night. The committee was composed of Revs. Elmore Harris, McTavish, Scott, Bishop, Dr. Bremner and Mr. Robb. Rev. Mr. De Barritt is particularly well qualified to occupy his intended position, as he has just returned from South America, where he spent three years in promoting the interests of the Salvation Army. He is also conversant with the Spanish, Portuguese and French languages spoken there. The ordination service was well attended.

Applications for the position of Professor in Latin in University College Toronto, will be received by the under signed up to August 15th, 1895. The initial salary will be \$2500, increasing by annual increments of \$100 until it reaches \$3200. Applications must be accompanied by testimonials. Duties will begin on the 1st of October.

Total receipts are 59 chr. ing holidays in London tend to further restrict business in that market, but quotations for Americans came slightly higher than parity this morning and arbitrage houses bought a few stocks. This, together with reports of rainfall west of the Mississippi River and in the Northwest, caused a strong opening. The volume of business was small, however, and prices generally lost the opening advance before 3 o'clock. The only notable activity was in a few manipulated stocks, which ruled somewhat higher. There was quite heavy selling of Erie on a rumor that re-organization would be very drastic and call for large assessments on the stock. The general market to-day was pretty well supplied. Telephone Mo. 418. McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago: After a slight rally at the opening, the mara slight rally at the opening, the market ruled weak, declining nearly 2 cents from the highest price and closing at the bottom. The general volume of outside business was quite limited and local traders were mostly enlisted on the short side. The estimate of Cincinnati Price Current of a probable yield of 280,000,000 bushels of winter wheat was regarded as hearish at the price was regarded as bearish at the price. Its estimates, however, are much more liberal than those received from parties liberal than those received from parties who have made personal examinations of the growing crop. Authorities whose judgment certainly entitles their opinion to credence estimate the yield of winter wheat at 230,000,000 bushels. However the outcome may be the market at present is heavy in the absence of big volume of outside buying, that was a feature of the market during the advance.

Corn was sold by such partions of the West as had been favored with rain; such support as it had came from east of the Mississippi still without rain. Prices lost over a cent and closed at the bottom. The local crowd sympathized with the view taken by

Provisions opened weak and lower, but ruled steady after the opening rush. There was considerable selling of scattered lots of long stuff all day, but the Southwest sent buying orders in pork. Indications favor a liberal run of hogs the coming week, and the posted stocks on Monday next are likely to exert a bearish influence, as they will show a
