Mr. Burnaby: "No; I am not taking that stand. I want to know the right of the committee to call me here."

Replying to a further question, he said he objected on the ground that the committee had no jurisdiction.

Mr. Brackin: "You are not willing to waive that objection in the public interest."

Mr. Ferguson gave the opinion that the committee had jurisdiction to investigate the charge because it related in his opinion to the members of the House and may be a reflection upon them.

NOT THEIR CONCERN The bribe that Mr. Burnaby said was offered him was, in his opinion, nothing to do with the House or the members, but the other statement attributed to r. Mr. Burnaby: "I don't think that Mr. Burnaby: "I dor part is a correct report." Mr. Burnaby declared that the statement that he had been offered a bribe of \$1,000 per year to use his influence of \$1,000 per year to use his influence to have a certain man appointed as purchasing agent at \$6,000 per year, when the Government advertised for one, was substantially correct. The \$1,000 was to be paid as long as the individual held the appointment.

Mr. Ferguson: "Would you mind relating to the committee the basis you had for the statement?"

"No, I don't think it is exactly true."

Mr. Burnaby could not remember the exact words, but it probably would be more like "this is no new thing," or "we have heard of such things before."
"I certainly would guard my words in that way," he said.

Mr. Burnaby: "I often heard about it. I guess everyone of us has."
"Do you know of any instance where a bribe has been offered or accepted by any member of the Legislature?"
