DARK ROOM TESTING

Every child on reaching the age of seven years should have the eyes examed. Many children have defective vision, and it often happens that one eye only is affected. This, throws all the work on the better eye while the other through disuse frequently loses its function entirely. With proper lense correction this trouble will be wholly overcome. If accompanied by parents we will be glad to examine children's eyes free of charge.

Mr. John Farrell's Appointment. (From the Canadian Mail, London, Eng.)

(From the Canadian Mail, London, Eng.)
As announced in the Canadian Mail
two weeks ago the vacancy created in
the Ontario Government Office through
the promotion of Mr. H. A. Macdonell to
the Directorship of Colonization has been
filled by the appointment of Mr. John
Farrell, of Forest, Ont. Mr. Farrell is a
Canadian born, and a farmer. He was
"raised" on a farm in Lambton County,
and has been associated with all the
various branches of farming practised in
Outario. He is familiar with conditions
on this side, too, for he has undertaken
many lecture tours in this country since
joining the Provincial Government service in 1909; has visited booking joining the Provincial Government service in 1909; has visited booking agencies throughout the United Kingdom, and has conducted parties though to Ontario. These qualifications alone would, of course, eminently fit him for the position of right-hand man to Mr. Colcock. But he has one rarer qualification, namely, a striking personality. The importance of such a qualification cannot be over-rated, for Mr. Farrell will interview all callers at the Ontario Government Office, and the reception accorded a would-be emigrant does much towards his ultimate decision to go to Ontario or elsewhere.
