Upon reading the report of the Committee on Road Returns, the same was, on motion, received.

To the Warden and Councillors :-

Your Committee appointed to examine road returns beg leave to report as follows:
That they have carefully looked over the various returns placed in their hands, and find the same in a very unsatisfactory condition, so much so that we are unable to prepare any complete tabulated statement.
The Ward Clerks have been negligent in preparing the lists, in a number of cases not filling out the headings of lists, and we would recommend that in future these officers perform their work more efficiently.
The road surveyors have delayed sending in their various returns to the Clerk, and your committee are at a loss to ascertain how the highway labor has been performed, and would recommend the Ward Clerks to collect the lists and send to Clerk of this Municipality, and that this Council withhold remuneration for all lists not returned.

Our town has an enviable record for its success in subduing fires, and although this fact and the further and more important fact that we have now fifty-fold better facilities for fighting fire than ever before, have been urged again and again upon their attention, the companies composing the syndicate refuse to make any but the most trifling reductions. Companies that 150 00 sequence taking some of the best risks in the town, and those held by syndicate companies are being allowed to lapse. ( For the Monitor. ) Extract from Letter Received from London Dated December 28th 1888.

People are apt to get greatly excited in shipping apples to this market in January. It is case of sudden accident and injury. It is well to be prepared for such emergencies, Hagpard's Yellow Oil is the handlest remedy known for burns, scalds, bruises, lameness, pain and all wounds of the flesh. It is used internally and externally.

These are of superior quality, crisp and juicy, like your graven steins, and must seriously interfere with your Nonpariels, if not shipped earlier than usual.

Week eyes and inflamed lids indicate as moure condition of the blood. The bes 3 00 States frontier of Western Ontario go to show that the great storm of Wednesday night was widespread. The passenger suspension bridge just below Niagara Falls was blown down about 3 a. m., on Thursday, almost precisely 25 years after the one between Lewiston and Queenston went down from a similar cause.
