

\$500,000, and from other creeks in the district, \$1,000,000. Captain Healy says that with wages at \$15 a day the yield may not exceed \$5 000,000, for in that case the richest mines would make small outputs, while the poorer mines being worked on lays, would not be affected." There is nothing in the largest even of these figures to justify the expected inrush to the Yukon of some 200,000 people.

The Alaska Brand Sleeping Bag is lined with Elderdown and warmer than whole stacks of blankets. For full particulars see our advertisement in the last number.

Our **Miner's Cap**, which protects the face and the neck, is almost a necessary complement of every miner's outfit. It only weighs ten ounces and is warmer than fur. The best stores in British Columbia keep them, but if your dealer does not have one and will not get you one, send us a money order for \$2.00 and we will send you one to any address in Canada, *charges prepaid*.

Notice.

Owners of Placer Claims are invited to send a few ounces of the black or grey sand obtained in washing the gravel for gold, to the "Provincial Mineralogist, Bureau of Mines, Victoria," stating the name of the creek from which the sand is taken, and its locality.

It is believed that PLATINUM, and perhaps IRIIDIUM, are frequently passed over and lost by the prospector, as they have much the appearance of iron in the sand. These minerals are as valuable as gold, the latter more so, and if the placer claim owners will send the black or grey sand as aforesaid it will be assayed and the results given to the owner.
