

COLUMBIA

➤ BICYCLES AND TRICYCLES ➤

STANCH AND RELIABLE ROADSTERS.

I take pleasure in adding my testimony to the claims which you set forth in the construction of the *Columbia* bicycle and tricycle.

I have ridden one *Expert Columbia* over 3,500 miles on country roads, and have never had any repairs of any description whatever to make upon it.

With its standard of rake, and your vibrating suspension saddle, I consider it *unequaled for safety* and long-distance riding. It is always in perfect order, if properly cared for, like any piece of machinery.

From the practical results which I determined by subjecting the different qualities of steel from which it is constructed, to the recognized standard of Government tests, I am free to assert that you may justly claim that the *Columbia has not its equal in quality of material and finish*; all of which is shown in the tabulated results in your possession.

I am, very respectfully,

F. J. DRAKE,

Lieut. and U. S. Inspector of Material.
