

You Will Need Extra Power

WHEN you buy your engine, get it big enough to do more than your present work. If it's an IHC engine it will last a long time. Your farm work is bound to increase in volume. Very likely you can save yourself the price of another engine four or five years from now, by getting an engine a size larger than you need now.

Over-speeding and straining harm any engine. There is one correct speed for each IHC engine, a speed at which the parts balance and at which the engine runs without harmful vibration. When you buy an engine powerful enough to handle your work easily while running at the correct speed you add years to its life. Get your engine big enough and buy an

IHC Oil and Gas Engine

An IHC oil and gas engine will deliver 10 to 30 per cent above its rated horse power when occasion requires, but it gives the longest service when carrying a normal load. All parts are carefully, accurately ground and perfectly balanced. The best material obtainable is used. Combustion is perfect and the maximum power is secured.

Sizes—1 to 50-horse power. Styles—stationary, portable, skidded, vertical, horizontal, tank-cooled, hopper-cooled, air-cooled. Fuels—gas, gasoline, naphtha, kerosene, distillate or alcohol. Kerosene-gasoline tractors, 12 to 60-horse power.

The IHC local agent will help you decide on the size of IHC engine you need. Get catalogues from him, or, write the nearest branch house.
