Fountain Syringes.

WE WISH

to remind you that **Spring** is the time to lay in an up-to-date stock of Syringes; get there **early**; see our lines of **Red, White and Grey** Rubber Fountains, Bulb Syringes, etc.

The past year has been a record breaker for business. We have turned out immense quantities of goods, and firms are writing us that they are delighted with the quality, style and finish of our lines, many of them selling our goods to the exclusion of all others.

Wholesale houses stock them.
