Typhoid La Grippe Tuberculosis

and all diseases arising from impoverished blood and a depleted physical condition demand the most efficient

MUTRITION

The patient MUST have a new and continuous supply of all the vital elements in which the blood is deficient.

Introduce in all such cases LIVE BLOOD. All the leading and most successful practitioners to-day are using

BOYANKE

It is LIVE, defibrinated arterial blood.

It is preserved by cold process and sterilized.

It retains all the vital and nutritive elements.

It contains 20 per cent of coagulable albumen.

It is a fluid food, pure and simple.

It aids digestion, and is promptly assimilated.

It is to a large extent directly absorbed.

It sustains and stimulates the heart.

It renders cardiac stimulants unnecessary.

It is a powerful aid to all forms of medication.
