

SPECIAL NOTICES.

Mr. Richmond Spencer, Druggist, McGill street, has a large stock of drugs and instruments on hand. We direct attention to his advertisement.

Mr. H. R. Gray, Druggist, St. Lawrence street, has several specialities, and offers good facilities for physicians in the country to deal with him.

Mr. James Goulden has within a few years rapidly extended his business. He has now three shops in active operation in various quarters of the city, all of which are doing a large trade. He has a very large stock of trusses on hand, to which he invites special attention.

Mr. Ebenezer Muir's, Place D'Armes Drug Store, is in one of the most prominent localities in the city, and is, therefore, admirably placed to attract business. In the matter of Vaccine, Mr. Muir asks the attention of the profession. It can always be obtained from him, and may be thoroughly relied upon. Orders by mail promptly attended to.

There is a practice for sale in one of the most thriving localities in the Eastern Townships. No opposition. The editor of the *Record* will supply full information. Enclose a stamp for reply.

TO OUR SUBSCRIBERS.

With the issue of two more numbers our first volume will close; we therefore respectfully ask those who have not remitted the amount of their subscription to do so immediately.

Receipts will be enclosed in the issue of the *Record* immediately following the receipt of the money.

PERSONAL.

Dr. Colin Sewell, of Montreal, has relinquished practice, and sails this month for England, *en route* for Melbourne, Australia, where, we believe, he intends establishing himself. We regret the cause, (illness of his wife) which compels him to seek a more congenial climate, and, in his new sphere, he has our warmest wishes for his success, accompanied with the sincere hope that the change may be the means of restoring Mrs. Sewell to complete health. During the seven years that Dr. Sewell has resided in Montreal, he has been held in high estimation by all his *confrères*, who deeply regret his departure.

On Thursday evening, the 17th of April, a number of his personal friends in the Medical profession entertained him to a dinner, which was one of the pleasantest social gatherings we have attended for a

long time. When the Medico-Chirurgical Society of Montreal met on Friday evening, the 18th instant, the following resolution was carried unanimously:

Moved by Dr. Francis W. Campbell, seconded by Dr. George E. Fenwick.—That this Society has learned with sincere regret of the approaching departure from Montreal of their fellow-member Dr. Colin C. Sewell. They desire to place upon record their estimation of his gentlemanly qualities and high professional abilities, and at the same time to express their sympathy with the cause (illness of Mrs. Sewell) which compels him to leave Montreal, and the professional success which has attended him.

Dr. Montizambert and staff have taken up their quarters at Grosse Isle, and commenced duty. Dr. M. is an able and arduous officer, and we feel that in his hands quarantine regulations will be strictly enforced.

The Medical profession is worthily represented at present in the Dominion Cabinet by the Hon. Dr. Tupper, C.B., Minister of Customs, a graduate of the University of Edinburgh, and by our fellow-student, the Hon. Dr. Theodore Robitaille, a graduate of McGill College, who has recently been appointed Receiver-General.

Dr. Francis W. Campbell has resigned his appointment as Attending Physician to the Montreal Dispensary, after a service of nearly ten years. The Board of Governors passed a vote of thanks to him for his faithful services, and elected him to the Consulting Staff. Dr. John Bell has been elected to fill the vacancy created by Dr. Campbell's resignation.

Report of Societies.

MEDICO-CHIRURGICAL SOCIETY, MONTREAL.

Meeting held 4th April 1873.

Dr. John Reddy, Vice-president, in the chair.

Dr. William Burland read a paper on Cerebral Hemorrhage. The patient, Mrs. G., while sitting taking her tea was noticed to suddenly cease speaking and drop her head upon her chest. When spoken, to she did not reply, and on shaking her she was found to be insensible. He, Dr. Burland, was sent for. On his arrival she was comatose—pulse soft, slow and compressible; face pale and natural; pupils contracted, and the eyeballs fixed.

There was considerable emesis of the appearance and consistence of coffee grounds, and she had micturated and defecated involuntarily. She was a large
