France, a Football for Boulanger, In a State of Incipient Revolution—Very Little Required to Bring on a Catastrophe.

LONDON, April 10.—France is rapidly revolving herself into a football for Boulanger, and where he will kick to when he takes his position to start the game is one of the unanswerable questions which at this moment constitute the politics of Europe.

THE LAND ACT. LONDON, April 10.—Timothy Healy, Mr. Biggar and other Fenian members, introduced in the House of Commons last night a bill providing that in applications made under the Land Act the Land Court shall consider...

TROOPS RETURNING HOME. MASSACHUSETTS, April 10.—The Italian troops which are returning to Europe will commence to embark on Friday. A corps of occupation, consisting of 5,000 men, will remain. The heat is intense. No Abyssinian forces can be seen.

BOULANGER'S INTRIGUE. PARIS, April 10.—The private despatches which passed between Count Dillon and Gen. Boulanger, and which published in the Matin, prove that Gen. Boulanger was cognizant of and approved his candidature for the Chamber of Deputies in the various departments in which he was voted for, though he publicly repudiated all responsibility for the presentation of his name.

AND so you think you will get married when you grow up to be a young lady, Floesie?" said the caller. "Oh, I haven't a doubt of it," assented Floesie. "Everybody says I am very much like mamma, and she, you know, has been married three times."

GRAIN AND FLOUR.—There was no important change in the grain market, business being quiet on account of the slow demand. Peas have ruled weaker and prices have declined to 73c and 74c. Oats are dull and steady at 41c to 42c.

The flour market was quiet, there being only a small local demand, and what business was done was of a jobbing character. The demand for Manitoba strong flour was fair, and several fair sized sales were made at steady prices.

PROVISIONS.—There was a better feeling in the local provision market, owing to the fact that there was more general enquiry, and the market was more active with a good business doing at firm prices.

EGGS.—The receipts of eggs were light and the market was steady, there being a good enquiry, and all the offerings were taken at 19c per dozen.

MAPLE SYRUP AND SUGAR.—There was a fair demand for maple syrup and the market was fairly active, with prices steady at 65c to 75c per tin.

RETAIL MARKET. The attendance this morning on the market was very large, that is regarding purchasers, and the supply equal to the demand.

TORONTO LIVE STOCK.

Cattle were in good demand and some high prices were paid. Among the sales were a lot of eight head averaging over 1,000 lbs, sold at \$38.50 each; a lot of one dozen, averaging 1,000 lbs, sold at \$41 each; a lot of 10 head, averaging 975 lbs, sold at \$35.50 each; a lot of 20 head, averaging 1,050 lbs, sold at \$40 each; these were very good animals; a lot of 12 head, averaging 1,025 lbs, sold at \$39 each, five dollars off the sum total; and a large number of small deals at various prices, but which were in no sense representative sales.

Sheep and lambs were in small supply, but quite sufficient, as was shown by the prices being decidedly weaker. Among the sales were one lot of 36 sheep, averaging 150 lbs, sold at \$6 each; a mixed lot of nine sheep and lambs, sold at \$4.25 each; a bunch of eleven lambs, of good quality, sold at \$3.75 each; a lot of 18 mixed sold at \$4.75 each; a lot of 10 sheep, averaging 140 lbs, each, sold at \$6.75 each; a lot of 15 at \$5 each; 10 do, at \$4.50; and several mixed lots.

HOGS.—About 150 received, which sold readily with a tendency in prices to move upward, as the price realized was from 50 to 55c an average, but higher figures were in a few instances quoted.

CALVES.—Not many in, and steady at last week's prices; most of to-day's sales ranged between \$3 and \$8. Good calves are wanted.

THE FLOUR TRADE.

The flour situation has recently been unusually dull even for this dull season of the year, and neither shippers nor dealers expect any material improvement until just prior to the opening of navigation. A few lots of flour, it is true, have been taken for shipment via Boston to Newfoundland, but the aggregated sales are known to be small. There are enquiries in the market for low grades for St. John's, Nfld., but the stocks of fine and superfine are comparatively light, and holders ask too much money to admit of any business being done worth speaking of. Ocean freights are too high for any business on English account, ship agents asking 15c per ton by first boat. The trade is therefore waiting one. A number of dealers are keeping down their stocks as much as possible, as they appear to have very little confidence in the ability of the present dyke to prevent a flood, and they maintain that in case of a recurrence of such a disaster their flour would sustain greater damage than ever. Until the opening of navigation, therefore, the chances favor a continuance of the present quiet state of the market.—Trade Bulletin.

COMMERCIAL NOTES.

Mr. John Wanamaker, of Philadelphia, at a recent meeting in Philadelphia, said that it was estimated that there are 300,000 convicts in the United States, and that the value of their labor is \$72,000,000 per year. This infuses free labor to the extent of \$40,000,000 to \$50,000,000. Mr. Wanamaker quoted John Mundell as saying that the shoe interest alone loses \$11,000,000 a year through the competition of convict labor.

direct loss to the men individually for the twenty-four days amounts to \$102,048 for engineers and \$57,402 for firemen, or a total of \$159,450. Each striker is on the payroll of the brotherhood, the amount paid to each man out of the treasury being estimated at the rate of \$40 per month. For the twenty-four days the amount paid to the 1,226 strikers would total \$68,032.

HAY, STRAW AND FRED.

The receipts of hay were light, on account of the heavy roads, and the market was stronger, with prices higher, but the demand was slow. We quote choice timothy \$11 to \$11.50 and inferior \$9 per 100 bundles. The demand for pressed hay has been good, and some fair sized sales have been made as firm prices. We quote No. 1 at \$12, No. 2 at \$11, and No. 3 at \$10 per ton for large quantities. There was a good enquiry for straw, of which the supply was light, and prices were higher at \$5 to \$7 per 100 bundles as to quality. There has been a fair demand for feed, and the market has ruled fairly active at steady prices. We quote monille at \$27 to \$29 per ton, bran at \$19 to \$20 per ton, and shorts at \$20 to \$21 per ton.

LIVE STOCK MARKET.

WEEKLY REPORT. MONTREAL, April 7.—The following is the market report of the Montreal Stock Yards Company, Point St. Charles for the week ending April 7, 1888.

Table with columns for Cattle, Sheep, Hogs, Calves, and other livestock, listing prices and quantities.

HORSE MARKET.

The receipts at the Montreal horse exchange stables for the week ending April 7th were 162 horses, and the shipments 141, principally for the American market. The demand has been principally for blocky, but a better demand for drivers and heavy horses is shown. The sales were 40 for all purpose and driving horses at from \$80 to \$140 each, 4 heavy draught teams, weighing 2,400 to 2,700, at \$320 per pair. The sellers have realized no profits at these prices, and in many cases the horses cost more in the country. The arrivals up to the middle of the week were all sold out. Messrs Clime, Kidd and Hay, of Listowel; F. Restorick, of Watford; D. Ferguson, of Port Hope, and J. Hefner, of Brussels, each have a load of fine general purpose and heavy draughts, including some nice teams for sale just arrived. One load of horses from J. Lowery of Listowel, also one from L. Lewis of London, Ontario, are expected early in the week. As the roads improve a better demand is looked for.

CORDWOOD.

There has been more enquiry for cordwood, and the market has ruled fairly active, but the bulk of the orders were for small quantities and only a fair business has been done at steady prices. The stock is not large, but there is no scarcity of any kind. We quote good long maple at \$8, birch \$7.50, beech \$7, tamarac \$6 and soft wood \$4 per cord, delivered ex-yard.

AN EXTRAORDINARY OFFER.

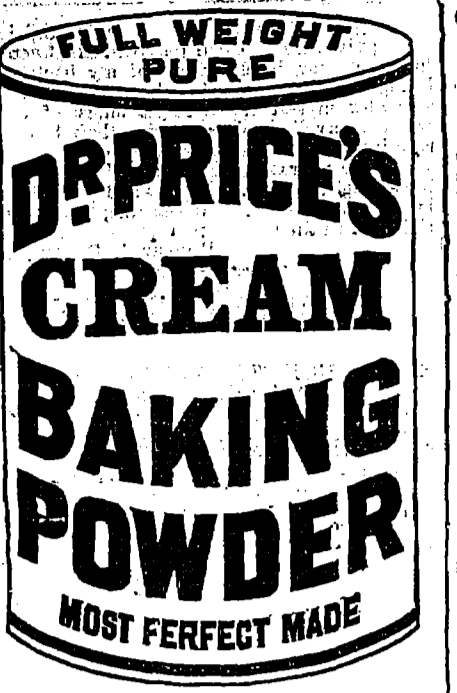

TO ALL WANTING EMPLOYMENT. We want live, energetic agents in every county in the United States and Canada to sell our patent article of Great Britain's No. 228. An article having large sale, having over 100 per cent profit, having no competition, and on which the agent is protected in the exclusive sale by deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every house owner, it might not be necessary to make an "extraordinary offer" to secure good agents at all. Our agents who are not making money are making money. We will refund the money paid for them. We will employ agents over and over to make such offers nor would we if we did not know that we have agents now making more than double this amount. Our large descriptive circulars explain our offer fully, and these we wish to send to every agent who is making money. We will send us three cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on our extra ordinary offer. Address at once, NATIONAL NOVELTY CO., (30-13) 614 Smithfield St., Pittsburgh, Pa.
