IRISH NOTES.

Mems of Interest From the Provinces of the Green Isle.

The patren of Maudlintown, er St. Magdalen's town, was celebrated in the usual way in the graveyard abave the Faythe on Sunday, July 20. The graves were strewn with flowers, mementees, and other decorstions.

The windows of the Catholic scheelhouse in the townland of Lile, parish of Scagee, mear Pertatewn, were wantanly and mali-cleuely breken. Though the parish is one in which there is a considerable Orange element, opinions differ as to whether the outrage is to be attributed to sectarian malloe.

The Will Geese are still ropresented fairly well in both branches of the French service. When Queen Victoria was recently sejourn-ing in France the Commandant of the local garrison was a general O'Neil. The Com-mander of the "foreign" naval squadren engaged in the manœuvres preceeding at this mement of Breet is an Admiral O'Nell.

At the Belfast Assizis James Glenn, mer chant, and formerly member of the city corperation, pleaded guilty to embezzling £35,000, the property of the Union Building Society, of which he was secretary. Counsel on behalf of the prisoner made a powerful appeal for mercy. Lord Justice Fitzgibben sentenced the accused to five years' penal servitude.

At 10 o'clock Mass in Armagh Cathedral on Sunday, July 20, the Rev. H. MoNamee denounced from the pulpit a society which is seeking members in Ireland, and which he said was bound by secret signs and passports. Attempts were being made to establish a branch at Armagh, and the rev. gentleman the authority of that department. It was the warned his hearers against having anything te de with it.

The Venerable Bishop of Dremore, the doyen of the Irish episcopate, was last week again prostrated by a sudden attack, but has since rallied, though still, as only natural of the benefits of at his very advanced age, very weak. He will have completed his SSth year on Friday, having been born in Cerk on July 25, 1802. He was consecrated Coadjutor to the late Bishop Blake in 1854, and has consequently worn the mitre for snirty-six years."

The Belfast Water Commissioners opened their new works at Stonyford on July 22 which will give a largely increased supply of pure water for domestic and manufacturing purposes. The ceremony was performed by the chairman, Mr. W. S. Carlile. The reserveir of the work- covers 160 acres, and is capable of storing 70,000,000 gallons of water. The daily supply to the town will be 11,000, 000 gallons. The Commissioners are now

diocese of Ross is on the verge of a famine. "If the possee crop dees tail," it says "me great help need he expected from the land-lirdr-was a class. It will have to be a case of what Disraeli called John Bull pozzled, but still subscribing'-puzzled, we mean, at the landlord and tenant relationship which is answerable for much of Ireland's misery. The Irish peasant is proud and sensitive He will seener die in a hole than beg. All the more reason why the Esglish public should keep an eye upon him,"

The Freeman says :- " Last week we referred to a return on the harvest prespects which the Land Commission issued, and which set out as glowing a picture of rich fields and ripening pastares as the meat ex-acting agriculturist could desire. We took leave to doubt the literal ecouracy of the return, and subsequent information has justifisd our scepticism. Correspondents throughout the country have furnished full accounts of the state of the crops and for the mest part these accounts are diametrically opposed to the roueste narrative of the Land Commission. Most happily the outlook is in many places good, and with a spell of dry and warm weather much that is now doubtful would be changed into certain advantage to the farmers. But nothing, so far as we can gather, could be further from the truth than some of the statements in the official return of the Land Commission. In the first place, the return was too early to be of any Substantial value as a guide to the harvest. But although the great bulk of the crops were far from maturity when the reports were compiled by agents of the Land Commission,

the most assuring promises were confiden'ly held out. Take fer example, the court'es of Cork and Clare. The Land Commission return reported of both counties that the potate crop was either very goed or promising and that no evidences of disease had been dis-covered. The centrary is the fact. In Clare the blight has already made its appearance in almost every district in the county, and its ravages in some places have been disastrous. Of Cork, too, it is said that many splondid fields of oats and barley have become partially destroyed. This surely is a strange conflict of testimony. But it does not end there. From Nenagh we are informed that in cereals the result of the recent rains will be mest disastreus, while green crops have suffered serious damage. The potate blight has also been at work. In parts of Tyrene we learn that the crops are in a most critical state, while in districts around such important agricultural centres as Bellinaslee, Tralee, South Wexford, Lim-svick and Queen's county, the state of things is most discouraging. In parts of the North, too, a similar story is told. Too much melature has threatened what had premised to be splendid harvest. In parts of county Down and in the Ballygawley district of Tyrens, while the creps as a whele look exceptionally fine, fears are entertsined as to hay and potatees. The reports from various localities contrast in the most striking man-ner with the return te which the Secretary of the Land Commission did not healtate to give valuers of the Commission, we believe who were employed to furnish the particulars, and the result of their labors, as tested by independent evidence, goes far to explain the feeling which farmers whe availed themselves of the benefits of the Land Acts entersin for

> A Wreck.

OTTAWA, August 16 - The Marine department has received a tylegram from the lighthousa-keeper at Cape Race, stating that the steamship Asalcoe of Grimsby, Britsin, which was laden with lumber, went ashore seven miles west of Cape Race. There are no hopes entertained of her being got off. The Alacoe was on a veyage from Mostreal to Grimaby. The steamer was built in 1889, her net tennage being 1,659 tens, and gross tennage 2 554. Henry Q-nnet of Grimeby, was her owner. The Asalcee, which was recently at providing filtration beds in connection with Mentreal and Quebec, cleared on Saturday,

"New, you run this train to Ottarville water tank," ordered the lander, " and stop there. If you attempt to stop at any other place or give a signal of slarm you'll be dead men," and the rebbers placed their weapons clese to their heads. The engineer and fireman could only obey. Five other men then rebbed the express car.

The Irish Potato Orop.

DUBLIN, August 16.-Reports received here show the petate blight is spreading in the counties of Denegal, Cork, Waterford, Tipperary and Limertok. Prices have al-ready doubled at Westport, where the guardians and the Gevernment are making exertions to avert a disaster. The blight has spread over the whele of Galway, and is net confined to any particular soil. The blight is due partly to the sowing of eid seed in old ground, but meatly to the rainy season. In the worst districts the stocks are withered. In five out of six examinations made there were no reets, and in the sixth case the tubers were only of the size of marbles. Michael Davitt writes to suggest that some-thing be done to replace the putatoes with such vegetables as will make food between new and Marob, and asks suggestions without delay from those qualified to give advice.

To Reach the North Pole.

The Nerwegian Storthing have voted the sum of 200,000 kroner for a fresh expedition to the North Pole, which will be under the direction of Dr. F. Namen, and will preceed en entirely new lines. It may be remembered that in June, 1884, exactly three years after the Jeannette sank, there were found near Julianshash, in Greenland, several articles which had belenged to the Jeannette and peen abandoned at the time of its wreck by the crew, and which had been carried to the ceast of Greenland, from the opposite side of the Pelar Sea, on a piece of ice. However these objects reached Julianshaab, they could not have come in an eastern direction through Smith's Sound, for the only current which reaches Julianshaab is that from the eastern coast of Greenland via Oape Farewell and the nerth. Ner is there much prebability that they were berne in a western direction from the place where the Jeannette sank, for all the currents round Nevee Zimbla, Frans Jeseph-land, and Spitzber.en are knewn and it seems impossible for the ice bearing the relics of the unfertunate Jeannette to have traversed the intervening distance in the space of three years, even if it were pessible at all. There remains only the alternative that there is a comparatively short and direct reute across the Artic Ocean by way of the North Pele, and that nature her self had supplied a means of communication, however uncertain, acress it. Increased algnificance to the discovery of the Jeannette relins in 1884 was given by the identification in 1886 of bows found on the ceast of Greenland with these used by the Eskime in the vicinity of Bahring Straits, at Port Clarence, Norten Sound and the mouth of the Yukan River. M. Mansen's expedition will, therefore, try a direct route across the apex of the Arctic Ocean. A specially constructed best of 170 tons will be built, and previsions and food taken for five years, although it is hoped that two will soffice. The expedition will consist of ten er twelve men, and M. Nansen proposes to isave Norway in February 1592.

Blown Up.

RED CLIFF, Col., August 16 .- The conractors for the Dinver Rie Grande railway, finding they could not finish a place of road according to contract, put in a heavy blast, containing over one ton of powder. After notifying all the people to leave the town and seek safity up in the mountains, the blast was touched off. When the smake cleared away it was found the whole village had almost been demolished. Nothing was left of five houses, while thirty others were badly wrecked and rendered uninhabitable. The

Good Hair, Good Health and Good Looks.

The AUDETTE'S HAIR PROMOTER cleaness the SCAP and removes DANDRUFF; it also prevents the hair from falling out and pro-motes a healthy growth. The AUDETTE'S HAIR PROMOTER The ACDETTE'S HAIR FROMOTER is a cool and refreshing lotion; is unsurpassed as a dressing and especially adapted for children. This preparation is not a dye, but simply a cleansing stimulant and a tonic. The AUDETTE'S HAIR PROMOTER is guaranteed on the best medical authorities to be absolutely free from injurious chemicals.

MONTREAL MARKET QUOTATIONS.

FLOUR.-Receipts during last week were 23,-931 bbis. against 26,344 bbls. for the week pre-vious. The ohief feature during the week was the advance of 25c, per bbl. in Manitoba strong bakers quotations for which are up to \$5.50. Spring patents are firm at \$5 85. In Ontario flour there have been sales of straight rollers at 5c to 10c per bel. advance, sales of ordinary qualities having been made at \$5, with special brands selling a \$5.10 to \$5.15. Winter patents bave sold at \$5.50. About 4,000 bbls of flour have sold at \$5.50. About 4,000 bbls of flour have been recently moved off to Newfound-land, and stocks here are beginning to show quite a decrease. Cable advices from Liver-real shows an advices from Livermaking a rise of 3s during the past fortnight. There has been considerably more doing in flour within the past few days, and the market has partsken somewhat of an excited character, as buyers who were holding off for lower prices have come in with a rush. The American flour

have come in with a rush. The American flour that was imported before the new duty may come out all right yet. We quote: Patent winter, \$5.50 to \$5.90; Patent spring, \$5 85 to \$0 00; Straight roller, \$5.00 to \$5.10; Extra, \$4.50 to \$4.00; City Strong Bakera, \$0 CO to \$5.50; Strong Bakera, \$5.25 to \$5.50; On-tario bage-superfine, \$1.50 to \$2.00; Ontario bage-superfine, \$1.45 to \$1.65; Ontario bage-extra,

portant feature of news we hear of is that a few factories in the West have contracted their season's make at 86 to 346 August and balance of season at 90; the few July's on hand being taken at 8. At the Brockville market yester day 5240 boxes of cheese were boarded, and 3,275 sold at 345 to 8 5 165, colored having the call at top prices. Quites lot of white was sold at 84c. In this market it is difficult to anote exact values, in the absence of business to any extent, but for finest colored we quote 840 to 832 and finest white 84c to 840. There is said to be a little better feeling at the close.

DOUNTRY PRODUCK.

Focs-Receipts still continue light and th supply of good stock is scarcely equal to the de-mand. Prices maintain their recent advance and fine stock meets ready sale at 16c to 17c in round lots. The uncertainty about the passage of the Mokinley bill and its effect upon the trade continues to unsettle the market, though most dealers act on the expectation of its pass

ing at an early date. BEANS.—Supply about equals demanp, Mar-ket on spot firm at unchanged prices. We quote \$1.65 to \$1.85 in jobbing lots; old lots \$1.50 to \$1 50. BEESWAX-Market quiet at oid quotation, 240

to 25c per lo. MAPLE SUGAE AND SYBUP-Market quiet,

MAPLE SUGAE AND SIEUP-Market quiet, quotations nominal at 9c to 7gc in round lots; 7gc to 8c for jobbing trade. Syrup 50c to 65c per tin, and 5g to 5gc in wood. HONEY-Westorn uew crop is now arriving in limited quantities. Western in comb is quoted in 1b sections at 14c to 15c. Strained honey in 5lb to 10lb tins, 10c to 12c per lb. HONEY-The former tone to this market is HOPS .- The firmer tone to this market is well sustained and foreign markets have advanced their quotations. On spot no advance has yet taken place and we quote choice Uana dian 17c. to 20c. per lb ; fair to good 13c to 16c; old stock 5c to 10c.

HAY .- The new make is coming in in fairley good condition and the market is well supplied. We quote \$7,50 to \$9 00 per ton for good no choice pressed hay in rounds lots, Poorer qualities frem \$6.00 to7.\$00.

FRUITS, &o.

APPLES.-This market is getting more intersting as the season advances, contracts for new fruit having been made in the West at about \$1.50 picked, but in some sections growers want more money. In this market, Canadian apples have sold in small lots at \$3 75 to \$4 50, and American at \$3 00 to \$4.00 Advices just re-ceived from the Annapolis Valley N. S. report a very fair crop of apples. Letters received from England state that the English and Eel. gian crops are failures. No car loss of Canadian apples have so far been received, but they will soon be here. Sales in baskets have been made at 50c to 90c.

DRIED APPLES.-The anticipated shortage of the new crop is causing considerable firmness in dried fruit which maintains the advances of last week. The market is now quoted at 61c to 7c per lb with higher prices in prospect. EVAPORATED APPLES. - Market very firm, following the advance of dried. Sales have been made since last week at 14c. We quote 13 to 145 for round lots.

LEMONS. - There is quite a boom in this mar-ket, the demand for what may be called the greatest of summer luxuries being unending. Sales have been made during the last week at \$7. We quote the market very strong at \$7

with probability of further advance. ORANGES.—Very scarce. Jamaica fruit is selling at \$10 per barrel. Sorrentos in boxes at \$7.00 to \$7.50; half-boxes \$3.50. CALIFORNIA FRUIT. - Owing to the intensely hos weather, which has prevented shipment, the supply has been rather scanty. Pears have sold at \$6 per box; plums \$2.50 to \$3.00 peaches \$3.00; grapes \$3.00 per basket. GRAPES.-Bue grapes are selling in boxes of

10 lbs at \$1.

per basket Sweet POTATCES-The first lots now on the market show excellent quality and are selling at 37 per brl.

BANANAS-Great quantities of bananas have arrive during the week and sales have been freely made at from 75c to \$1.50 per bunch in round lots.

SPANISH ONIONS-Market steady at \$4.75 to \$5 per case.

LEATHER. The firm tone noted to the leather market all ted, and altho

Dublin is likely seen to have a Pretestant Nationalist aldermen. Mr. Sexton, M. P., who was senior Councillor of the Fritzwilliam Ward, having declined the nomination in succession to Alderman Byrne, Mr. Thomas D. Pile, the junior Councillor, has been nom D. Pile, the junior Councillor, has been nominated. Nationalist nemination now means victory in the ward for which the late Ald. Byrne was the first Nationalist that ever sat, and the Protestant Home Ruler is sure of victory.

A preclamation has been posted in Arklow, signed by three magieteates, intimating that "in consequence of the tumultueus and disorderly passeedings that have recently taken | He was at once conveyed to the residence of place in the town of Arklew, endangering the | Dr. Beatty, his father in law, where he new public peace, intructions have been given to lies suffering much pain. It was at first the constabulary to prevent any assemblage thought that be had sustained a fracture of of people in the streets of Arklew ;" and the bip bone, but a telegram received this warning is conveyed that all crowds assembling in violation of the preclamation "will be immediately dispersed.

Edmond Hart was charged at New Ross with the murder of his mether, whose bedy he afterwards mutilated. When discovered he was eating part of the flesh. The defence was that the accused was insane. Dr. Walsh of New Ross, who examined him the day before the murder, deposed that he was not insane. Dr. Meshou, who examined the prisoner in jail, said he was suffering from menial agony, but was not mad. He was committed for trial at the 3381Z98.

An interesting return has been presented to Parliament anent Sunday drupkennese in Ireland. It appears that for the year ending April 30th last, the number of arrests for drankenness between the hours of 8 a. m. en Sunday till 8 a.m. on Monday, were as fellows :-- Metropelitan district of Dablin, 1.545; City of Cork, 227; City of Limerick, 279; City of Waterford, 141; and City of Belfast, 225. In the counties, excluding of course the above cities, the total number of arrests were 3,329, the bigest effender being the County Cork, with a total of 433. The smalleet number of arrests in any county was in Wicklew. In County Dublin 138 arrests were made.

The long threatened evictions on the estate of Mr. James E. Byrne, of Ocelroe Wexferd, were carried out on July 25, amid exciting scenes. It is not two months since the abertive attempt was made to evict Pet Walsh and his neighber, Smith, from their humble dwellings. The police and sheriff's efficers were then in toe small a force to compete with the place. On July 25, hewever, they were there in great numbers, and the decrees of the law were carried out amid scenes not less exciting than these which have charac. terized the stern fight with the Byrne tenanterized the stern light with the byrde tenan. try have made along the line since hostilities commenced here. The last of the Byrne tenants have new been cleared out, and the to the tender to fire up the engine and looked county, for miles, lies barren and desolats, squarely into the muzzle of twe rovelvers in without the least sign of any living thing to the bands of two masked men who were lying betsken civilization.

الشددي

A Public Man Hurt.

OTTAWA, August 15 .- The Hon, William McDeugail, who left Octawa on Tuesday for Obburg, via Torento, while in the act of stepping off the train at Obburg missed his feeting and fell vielently on the station platform where he lay until assistance arrivea. morning by his son, A. C. McDongall, conveys the information that upon an examination of the injuries received it was found that no benes were breken.

The Orops in Quebec.

QUEBEC, August 16 .- Mr. Georges Leclero, secretary of the Previncial Department Agriculture, has sert out a bullstin on the state of the crops in the prevince of Quebec to the end of July. The month of July, he says, has been remarkable for its great heat and several cool nights. The frequent showers during this month have been very prejudicial te haymaking, and in certain localities the quality of the hay has been effected by them. Much damage has also been done in certain places by strong winds and thundersterms, A great many complaints are made about the meadows having been winter-frozen, and this may explain the everage yield of crop of our crop of hay. With a few weeks of fine weather our farmers expect sufficient satisfactory results from this years crep. The following general summary is given : Hay, average ; wheat, good appearance ; barley, above average ; oats, under average ; buckwheat, good ; rye, good ; peas, good ; Indian cern, good ; potatees, good ; roots, good ; tobacce, good ; culture fer siles, good ; fruits, under average. The secretaries of the Agricultural Societies in Basuharnels, Laval, Naperville, Richelieu and Three Rivers have falled to make returns.

A Train Robbed.

KANSAS CITY, August 17 .- The limited Kansas Oity express on the Missouri Pacific was held up by seven highwaymen at O.terville, Mo., early this evening, and rebbed of \$900,000 of express matter. The train left Tipton, Mo., at about 3 a.m. Two mysterlous figures were seen by the engineer larking The Daily News, tee, sounds a note of less the two mysterious men who had been gleeny warning with regard to the immin-neticed at Tipton. They had evidently board-ed the forward platform of the "blind" mail on their faces on the ceal. They were doubtcar at that place and orawled over the tender toward the engine. One of them covered the mulcitions it has received from Dublin and fireman with his revolver, while the other the South West it fears that the district took care of the engineer. They were teld to around Oastlehanen and Skibbereen in the held up their hands. Their hands went up.

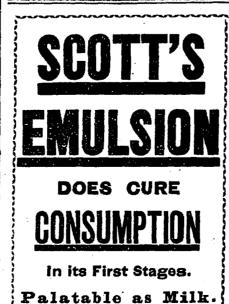

the 9th instant, and passed Quebec at 5 | houses will have to be built at the centractors' expense. In the meantime thirty-five families will be compelled to live in tants.

> According to the Sanitary Record, Prof. De Bary, of Strasburg, an authority in these matters, considers that amongst human diseases we are now pretty certain about the exact microbes which are the cause of anthray, of relapsing fever, of tubercalosis, of typhoid and of Asiatic chelera. We know also semething of the particular bacteria con-cerned in the infection of wounds, or pysmis, as it was formerly called. There is one variety of ervaipelas which has been definitely traced to bacterium, one of the chain forming Streptococci. About Friedlander's micrococ cus of pneumenia, there is still room for investigation; but the bacillas of leprosy has been definitely ascertained, as have also several bacteria causing diseases in the lower animals. The word bacterium, it may perhaps be well to state here, is used for the whele tribe of these minute erganisms. A baccillus, a spirillum, or a streptececcus is still a bacterium, and the particular germ is distinguished by the second or specific name, as Bacillus anthracis, Streptscoccus albus,

Ceffee pounded in a mertar and reasted on an iron plate, sugar barnt on het ceals, and vinegar belled with myrrh and sprinkled on the floer and furniture of a sick room are excellent deederizara.

&s.

Our readers who are afflicted with deafness should not fail to write to Dr. A. FONTAINE, 19 East 14th Street, New York City, for his circu-lars giving affidavits and testimonials of wonder-ful oures from prominent people. The doctor is an aurist of world wide reputation. See his advertisement elsewhere.

Be sure you get the genuine in Salmon color wrapper; sold by all Druggists, at 50c. and \$1.00. SCOTT & BOWNE, Belleville.

fine, 31.45 to 31.55; Untario bage \$2 20 to 2 35. OATMEAL-The market retains the firm tone

reported last week, prices have stiffened. A sale of a lot of 50 bbls. ordinary was made at \$1.872. We quote Standard in bbls at \$4.85 to \$5, and granulated at \$5 to \$5.10. Pearl

\$4.25. Split peas, \$4.00 to \$4.25. WHEAT -- Market firm and higher in sympathy with advances in the west. On the spot no sales have been made to establish exact values, and we quote No. 1 hard Manitoba nominally \$1 25 to \$1.30.

CORN.-In sympathy with the rise in wheat corn advanced and sales have been made here in car lots at 63c to 64c duty paid. Oars .- Market easier and sales have been

made at slightly lower prices. Car lots of Lower Oanada have changed hands at 50c per 34 lbs and Upper Canada at 53c per 34 lbs. BABLEY.-Market firm and unchanged. We quote fine malting samples at 65c to 70c per bushel ; Feed barley at 50c to 60c. BUCKWHEAT,-Nothing doing. The slight de-mand cannot even be filled as there is no stuck

in store. Quotations are nominal at 52c per bushel. Ryz.-Market firm with light stocks in store.

MALT.-Sales have been made at 80c to 90c in boud. PROVISIONS.

POBR, LOBD, ETC.-A fair business has been done in pork during the week, but without the least appearance of briskness. Canada short cut could be had in 50 to 100 bbls at \$17, and in less quantities at \$17.50 up to \$18 for a single barrel. The receipts of pork this week were 578 bbls. In lard sales of good sized lots of Oana dian have transpired at 84 in pails with emailer lots at 8% to 8%. Oanada shore oue clear, per bbl, \$17.50 to

Canada shore cut clear, per bbl, \$17.50 to \$18.50; Chicago short cut clear, per bbl, \$17.60 to \$17.50; Mess pork, Western, per bbl, \$17.00 Hams, city cured, per lb, 12c to 13c; Lard, Western, in pails, per lb, 9½c to 10c; Lard, Canadian, in pails, per lb, 8½c to 8½c; Bacon, per lb, 10c to 12c; Tallow, common, refined, per lb, 5½c to 6c.

DAIRY PRODUCE.

BUTTER.--Receipts during the past week were 2,553 packages, against 2,627 packages for the week previous. There has been a slight imthe week previous. There has been a signt im-provement in the foreign markets, Danish bringing a little more money in the English market, and prices in the United States are better. In this market, however, there is no improvement whatever, as factorymen arecrowding their creameries on buyers who do not seem to want them, even at the lower figures offered. Want them, even at the lower incures ordered. A lot of June and July creamery was offered here Thursday at 16c and 16bc, but there were no buyers at those figures. The holder could have had 18c for the June creamery some time ago, but he refused it. We quote 15c to 17c. In Eastern Towships there were sales of several 15 and 20 tub lots at 15c, showing good quality. In Western there is very little doing on spot the sales embracing five, eight and ten tub lots at 14c for selections. In the West there have been sales on Montreal account at very low prices. Parties who have recently travelled through the West state that old butter is stored in most of the refrigerators in Ontario. It is estimated that about 12,000 to 15,000 tubs of old are held in Montreal alone. We quote prices as

follows :---Oreamery, 12s to 17c; Eastern Townships, 18s to 16s; Morrisburg, 13s to 16s; Western, 12c to 14s; Old butter, 5s to 8s.

CHEESE .- There has been more enquiry for therese, into buyers do not appear to be able to find it on this market. Quite a lot of goods, however, has been secured at 750 to 85 which ranks a shade below finest. The only im. Send in your orders.

new business of importance, dealers generally are very sanguine. Sole leather is very firm at the cutside figures, the same re-marks applying to black leather, and all the indications point to a still higher range of

Spanish sole B.A. No 1, 821 to 822; Spanish sole B.A. No. 2, 18c to 195; Spanish sole or-dinary No. 1, 18c to 19c; Spanish sole ordinary No. 2, 16c to 17c; China sole No. 1. 18c to 193 China sole No. 2, 00c to 15c; slaughter sole No 1, 22c to 25c; English oak scle, 40c to 45c; rough, light, 20c to 24c; barness, 20c to 28c; narness, extra finish, 25c to 28c; upper, waxed light, 30c to 32c; upper, waxed, med and heavy, 25c to 30c; upper, grained long, 28c to 30c; upper, Scotch grained, 28c to 33c; buff, 12c to 141c, babbled employee 15c, and down, 19c 141c; pebbled cow, 12c to 14c; glazad cow, 12c to 14c; splits, medium, 12c to 14c; gis2ad cow, 12c to 14c; splits, medium, 15 to 20c; splits, junior, 13c to 15c; splits, calf, 23c to 2dc; calfskins, light, 40c to 45c; calfskins, heavy, 45c to 60c; calfskins, French, imiration. 60c to 70c; calf-skins, French, 00 to \$1.35; kidskins, Euglish, 55c to 75c; pattern cow, 15c to 16c kid Kasat 65c to 75c ; patent, cow, 15c to c16 ; kid, French, \$10 to \$20.

MONTREAL STOCK YARDS. The receipts of live stock at these yards for week ending August 16, were as follows :--
 Oattle, Sheep, Hogs, Oalves, 8497
 2387
 421
 75

 Over from last week.
 100
 15
 45
 ...

 Total for week.
 3597
 2402
 466
 40

 Left on hand.
 100
 350
 50
 ...
Export cattle receipts for week at these Yards were unusually large, conparatively few cattle of this class changed bands prices offered being no better than week previous, For But-chers there was satisfactory trade, the supply being rather shore with a good demand quick sales were effected at fair prices. Smaller receipts of sheep, hogs, market steady, values 5 cts higher. We quote the following as being fair values: Cattle export, 44c to 5c; Butchers' good, 4c to 44c; Butchers' med., 34c to 32; Butchers' cults, 3c to 34c; Sheep, 44c to 44c; Hogs, \$5.50 to \$5.65; Calves, \$6.00 to \$12,00.

MONTREAL HORSE EXCHANGE.

The receipts of horses at these stables for week ending August 16, 1890, 439; Left over from previous week, 7; total for week, 446; shipped during week, 412; left for city, 10; sales for week, 7; on hand for sale, 17, 446 Arrivals of thoroughbreds and other imported
