

determination. If the ITC injury determination is negative, the case is terminated and any cash deposited is refunded and any bond posted is released. If injury determination is affirmative, the Secretary of Commerce will impose an antidumping duty on the merchandise equal to the amount by which the home market value of the merchandise exceeds the price to the United States customer.

(6) An antidumping duty order is subject to an automatic annual review, and requests for a review at any time will be entertained, provided circumstances have changed sufficiently to warrant the review.

### **Countervail**

Under the revised U.S. Countervailing Duty Statute, an additional duty may be imposed upon articles, whether or not dutiable, imported in the U.S., if any bounty or grant upon their manufacture, production or export has been made. However, all cases are subject to an injury determination by the ITC. The time frame for an investigation is similar to an antidumping investigation. The decision on the subsidy by the Secretary of Commerce and the injury determination by the ITC may be appealed to the U.S. Court of International Trade.

If any difficulties arise with reference to this statute, it is suggested that exporters contact the Office of United States Relations of the Department of External Affairs as soon as possible.

## **Marking of Goods**

### **Country of Origin Marking**

Generally, all goods imported into the U.S. must be legibly and conspicuously marked in English to identify their country of origin to the ultimate purchaser in the United States.

The use of stickers or tags is permitted if used in such a manner as to be permanent, unless deliberately removed, until receipt by the ultimate purchaser.

Certain small instruments and utensils must be marked by die-stamping, cast-in-the-mould lettering, etching, engraving or by means of metal plates securely attached to the articles.
