

Agreement setting forth the terms and conditions governing the support of United States activities at the Churchill Range be amended as follows:

A. That the title of the Agreement be changed to read "Support of United States Activities at the National Research Council Space Research Facilities."

B. That all reference to Churchill Research Range or The Range be changed to read NRC Space Research Facilities (NRCSRF), NRC facilities, or each facility as appropriate.

C. That Article I, para 3, be deleted.

D. That paragraphs 1, 2 and 4 of Article IV be deleted. Paragraph 3 be amended to include balloon as well as sounding rocket launchings. Article IV would then read as follows:

The NRC shall determine the level of activities to be conducted at its space research facilities. Rocket and balloon launching schedules and all other details shall, for each specific case, be arranged between the cooperating agencies.

E. That the reference in Article XI, para 4 to Section 203(B)(13) in the United States National Aeronautics and Space Act be changed to Section 203(C)(13).

In accordance with the above, I further propose that all references in the Agreement itself to the Churchill Research Range or The Range be changed to read NRC Space Research Facilities (NRCSRF), NRC facilities, or each facility as appropriate.

If the above proposals are acceptable to the Government of Canada, I have the honor to propose that this note and Your Excellency's note in reply shall constitute an Agreement on this matter between our two governments which will enter into force on July 1, 1979, and remain in force until June 30, 1982, unless terminated by either government on three months' written notice to the other or unless extended for additional periods by mutual agreement of our two governments.

Accept, Excellency, the renewed assurances of my highest consideration.

THOMAS O. ENDERS

His Excellency
Donald C. Jamieson, P.C., M.P.,
Secretary of State for External Affairs,
Ottawa.
