

II

The Department of External Affairs of Canada to the Embassy of the United States of America

Ottawa, October 6, 1966

No. DL-2452

The Department of External Affairs presents its compliments to the Embassy of the United States of America and has the honour to refer to the Embassy's Note No. 95 of September 29, 1966 concerning the establishment of a co-operative meteorological rocket project at Cold Lake, Alberta for the purpose of obtaining information on temperature and atmospheric density variations in the stratosphere and lower mesosphere.

The above research project is approved on the basis of the specifications outlined in the Embassy's above Note and on the understanding that the entire rocket flight programme will be carried out within the following geographic co-ordinates designating a restricted area under the jurisdiction of the Cold Lake Control Tower:

Latitude 54°46'N.,	Longitude 109°58'W.
Latitude 54°46'N.,	Longitude 108°25'W.
Latitude 55°20'N.,	Longitude 108°25'W.
Latitude 55°20'N.,	Longitude 111°18'W.
Latitude 54°46'N.,	Longitude 111°18'W.
Latitude 54°46'N.,	Longitude 110°13'W.
Latitude 54°44'N.,	Longitude 110°13'W.
Latitude 54°44'N.,	Longitude 109°58'W.

As the rockets concerned are to be fully expended and as no recovery programme is to be undertaken, 156 PWN-6A rockets per year will be allowed duty and tax-exempt entry into Canada so long as mutually agreed as essential by the appropriate military authorities in the United States and Canada.

Accordingly, the Department of External Affairs is pleased to inform the Embassy that the Canadian Government accepts the proposals contained in the Embassy's Note No. 95 which, with this Note in reply, shall constitute an agreement between our two Governments, the agreement to enter into force on the date of this Note.
