OFFER FOR SALE

### TWO MILLION ACRES

Choice Farming, Fruit Growing, and Grazing LANDS, at low prices, on long time and low interest. Large discounts for cash.

These lands are located in the very heart of the great Winter Wheat Region of the State. The total Winter wheat acreage in the State for 1880 is 1,866,326; of this amount 601,477 acres, or *one-third* of the entire acreage of Kansas, is in nine adjoining counties in the Cottonwood and Arkansas Valleys.

A rich soil, pure water, healthy climate, short winters, good roads, excellent society, churches and good schools, are characteristics of South Central and Southwest Kansas.
