

THE WANZER LAMP

AND PORTABLE COOKER.

Novel Features in a Lamp

By placing it under the Cooker it may instantly be used as a Stove.

Cooking may be done for an entire family with one Lamp and one Cooker.

The Wanzer Cooker will Roast or Steam Food.

As soon as the Lamp is lighted, the hot air ascends and permeates the food to be cooked, passing through the top lid of cooker, which is purposely made to fit loosely, and thence down the outer cover or condenser.

Potatoes alone are well baked in 45 minutes.

Six pounds of meat well roasted in 2½ hours.

Two to four pounds of meat roasted with potatoes or other vegetables and a pudding or tart in two hours.

The ordinary heat of a Wanzer Lamp will generate steam in 15 minutes.

The meal may be kept hours without spoiling,

No odor escapes into the room while cooking.

Everything cooked is more wholesome and more easily digested than when cooked by any other method.

It saves nearly ½ of the food which is lost by the ordinary methods.

All the nutriment, richness, and flavor of the food is retained.
