## FREIGHT TRAFFIC IS RUNNING WELL

Passenger Trains, However Are Still Arriving Considerably Behind Time.

Freight traffic was not only resumed vesterday, but was running on oiled vheels, and all the officials at the Union Station were in a genial frame of mind. However, the passenger trains were in many cases still hours behind time, tho so far as is known the departures were pretty much on time. Superintendent Farrell of the Grand Trunk System stated that the difference between the moving of both freight and passenger trains yesterday and the same operation last Monday was remarkable. "All trains are moving very freely today," said the superintendent, "and everything is going like clockwork. Now, look here, if prayers avail anything, just you pray your hardest that this mild spell keep up its good work and stay with us for a few more days. Another four or five days of this weather and we shall be out of the woods."

In the neighborhood of Holland Landing there is a lot of the marsh land and experiments undertaken by private citizens years ago established beyond a shadow of a doubt that peat made from the bog lands in that vicinity had a high percentage of heat with very little waste and ash. It is proposed to interest the city and county in the matter and get to work immediately.

Mrs. J. H. Fisher, superintendent of the soldiers' welfare department of Downtown Storekeepers Are Observing New Order Well. The Some Have to Be Warned.

According to police officials spoken to last night by The World, the new regulations regarding the lighting of store windows are being carried out satisfactorily by the downtown merchants. On the whole there has been prompt action on the part of the majority of storekeepers in the central divisions, all expressing themselves as being only too willing to help the country by the conservation of electricity.

day afternoon at the workrooms in Eglinton Town Hall with the president, Mrs. Allen, in the chair. Reports of the last meeting, which was the annual meeting, were read and approved.

Letters were read from many of the men overseas in hospitals acknowledging the receipt of the Christmas stockings sent from this society.

Twenty-five dollars was voted for Newmarket Military Hospital to purchase hockey outfits for the patients. Pillows and pillow cases were sent to Brant House, Hamilton. Consignments of finished goods were sent to the orthopaedic headquarters and Red Cross headquarters and soldiers' comforts.

The monthly financial report was very satisfactory.

A pleasing part of the afternoon's leave testerday by the arrival of a couple of cars of coal consigned to private parties, while the town's supply of mixed hardwood, green and dry, which is being retailed out at \$13.50 a cord in small lots has done a lot to tide over the stress. The coal is being retailed at \$11 a ton in 500-pound lots, and it is thought the worst of the scarcity is over. The public meeting held in the opening up of the big marsh beds on the shores of Lake Simcoe around Bradford, Newmarket are in the scheme, there being a big attendance of business men and citizens generally.
