PROBS: Fresh northeast winds; partly fair; showers in southern districts.

Senate Reading Room (1120-12376) SENAT P O OTTAWA

Ballantyne States Canadian Construction Will Continue Into Next Year.

MUST BE A LIMIT

Government Orders for Vessels Being Continued Partly to Aid Labor.

Ottawa, May 8.—The Dominion government is to give more orders for ships. "It is not the intention of the government," declared Hon. C. C. Ballantyne, minister of marine and fisheries, in the house today, "to cease our shipbuilding program now. We are going to order additional ships, at least enough to keep the yards requiring business busy throughout the balance of 1919, and probably into the year 1920."

Shipping was under discussion in the house during practically the whole day. It opened when the house was in supply on the estimates of the marine department. The vote was one of \$30,000,000 to complete the shipbuilding program already announced. When the committee rose at 6 o'clock, the vote had not been passed. In the evening the house reverted to discussion of the war vote of \$50,000,000, opened yesterday, and again discussion centred around the department of marine and fisheries, while announcing that the government intended to build more ships, emphasizing that there must be a limit to the number which the government could use and "we are getting very near to that point." There were, he said, about 40,000 men engaged in Canada in connection with shipbuilding and to throw these out of work at the present time would be a rather critical thing for any government to do. He had today, Mr. Ballantyne said.

McCULLOUGH CAPTURED

MADE NO RESISTANCE

Had Been Hiding in Bathurst Street House Since Escape, Having Gone There With Woman Supposed to Be Vera De Lavelle.

Frank McCullough, the murderer of Acting Detective Frank Williams, who escaped from the jail April 15, two weeks before the day fixed for his execution, was yesterday recaptured by Detectives Cronin, Tuft, Armstrong, Jack Young and Silverthorn at the house at 18 Bathurst street.

Scarcely a stone's throw from the spot where he is under sentence of death, was the man chosen by McCullough to be hidden from the police and it appears that the murderer has been in this house practically all the time since he left the jail.

The detectives, every one armed, as a fight was expected, were despatched to the house yesterday morning at 10.30. Detectives Cronin, Tuft, Armstrong, Young went in the front door and proceeded to the room, which was on the second floor. When they entered, McCullough, a man and threw up the window with his right hand and jumped out feet first. As he fell he was immediately covered by Detectives Silverthorn and Armstrong, who had been hiding at the side of the house. The three detectives also covered him from the window above. When he saw there was no chance of escape he exclaimed, "I have nothing on me. I am off guns. What are you going to do?"

Had No Gun.

At headquarters, McCullough told Inspector Guthrie that he had made up his mind to never handle a gun again, and that if they had not captured him he intended to leave for parts unknown. He was clothed in a suit, a white shirt, a tie and a pair of blue pants. With the exception of looking thin and pale, as if he had undergone considerable strain since his escape, McCullough was cool and composed. He talked and joked with the detectives. He almost venomously denounced a small box lunch which was brought to him, and appeared weak from the lack of food. He was held at the detectives' office about forty-five minutes, and was then led from the room under high guard, and instead of handcuffs, a thick rope was tied from both wrists to the door.

The man who was the condemned man was hiding from the law the police found a new bicycle, a fully-packed kit and a quantity of wearing apparel. Most of these articles the police have ascertained, were stolen from the man's room at the hotel last night, when he broke into the house of E. L. Hickey, 527 Crawford street. On that night there were found missing a sweater, watch, jewelry, opera glasses, etc. The bicycle found in

IRISH DELEGATES' VISIT TO EUROPE EXCITES COMMENT

Questions Will Be Asked in British House Regarding Notes With Wilson.

Others Are Indignant at Interference in Britain's Private Affairs.

London, May 8.—Very soon we shall hear much more of Ireland. Questions will be asked in the house of commons concerning the visit of the Irish-American delegation to Paris, London and Dublin with their communication with President Wilson when the home rule issue was urged and there was an attempt at an interview with Premier Lloyd George.

The Daily News' which from Gladstonian days, has firmly supported home rule, says the English public cannot put this visit down as just one more irresponsible adventure of a community which acts ungraciously from the simple motive of hatred to Britain. It means England must face the issue which has been becoming clearer and clearer since the 1916 rebellion. Without a complete and decisive change of attitude, adds The News we shall continue to stand condemned before our dominions, before America and before the world.

The Westminster Gazette which carries considerable weight with old-time Liberals, ironically speaks of the minister being in a "scramble" and advises him and President Wilson to remain calm under demands of "immediate explanation," leveled by The Times and Morning Post.

Government Did Right.

The government did quite right in permitting the delegation to go to Ireland, says The Gazette, for it is far better they be allowed to go and see for themselves than that they should return and say that Ireland is a spoiled country. The Gazette, however, says the News, already quoted, maintains that Delegate Frank Walsh is a distinguished American politician, and asserts that there is not the least reason why Englishmen should fly into a temper if President Wilson should see his own countrymen on their return from Ireland or bring to the prime minister's notice anything in their reports which he considers serviceable.

AFGHAN TRIBESMEN CROSS THE BORDER

Britain Has Taken Military Precautions and Addressed Vigorous Note To Amir.

London, May 8.—Afghan tribesmen have crossed the Afghan border with the assistance of Afghan regular troops and have occupied certain positions on the Indian side of the border, according to a despatch from the Indian foreign office. Military precautions have been taken by the British, who have addressed a vigorous note to the Amir.

It has been reported for some time that the new Amir had adopted an unfriendly attitude toward the British and contemplated a violation of the north-west frontier and Khyber Pass, the principal northern pass into that country from India.

No large number of tribesmen are concerned, but they have occupied some heights of importance commanding two roads leading across the frontier.

ment stood up especially well. Strong head winds were encountered, throwing the planes thirty degrees off their course, an extraordinary condition, according to Commander R. E. Bird, who piloted the number three plane, the first to arrive in Halifax harbor, and the apparatus recorded perfectly the divergence entailed, enabling the ships to hold to their course with the greatest ease. Commander Towers stated that the visibility throughout the trip was remarkably good and as an instance said that the Cape Cod district was spread out before them like a map, before they turned east for the Nova Scotia coast. The two planes flew at various altitudes during the trip, number one plane at one point ascending to 3,500 feet, the highest altitude recorded
