HONEST ADVICE FREE OF CHARGE.

In evidence of our absolute good faith, we invite persons interested to write to us concerning their own ailments, when we will candidly reply to their questions and tell them whether Dr. Williams' Pink Pills have cured similar cases. It must be understood that we do not examine or prescribe for people; we simply tell you what Dr. Williams' Pink Pills have done in the past, in particular disorders; but we promise to be perfectly frank on the matter, and if they are not suitable we will not only tell you so, but we also back up our opinion by refusing, even if asked, to supply the Pills. We do not sell pills in cases that we do not think they will cure. This is not the way of a quack. Our reputation is built up on the fact that we are perfectly candid and straightforward, and that is the reason so many well educated persons and clergymen of all denominations so constantly befriend us.

CRIPPLED WITH RHEUMATISM.

From The Millbrook Reporter.

Rheumatism has claimed many victims and has probably caused more pain than any other ailment affecting mankind. Among those who have been its victims few have suffered more than Mr. G. W. Coo, now proprietor of a flourishing bakery in Hampton, but for a number of years a resident of Pontypool, where his severe illness occurred. To a reporter who interviewed him Mr. Coo gave the following particulars of his great suffering and ultimate cure: "Some seven or eight years ago," said Mr. Coo, "I felt like a man who was being pulled in two directions. I was unable to do any work, and at first I did not pay much attention to it, but as it was steadily growing worse I began to doctor for it, but to no effect. The trouble was from bad to worse, until three years after the first symptoms had manifested themselves I became utterly helpless, and could do no more for myself than a young child. I could not lift my hands from my side, and my wife was obliged to cut my food and feed me when I felt like eating. The trouble was not only in my hands, but in my feet, which were so swollen that I could not walk. My legs and feet were also swollen, and I could not lift my foot two inches from the floor. I was under the impression that I was going to die, and I was constantly getting worse, and I wished many a time that death would end my sufferings. One day Mr. Dr. Williams' Pink Pills were sent me, and I began to take them. I did so somewhat reluctantly, as I did not think any medicine could help me, but before they were gone I felt a trifle better. Before a third box was finished there was no longer any doubt of the improvement they were making in my condition, and by the time I had used three boxes

INCIPENT CONSUMPTION CURED.

Mr. James Weir, a well-known blacksmith of Bois-servain, Man., says: "When I came to Manitoba some years ago, I entered into partnership with a friend in a threshing outfit. Aside from the work being hard, I was attended with constant exposure, and many a night we were compelled to sleep in the open air. I was a very healthy man, but I was obliged to quit work, and coughed all any day. I was told that I had incipient consumption, and I was advised to take Dr. Williams' Pink Pills. I began taking them, and I continued taking them until I had used ten boxes, when my health was fully restored. My case is one of those which substantiates the claim that Dr. Williams' Pink Pills cure when other medicines fail."

PALE, TIRED AND LISTLESS.

Miss Eva Hodgson, daughter of Mr. Wm. Hodgson, a well-known farmer living near Proton Station, Ont., is another of the many young girls who owe health and strength to the use of Dr. Williams' Pink Pills. She says: "My illness came on very gradually, and I was not aware of it until I noticed that I was getting weaker all the time. I was pale, and I was tired, and I was listless. I was advised to take Dr. Williams' Pink Pills, and I began taking them. I continued taking them until I had used three boxes, and I felt a great improvement. I was able to do my work, and I was no longer pale, tired, and listless. I was cured by Dr. Williams' Pink Pills."

THE RESULT OF A COLD.

Miss Lizzie Sewell, Newbury, Ont., says: "I contracted a severe cold through getting my feet wet, and in this turn brought on a severe attack of rheumatism. My health failed so rapidly that I was unable to do any work. I was advised to take Dr. Williams' Pink Pills, and I began taking them. I continued taking them until I had used three boxes, and I felt a great improvement. I was able to do my work, and I was no longer pale, tired, and listless. I was cured by Dr. Williams' Pink Pills."

HEADACHE AND DYSPEPSIA.

Mrs. Charles Mills, Kingsville, Ont., says: "For some years I was in a condition bordering on invalidism. I suffered from severe headaches, nervousness and pains in the stomach, and at times would scarcely eat enough to enable me to live. I was advised to take Dr. Williams' Pink Pills, and I began taking them. I continued taking them until I had used three boxes, and I felt a great improvement. I was able to do my work, and I was no longer pale, tired, and listless. I was cured by Dr. Williams' Pink Pills."

SOIATICA CAN BE CURED.

Mrs. A. Campbell, Corwin, Ont., writes: "After five years of intense suffering and doctoring with good results, with no benefit, I can testify that sciatitis can be cured by the use of Dr. Williams' Pink Pills. For five years I was almost helpless, and I was unable to do any work. I was advised to take Dr. Williams' Pink Pills, and I began taking them. I continued taking them until I had used three boxes, and I felt a great improvement. I was able to do my work, and I was no longer pale, tired, and listless. I was cured by Dr. Williams' Pink Pills."

GOOD NEWS FROM THE WEST

Mr. G. R. R. Cockburn Brings a Glowing Report.

MANITOBA IS PROSPEROUS.

Result of His Investigations During the Past Few Weeks.

Labor-Saving Machinery Extensively Employed—Fruitful Crops Make the Farmers Happy and Sanguine—Consideration of Their Profit—Much Indebtedness Will Be Paid Off This Year.

Mr. G. R. R. Cockburn, ex-M.P., President of the Ontario Bank and of the Toronto Land & Investment Corporation, who has just returned from Manitoba, here to confirm former reports of good times in the Prairie Province. The past few weeks he has spent amidst the golden grain fields of the West, and even yet his mind is filled with vivid memories of those amazing miles of wheat. What struck him as much as anything was the perfection of the labor-saving machinery employed in harvesting the crops. The self-binding reapers cut the grain in great twelve-foot swaths, and the straw-fed threshers steamed about the fields like live things, threshing the grain as they went.

Said Mr. Cockburn to The World representative who called on him at the Ontario Bank yesterday: "This was my first visit to Manitoba, and my impression is that it is a country of magnificent potentialities. I went from here straight to Winnipeg, and thence drove up and down throughout the province, especially the southern portion, for over 500 miles, and right in the midst of the grain fields most of the time.

"I visited the settlements of the Menomonees and Islanders, who were in their houses, conversed with them, enquired into all their circumstances, and I must say that I have never found a people

more happy or contented, or who had more reason to be so.

"The wheat crop, though ultimately not so large as at first anticipated, was a magnificent one, and will return to the farmer \$2 for every \$1 he got last year.

"I remember when I was at Souris asking a farmer a question which had put to fifty other farmers before, and that was: 'How much does it cost you per bushel to raise wheat?' He answered, as had the others, that it cost between 30 and 35 cents per bushel. I asked him how much land he had, and he replied a quarter of a section, or 160 acres, of which 100 acres were in wheat, with an average yield of 20 bushels to the acre.

"The Farmer's Profit.—'While I was there,' went on Mr. Cockburn, 'that farmer sold his wheat at 85 cents per bushel to the local miller, and he had produced 20 bushels per acre, at least 2000 bushels, so that he realized \$1700. To get the farmer's profit from this amount must be deducted the cost of raising the crop, which at 30c per bushel was \$700. This amount, it is to be understood, covers all the expenses of raising the 2000 bushels, including wages for himself and a hired man for six weeks. This left him \$1000 of a net gain from 1808 and 1889 were a comparative failure.

"Of course there are good and bad parts of Manitoba, but no man who is sober and industrious and goes there with the determination to work need fail to secure a competency in a very few years. When I told my farmer friend that he could scarcely expect to repeat this year's crop in the next two years, his reply was that he had sowed the railways for from \$2 to \$3 an acre, and this year he had sown the railways for from \$2 to \$3 an acre, and this year he had sown the railways for from \$2 to \$3 an acre.

"All are Eminent.—'The farmers are,' he continued, 'all satisfied with the present, in the highest spirits and full of hope for the future. I know of no surer road to a competency for the poor man than in cultivating his quarter section in Manitoba, and many a good quarter section is to be had there still, with close access to the railways, and with the best of the country. The country suffered more or less for want of rain in the early part of the season, and if only the winter should have fallen the province would have had an unparalleled harvest.'

"Digressing for a moment, Mr. Cockburn observed: 'All seemed to much occupied with the harvest to give any attention to the Manitoba school ques-

tion, which, so far as I could see, has received its quietus, for the present at least.

"Then, harking back to the harvest again, Mr. Cockburn went on: 'The bountiful harvest will enable the farmers to pay the most of their indebtedness to the loan companies and the agricultural implement manufacturers. It will also have the effect of increasing the demand for additional land, and therefore more or less for additional land from the land companies. I will thus participate in the general prosperity of the province.

"In the Dauphin county a large and vigorous settlement has taken place this year, and it is hoped that the Galicians who have gone there will prove as good citizens as the Menomonees and Islanders are.

"A good deal of tree planting is being done by the farmers throughout the province, and experiments are being made at the Model Farm to ascertain the class of fruit trees most suited to bearing the severity of the climate."

In conclusion, the bank President said: "At Fort William the C. R. R. is erecting a new steel elevator to hold 1,000,000 bushels of grain, and in various villages scattered throughout Manitoba about sixty new elevators are being put up."

The Executive Meeting.—At the inaugural meeting of the Executive Society of Toronto, held in the hall, Alice and Yonge-streets, the following officers were elected for the ensuing year: John Linden, president; V. T. West, John Phillips, and J. H. Weatherbe, vice-presidents; D. H. Watt, LL.B., secretary; Joshua Foster, treasurer; Isaiah Ryder, M.D., Alexander Wallace, auditor, and H. Moore, usher. The society has been formed for the purpose of enabling all who desire deeper and fuller information as to the truth and value of the Holy Bible to meet together for discussion of the same, untrammelled by any sectarian or denominational influence. The society will hold its next meeting in the Foresters' Hall, on Brunswick-street, on Sunday afternoon at 3 o'clock, when D. H. Watt, LL.B., will read 'What Sin is It?' and 'What Sin is It?'

Musical Convention.—The Music Committee have shown a great deal of energy in their preparations. Miss Jessie Cavers, the chairman, has arranged for the choir to sing at the various churches in the city, and has also arranged for the choir to sing at the various churches in the city, and has also arranged for the choir to sing at the various churches in the city.

On Suspended Sentence.—John Burke was found guilty of the Sessions of stealing a watch from A. B. Cooke of Cooke's Hotel, East Toronto. The jury recommended him to mercy, and the judge let him off on suspended sentence.
