GERMAN PAPERS RATHER LIKE IT.

Chamberlain's Speech Gives Them Satisfaction.

AN AMICABLE SETTLEMENT

Would Be Welcome, But England Must Change Her Attitude.

French Papers See in the Policy Mapped Out by the Speech an Offset to the Franco-Russian Alliance—Britain Will Fortify Wel-Hai-Wel—Other Cable News.

Berlin, Nov. 18.—The aspirations of Mr. Joseph Chamberlain, the British Colonial Secretary, for an Anglo-German entente, to which he gave utterance in his speech at Manchester, are well received by the press here, which, however, contends that the relations between the two countries would never have been otherwise than friendly but for Great Britain's determined opposition to German colonial development. The National Zeitung says that an amicable settlement of differences would be welcome, but a change in England's attitude is necessary.

The Tagblatt says that an entente would be extremely advantageous to both countries. The Cologne Gazette declares that it sees no ground for refusing the hand that Mr. Chamberlain extends, but it adds that co-operation is only possible on the basis of equal rights.

The French papers.

Paris, Nov. 18.—The Figaro says that the English are hastening to follow the path pointed out by Mr. Chamberlain. "In their eyes," the paper says, "an American alliance is sufficient to justify everything. It is to them what the Russian alliance was to us at the beginning of the four centuries which determined its conclusion."

MRS. ONTARIO: Well, sir, now that you've had a good square meal, the next thing which you might give your attention to is this wood.

A PURE INVENTION

Is What Mr. Shaughnessy Said About the Reported Termination of the Tariff Arrangement.

Montreal, Nov. 18.—(Special.)—It is a pure invention. We have never thought of such a thing.

This was what Vice-President Shaughnessy said when shown the Toronto despatch, stating that the Canadian Pacific would terminate its tariff arrangements with the Wabash. The Grand Trunk officials also deny the story that they were about to dispose of their three Michigan branches.

Mr. Richard White, managing director of the Gazette, left this evening for Detroit and other points in Michigan.

REINFORCEMENTS FOR MARCHAND

Will Probably Find Them on His Return to Fashoda.

London, Nov. 18.—The Birmingham Post learns from a Belgian source that Major Marchand, upon his return to Fashoda, will probably find at that place, several French officers, including Col. Foucaux, with reinforcements and supplies. A column of French soldiers, under command of Lieut. Roulet, may also have arrived at Fashoda.

HOOLEY CASE ENDED

Mr. Brodley Denies That He Offered to Falsify His Testimony.

London, Nov. 18.—The hearing of Ernest T. Hooley, the contractor, in Bankruptcy Court was formally ended to-day. The close of the hearing was in no way sensational. The only special feature was a general disclaimer on the part of Mr. Brodley, made through counsel, against Hooley's charges that Brodley had offered him money to falsify his testimony.

Mr. Reed, representing the trustee of the Hooley estate, remarked that if Mr. Brodley appeared in the witness box and made his denial under oath there might be some interesting developments. Hooley's counsel simply declined to accept Brodley's disclaimer at the eleventh hour.

JUMPED FROM THE CAMPANA.

Queenstown, Nov. 18.—The Cunard liner Campana, Captain Walker, which left New York on Nov. 13 for Liverpool by way of this port, touched here this morning and reported that a Swedish steamer passenger named Makinism committed suicide by jumping overboard while on the passage across the Atlantic.

PROPOSAL TO SUPPLANT NOVA SCOTIA.

Washington, D. C., Nov. 18.—In a report to the State Department, Consul Hanna at San Juan calls attention to the very large fish trade of Nova Scotia and other British North American colonies with Porto Rico. He says that codfish is the principal article imported into that island, and that Nova Scotia dealers in codfish consider Porto Rico their best market. In many fish markets the dealers depend on the quality of the fish. The \$2.50 and \$3.00 rates at Dineens are guaranteed.

THE NEW SHORT LINE

Paspebiac Expects to be Ready by Dec. 20 FOR THE FIRST STEAMER.

A Thousand Men Rushing the Work on the Finishing Link.

The Gaspesia is the First Steamer Expected and It is Said Enough Freight is Already on Offer to Load Her for the Return Trip.

Montreal, Nov. 18.—(Special.)—The new short line to Europe, via Paspebiac, seems to be becoming more and more an accomplished fact. The contractors, who are building the large wharf at the Paspebiac terminus of the Atlantic and Lake Superior Railway Company, promised to have the work completed by Dec. 20, in order to receive the first steamer, the Gaspesia, which sails from Milford Haven, under the auspices of the newly formed Canadian Steamship Company—a corporation brought into existence in connection with the Great Western Railway, one of the most powerful and wealthy companies of Great Britain.

Between New Carlisle and Paspebiac the distance is about two miles, and on this remaining piece of road and at terminals there are about 1000 men engaged.

An electric plant is also being put in, and the docks and port of Paspebiac will be thoroughly lighted. More than enough of freight has been offered to load the Gaspesia on her homeward trip, and she will be followed by the Alaska. These steamers, of course, are about 15 knots, but next spring 18-knot ships will be put on this new route.

The whole project embraces the construction of the railway from Sorel to Point Levis, using the Intercolonial to River du Loup, and thence by a new line to Metapedia, making the distance 60 miles shorter than by the I. C. R.

WHAT CAUSED HER DEATH.

Inquiry Being Made Into a Peculiar Case at Monaghan—Adjourned Till Monday.

Peterboro, Nov. 18.—An inquest to enquire into the death of the child, Stella Munchaus, who died under peculiar circumstances in Monaghan on the 9th inst., was held in the County Council chamber at 2 o'clock yesterday.

The case is a very peculiar one, the testimony going to show that Mrs. Facey, who adopted the child, had whipped her on several occasions, and that the little girl had been seen several times with bad bruises on her head, face and body. Mrs. Facey states that the child died from the effects of falling from a chair. Some of the neighbors suspected violence, and refused to do anything until the doctor came. To one of the witnesses, Mrs. Facey had stated that she did not want the child, that she was tired of it, and would part with it any time.

Dr. Brown, who made a post-mortem examination, came to the conclusion that the bruises found on the dead child were caused by violence.

The inquest was adjourned until Monday afternoon.

CSZAR'S RAILROAD ACROSS SIBERIA.

Count Thun of Austria Tells Something About It.

EASY ENOUGH TO IRKUTSK,

But After That He Found Many Hardships and Perils.

Work Which Has Been Well Advanced, But Storms Came on and Did Damage to the Extent of Millions of Rubles—Barren and Utterly Desolate Country.

Vancouver, Nov. 18.—Count John Thun, Austria, came in on the Empress of China from Yokohama. Last May he left his home at Cobitz, Bohemia, and went by way of Vienna and Berlin to St. Petersburg, thence he went to Moscow, and after necessary preparations started upon the hazardous journey over the Czar's Trans-Siberian Railroad. From Moscow he proceeded by easy stages to Irkutsk without mishap. For some two hundred versts beyond Irkutsk the journey was full of great perils and it required nine days and nights of hard traveling, sometimes mounted, but the greater part afoot, to encompass the distance. Work upon this part of the road had been well advanced a year or so ago, but an era of unprecedented storms set in and embankments and bridges to the value of about 45,000,000 rubles were washed away. The work of restoring them during the past summer was completely interfered with by swarms of insects and other pests which made it impossible for men to work. Reaching eastern division of road finally, he came on to Vladivostok and thence to Japan. Count Thun says it is intensely cold all along the line of road, and for the most part a barren and utterly desolate country. A region some two hundred versts in extent in each direction north of Manchuria, in China is undoubtedly full of almost inexhaustible gold fields, but the extreme cold will not permit them to be worked for more than three months in the year, and that length of time is very uncertain. The railway will, he thinks, be completed in two years and will be valuable chiefly for the movement of soldiers. He is going east over the C.P.R.

CHARGE OF MURDER HANGS OVER HIM

Finding of Coroner's Jury in Beaverton Murder Case.

YOUNG ELLIOTT ARRESTED

Terrible Crime of a Fourteen-Year-Old Boy

Beaverton, Ont., Nov. 18.—"That the said William Murray was on the afternoon of Saturday, Nov. 12, 1895, murdered by one Edward Elliott at the village of Beaverton, County of Ontario," was the verdict of Coroner Grant's jury this afternoon, after an hour and a half's deliberation in the Murray murder case, at this place, which has been the all-absorbing topic for the last few days.

When the inquest closed and the verdict had been given, young Elliott was placed under arrest, charged with the murder of William Murray. A magistrate's court was opened at the Town Hall, G. F. Bruce, J. P., presiding.

The witnesses examined this morning at the inquest testified as to the finding of the key of the murdered man's house by a constable. Another swore to seeing bloodstains on Elliott's hands, which the prisoner explained was caused by falling and cutting himself.

At a late hour to-night the examination of witnesses in the magistrate's court was still in progress.
