DOMINION COTTON STOCK

Downward Movement Proved the All Absorbing Topic of Montreal Business Men Yesterday.

THE DIVIDEND MAY BE PASSED

Decrease in Value of Stock From a Year Ago Amounts to Fifty Points.

Montreal, Que., Oct. 24.—The downward movement of Dominion Cotton stock again proved the one absorbing topic thruout the business section of Montreal to-day. The drop of the stock culminated in the sale at the unprecedented figure of 54 yesterday afternoon. This, however, was not the lowest figure for, for this morning the first sale was made at 53, and from then on to noon the value gradually decreased, until \$50 per share was struck. At this point there was a trifling reaction, and the last sale at noon was made at 51 1/2. A general impression prevails among brokers that the dividend may be passed.

His Excellency will observe the King's wish so far as Canada is concerned. It is evident from the Colonial Secretary's telegram that the King desires to have the anniversary of his birthday observed, with early in the year it was stated by press despatches from London that the King preferred to have the observance take place on the birthday of his deceased mother, May 24. AT THE VICTOR CHAIR.

The Major's Opinion of Street Railway Management.

"That these Mackintosh fellows is on to his job, ain't he?" remarked the Major, breaking into conversation this morning after a period of silent Victor-polishing industry. "I rather suspect he is," I replied. "Clever fellow," repeated the Major. "He says certain guys don't like the way we're doing street-car business. Well, we'll just give 'em a hunk of the real thing—of the straight-out-and-out kind you get in up-to-date cities like Japan and those places. So he does it, ain't when everybody says their own things like him, I don't care. They're all wrong, and he's right. We'll give 'em what we give you without so much blarney."
