GRAVE WAS NOT DUG.

Funeral of Capt. Milloy Marked by Regrettable Incident.

The remains of the late Capt. Milloy arrived at the Union Station from Niagara-on-the-Lake on Saturday afternoon, in charge of Colin Milloy, brother, Donald Milloy, uncle, and Mr. Harvey, brother-in-law. These were met by Duncan, Alfred and Frank Moffat, cousins of the deceased; W. Shanessy, cousin; Edward Moffat and Mr. MacMillan, with the Rev. Arthur Baldwin, whilst a large number of personal friends also attended.

A regrettable incident occurred at the obsequies. After a short service had been held in the cemetery chapel, the funeral party were about to proceed to the grave, when they were informed that owing to some misunderstanding no grave had been prepared, and as a result, the body lay in the cemetery until this morning.

Fussie Acid in Beer, Falling Murder, Used to Suicide.

Pittsfield, Mass., April 28.—Falling in the apparent purpose to cause the death of his family to-night, Paul Bergman, an electrician, swallowed a glass of beer containing prussic acid, and a moment later fell dead in the presence of his wife and 18-year-old daughter, Dora Redfield. Bergman, according to his wife, after a dispute with her, had offered the beer to his wife and then to his daughter. He repeatedly urged the women to drink it and upon their refusal drained the glass himself.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Quebec and One in Beauport, Que.

All women work: some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties, in many cases, quickly drifts them into the horrors of all kinds of female complaints, ovarian troubles, ulceration, falling and displacements of the womb, leucorrhoea, or perhaps irregularity or suppression of "monthly periods," causing backache, nervousness, irritability and lassitude.

Women who stand on their feet all day are more susceptible to these troubles than others.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigue of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, when she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

PETERBORO PRINTERS MAY STRIKE FOR AN 8-HOUR DAY

Negotiations With Bosses Hitch on Vital Point—City's Inauguration on July 1st.

Peterboro, April 28.—(Special).—For the last month negotiations have been under way between Peterboro Typographical Union, No. 248, and the employing printers regarding a new scale submitted by the local union for adjustment. The scale calls for a 20 per cent increase all round, and an eight-hour day. The eight hours is the strongest bone of contention between the men and their employers, and, according to the union, an amicable settlement of differences is hoped for. The men are firm in their demands, and it looks as if trouble would ensue.

The town council last night decided to hold to July 1 as the day on which to incorporate Peterboro as a city. Thus the plans of the celebration committee, as decided on Tuesday, will have to be altered. The question of a grant for the purpose of meeting expenses was discussed, and it was finally agreed that the council guarantee \$2000, providing a gate fee be charged. Presumably the celebration will be held on the city hall during the ceremony. The celebration committee are silent, but some of the older residents are endeavoring to clear their intention publicly to oppose any proposal to make a "second city" out of the "first town."

VANDALS LOOT NEW COURTHOUSE.

Carry Away Metal Work, Cut Initials and Deface Marble Work.

Elizabeth, N. J., April 28.—Vandals have looted the new courthouse here, carried off thousands of dollars worth of property, destroyed as much more and done serious damage to the interior of the building.

When the courthouse was thrown open for public inspection it was not expected that a large number of persons would take advantage of the opportunity and do such damage. It seems that they did very much as they pleased during their visit. Brass knobs were wrenched off doors and every movable piece of nickel and brasswork was carried away.

ONE LICENSE CUT OFF BY PRANTFORD ARBITERS.

Brantford, April 28.—(Special).—At a meeting of the city license commissioners last night, one tavern license was suspended for three months. The only way the proprietor will be allowed to continue business after three months will be by procuring another license, and the commissioners are willing to consider a transfer. The license was held by one of the city's oldest and most popular places, and it is said to be in opposition to an existing bylaw and was, therefore, "dropped."

Gourlay Pianos

HIGH-PRICED BUT WORTH THE PRICE

But do not misunderstand us. The price is neither prohibitive nor extravagant; it is as low as the high standard of our pianos will allow.

Remember, it is possible to be foolishly economical in buying a piano. It is easy to save fifty or more dollars, only to find in a short time that the purchase is dear at any price.

A Gourlay Piano is worth all it costs. Indeed, it does not cost all that it is worth.

Carey is alleged to have received the reply, and sold them to the "green goods" men and then notified the victims that their messages were not delivered. THE MINOLA BALLET AT THE STAR.

SHAKESPEARE MONUMENT TO GRACE ALLAN GARDENS

St. George's Society Given Permission Annual Church Service of Society at St. James'

It comes from the misty ages. The banner of England's night, The blood-red cross of the brave St. George.

O'er her may a flag be waved. Unfurled in a stiff unbait. But ever give strength to the right arm. An hope to the hearts oppressed.

It was this banner which headed the procession of the officers and members of the St. George's Society to St. James' Cathedral, and it was this tradition which furnished the subject for the sermon preached by Rev. E. J. B. Dwell, M.A., yesterday afternoon.

Previous to leaving the hall, W. H. Tippet, past president of the St. George's Society, was presented with a handsome jewel, the pie cent on was made by George F. Harman, president. St. George's Day, April 23, is also the anniversary of the birth and death of Shakespeare. The city council has written Secretary R. W. Barker, giving the society permission to erect a statue in the southeast corner of Allan Gardens to the memory of the great English author and dramatist.

In commemoration of the day, Rev. E. J. B. Dwell, head master of Bishop's College School, Lennoxville, took for his text Thessalonians II. 15: "Therefore brethren, stand fast and hold to the traditions which ye have been taught." These words, he said, had a particular message to the Anglo-Saxon race. "They are fighting words, inspiring words, words that apply to action. To give them the power to stand fast, St. Paul bids them hold the tradition, and by that is meant the tradition of the gospel."

One of the traditions of the British people is freedom in politics, in social life, in religion. Not a free-con in the sense of license, but of liberty. Patriotism is to be valued to use it not of commercial value, but to consist of waving the flag for the sake of the National Anthem, but in living that patriotism shall benefit by doing what we can to build up the nation in steadfastness and honor. It is this noble tradition we are asked to hold fast to.

The great truths that make the foundation of our national life. There must be purity in politics, a clean living and righteousness in commercial life. When high ideals vanish and people think of nothing but pleasure and love of money, the nation begins to decay and dies. God sometimes works with imperceptible instruments; but never with unclean ones.

Lockport, N.Y., April 28.—Eleanor Terry, three years old, son of Frank Terry, of Ramonville, near this city, was drowned under peculiar circumstances in the door-yard of his parents' home. He was playing with his brothers and sisters, the oldest aged ten years, when, coming in collision with a brother while running, Eleanor was accidentally thrown over a high embankment into a ditch in which was three feet of water.

The baby had been playing tricks on the other children during the afternoon, and they thought he struggled to get out of the ditch. Eleanor's edge were mere childish pranks. They laughed gleefully at his struggles until he sank from view.

HARMSWORTH OFFERS A REWARD TO DETECT HIS OWN CHAUFFEUR.

London, April 28.—The extraordinary series of fatal and serious accidents to pedestrians caused by motor-cars in the Easter holidays has aroused a renewed clamor for severe penalties for reckless driving. On April 19 a ten-year-old boy was killed outright by a car passing thru the quiet village of Markyate. The driver, instead of stopping, accelerated his pace, and in five days every effort to trace the car failed. The Daily Mail offered a reward of \$500 for information.

On Saturday last Hildebrand Harmsworth, owner of the Daily Mail, informed the police that he believed that his was the missing car.

Harmsworth's chauffeur, a Frenchman, declared he thought the car had only barely touched the boy, leaving him only injured. The chauffeur is now awaiting trial without bail.
