" I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. BELLAMY, 321 Hannah St., West, Hamilton, Ontario.

Debate on the Address Ends With out a Division.

The Monument to the Late Hon. Alex. Mackenzie-Canadian Bacon for Ireland.

Ottawa, Feb. 12.—After all their talk, the opposition did not risk a division on the address, and it was agreed to last evening without a division.

Mr. McNeill supported the preferential tariff idea, but asserted that the Liberal programme did not suit him. Mr. Bergeron (Conservative) declared against the plebiscite and prohibition, and he also made an effort to resurrect the dry bones of the Manitoba school question. He did not succeed, however, in arousing any enthusiasm on the lat-

ter subject. A feature of the day was the reply of Mr. McMullen to the criticisms and assertions of opposition speakers. The member for North Wellington, who has for years kept a close watch upon civil service matters, brought in a bill to prevent officials from receiving money from more than one source. The debate was closed in a slim

Mr. Campbell introduced a bill to amend the railway act. He explained that it provided for the crossing of railways by drains, and also for the protection of farmers living along the different lines of railways from fires originating on the railways, the cause ofgreat damage to property. The diffi-culty of getting drains across or under a railway line had caused great damage to the farmers of Western Ontario. He proposed at a later stage to have his bill amalgamated with that introduced by Mr. Casey for the same purpose.

THE PREFENENTIAL TARIFF. Ottawa, Feb. 12.—In the Senate yesterday, Senator Scott, on behalf of the government, made the important statement that after Aug. 1 next the tariff will be so arranged that only goods from Great Britain and such British colonies as are entitled to the concession shall come in under the minimum tariff. This will make the Canadian tariff a preferential one within the empire only. It was anticipated announcement to this effect would be deferred till the minister of finance made his budget speech, later in the session, but in answering a series of questions by Sir Mackenzie Bowell, which is of the utmost importance to the merchants and manufacturers as well as to the consumers of the Dominion. In the course of the debate on the address Senator Scott said there was not a word of truth in the charge that Sir Wilfrid Laurier had sacrificed the welfare of Canada by his course in England in giving away the last chance this country had of securing preferential trade within the from the mother country. He maintained that had the premier taken any other course than the one he did he would have failed in securing the denunciation of the German and Belgian treaties. He reviewed the history of preferential trade and quoted the resolutions proposed and passed and the speech made by Mr. Chamberlain at the congress of the British chambers of commerce held in London in 1896, to show that the imperial government never would have adopted the principle of preferential trade. Sir Wilfrid Laurier, he said, had captured the sentiment of the English people by going to them

with a tariff which gave English trade a preference in Canadian markets and asked for no return. It was the gratitude of the English people for this patriotic action of the Canadian government which resulted in the denunciation of the German and Belgia) caties. The result, continued cenator Scott, will be just as we foresaw, that on the 1st of August next Great Britain will be the only country that will

enjoy that preference in our markets. Sir Mackenzie Bowell-Not unless you change your law. Senator Scott—We propose with the approval of parliament to bring about that result. The course followed by the government was the only one by which

that could be accomplished. THE MACKENZIE STATUE. Mr. Charles Mackenzie, of Sarnia, has been here at the request of the minister of public works to view the models of the statue to the late Hon. Alexander Mackenzie, which is to be erected by parliament on Parliament Hill. Accompanied by a dozen of the old guard from among the Liberals, Mr. Mackenzie inspected the models, and none of those present fixed on one model as having merit beyond all the others. Mr. Mackenzle will take another party of his brother's old friends to the art gallery again, and in this way the very best choice will be made. The names of the artists are not attached to the model, so that it is the work and not the name of the

artist that is passed upon. CANADA PORK IN DEMAND. A Dublin pork dealer, Mr. Packenham, is in Ottawa today and had an interview with the minister of agriculture. He says that the competition in England from Canadian pork and bacon is so keen that he is in Canada for the purpose of establishing Canadian connections. This is a high tribute to the merit of Canadian cured hams and bacon.

London, Feb. 12.-More than ordinary interest attaches to the financial ruin of the popular Lord de L'Isle and Dudley, who has been gazetted as a bankrupt, owing to the fact that

he is the representative and chief of the illustrious house of Sidney, of which Sir Philip Sidney, the Elizabethan knight, was perhaps the most celebrated member. Indeed, the bank-ruptcy of Lord de L'Isle and Dudley will have the effect of closing the ancestral home of the Sidneys at Penshurst, in Kent, which has been frequently described as the finest baronial mansion in the United Kingdom.

Lord de L'Isle, who is a particular friend of the Prince of Wales, and exceedingly popular in London society, is on bad terms with his children, whom he offended a few years ago by marrying, at the age of 65, a Miss Ramsey, forty years his junior. FRENCH POLITENESS IN COURT. Paris, Feb. 12.—There were the usual crowds and demonstrations today at the trial of M. Zola and M. Perreux. The force of republican guards was increased to four companies around the court. It was announced that Gen: Billot, foreign minister of war, had instituted proceedings against M. Courant, the barrister who at the close of the proceedings in court yes-terday was arrested, after having been assaulted by onlookers for shouting "Down with the commanding officers." M. London, Feb. 12.—Private letters received here from Egypt, from the front as well as from Cairo, contain a clue to the hitherto somewhat mysterious cause of the anxiety which the authorities have maintained in hastening British troops to Berber. It seems that for some time past a strong feeling of irritation and discontent has been noticed among the Egyptian and Soudanese soldiers. They complain of overwork, of the severity of the discipline, and of their not being allowed to have in camp their wives, who have been kept down the river at the base. Moreover, there is much reason to believe that a number of the captive Dervishes and Arabs, who had been enrolled in the various black regiments after swearing allegiance to the khedive, have been carrying on a secret propaganda on behalf of the mahdi. and have succeeded in shaking the loyalty of the until now much-vaunted black troops. The mutiny of one of the crack corps of Soudanese under Major Macdonald, on the Upper Nile, has reminded the English officers of the British, as well as of the Egyptian army, of the fact that differences of race and creed stand in the way of too much reliance being placed on either the Soudanese or in the fellaheen troops, and that the latter are just as likely as not to desert to the mahdi when the critical moment arrives for facing the flower of the latter's army. Much of the confidence which up to

a short time ago was indulged in here as to the ease and rapidity with which the mahdi would be smashed have entirely ceased, and much uneasiness is quietly expressed as to the possibilty of either a mutiny taking place or an attack en masse on the part of the mahdi occurring before sufficient British reinforcements have reached Ber-

THE JORDAN SUICIDE.

a Well-Known Toronto Family. Toronto, Feb. 11.-In regard to the young man found dying at Jordan last father having been dead for some years. Since then he had drunk con-

siderably, and was inclined to be rather reckless. Four months ago he met Miss Van Est, of Crosswell, Mich, and was married to her in Port Huron. It is said that the marriage caused some friction in the family. He was a plumber, but out of work, and a few days ago set out as an agent enlarging pictures. He went to St. Catharines and there bought carbolic acid. He also wrote his wife, saying that he could not live without her, and that if things did not go right he would commit suicide. The next heard of him was news of his death.

AMATEUR PHOTOGRAPHY

Disastrous Explosion Attendent on Taking a Flashlight Picture.

New York, Feb. 12.—Stewart J. B. Gourlay, an undertaker, of Brooklyn, who is also an amateur photographer, attempted to take a group picture by the flashlight process, at his home in that city last night. He had overloaded the flash pan with powder, and when he set it off there was a flash and an explosion. When the smoke had cleared it was found that Mrs. Mary Rinsland and George Johnson, a young boy, who had posed for the photographer, were badly hurt. Rinsland's scalp was hanging by a shred of skin to her skull. Nearly all of her hair had been burned off, and her face and hands were blistered. The boy was badly burned about the face and hands, and Gourlay had four fingers blown off his left hand. An ambulance was called, and it was with difficulty that the surgeons saved the woman from bleeding to death. Her

condition is precarious. 18 Years Town Constable. Mr. B. Knisley, Hagersville, Ont., holds the record of having been town constable for 18 years.
