

## SAYS IMMIGRATION LAWS ALONG BORDER ARE NOT ENFORCED

New York Legislator States That Force Is Underpaid and Undermanned.

NEW YORK, Nov. 30.—Representative Isaac Siegel of New York, a member of the House committee on immigration, declared in a statement here today that immigration laws go unenforced along part of the Canadian border and they cannot be carried out rigidly with the inadequate, underpaid force of inspectors and other employees is bolstered up.

Returning from an inspection trip along sections of the boundary, and at Montreal where he collected data for presentation to the committee, Representative Siegel said he found there were 700 men placed between Canada and the United States, and only 23 doctors to examine the immigrants.

"Employees of the immigration department are underpaid because of low salaries, long working hours, and other unpleasant conditions, and many are resigning," he said. Stressing the importance of the United States, he pointed out that 12,000,000 persons pass to and from Canada and the United States annually.

Was Only One Doctor.

"Despite the law requiring each immigrant to undergo examination, there was only one doctor at Montreal to inspect 700 Italians who recently arrived here, and to whom the United States, Mr. Siegel said, 'He began examining them November 27, and is still at it.'

"All of the doctors along the border for immigrants headed for the United States are controlled and operated by the Canadian police, and Canadian police officers bring them to the border to turn over to the United States authorities, and in the last two weeks 80 aliens enter."

Do not interfere.

"Canadian police do not interfere with Chinese who desire to leave Canada for the United States. Orders were issued to the Canadian police not to interfere as each Chinaman in Canada has to pay \$500 and a head tax to stay here. There are now 40,000 Chinese in Canada," he was informed by the Chinese consul-general at Ottawa.

Last Sunday Chinese being smuggled into the United States from Canada were captured and held in \$5,000 each for action by a grand jury. Chinese merchants arriving in Canada on their way to this country to do business have had to wait several weeks in Ottawa and Toronto for permission from Washington. As a result many have become discouraged and have gone elsewhere in the future."

Do not interfere.

## KINGSTON SOLDIER, MISSING TWO YEARS, ON HIS WAY HOME

Was Captured by Bolsheviks—Wife Died in His Absence.

[Special to The Advertiser.]

KINGSTON, Nov. 30.—That he was alive and well, was the glad news that was received here this morning concerning Sapper Smith, a Kingstonian, who had been missing for two years. The information came from Smith himself, who states that he was taken prisoner by the Bolshevik troops. He was recently released and is now in England on his way home to Kingston.

Sad news awaited Smith in England, as relatives there had been told of his death in Kingston. He passed away in Kingston on the last, and at the time his husband could not be located. A baby is being cared for by relatives here. His wife was Mrs. Gladys Politt, a popular young Kingstonian lady. Sapper Smith was captured by the Bolsheviks in a military party over eighteen months ago and had been kept a prisoner until just recently. He suffered great hardships on account of lack of food and clothing. The information received here from England states that Sapper Smith of Kingston arrived there with Sapper Smith.

Sapper Smith enlisted in Canada in 1916 with the 5th Canadian Engineers, went to Brockville and later to Ottawa, where he transferred to the Canadian Signaller. He went to Russia with the Canadian expeditionary force and remained with that unit until it was withdrawn. He then transferred to the British railway mission, with which he was serving when he was captured by the Bolsheviks. He was captured by the Bolsheviks in a military party over eighteen months ago and had been kept a prisoner until just recently. He suffered great hardships on account of lack of food and clothing. The information received here from England states that Sapper Smith of Kingston arrived there with Sapper Smith.

WOODSTOCK, R. C. Sage, manager of the Woodstock Gas Company, has resigned and has been replaced by a publishing house in Toronto.

## BLENNHEIM SENDING GAS CONFERENCE OAT PRICES SHOW FURTHER DECLINE

Keenly Interested in Outcome of Meeting at Chatham Friday.

BLENNHEIM, Nov. 30.—Blenheim will be represented at the gas meeting in Chatham on Friday, at which it is expected Premier Drury and Referee George H. Henderson will be present to confer with the representatives of the municipalities in Western Ontario vitally interested in the gas rates. At a special meeting of the town council held today Mayor Alex. Clunis and Solicitor L. L. Gosnell were appointed to attend the conference on behalf of the town council.

Hit the Low Mark.

Sugar hit the low mark of \$1.50 per cwt. here yesterday afternoon, when, after an interesting course of action, it was considered by some to be the last straw.

For some time an east-end merchant has been taking the lead in sugar reduction prices, but has been followed closely by the other merchants who at times for a short time would overstep him. During the last few days he reports his sales the hundredweight to have been very large and orders came in freely. The price was brought from others the price above stated which hovers close to wholesale quotations.

Two interesting cases came before the court yesterday. The first was a case of a farmer who brought up by Sanitary Inspector Marshall of Harrow. The second was a case of a man by the name of Delaw who was fined \$15 and costs for having a dog in the street. The man by the name of Delaw paid a fine with costs amounting to \$15 and costs. The man by the name of Delaw paid a fine with costs amounting to \$15 and costs.
