"TORONTO'S BEAUTY SPOT"-

# ROSEDALE HEIGHTS

The Ideal Residential District of Toronto-

## ROSEDALE HEIGHTS

Those people familiar with the natural charm of Rosedale, with its thickly wooded, beautiful hills and dales, and its verdant loveliness, know what a beauty place it is. Yet to the north of it there's a spot more levely still, for it commands a magnificent view of Rosedale itdelf and is so superbly situated as to give an excellent view of the lake, and lifts itself majestically above the city, affording a panoramic view second to none in Ontario.

#### THAT SPOT IS ROSEDALE HEIGHTS

Rosedale Heights as a residential section will shortly take upon itself the distinction of being the most select home place, for those who want the best, in this great city. For natural beauty it has no equal in Toronto. Being several hundred feet above the lake level, pure health-giving air is assured, and, west or south, but a few minutes will take one to excellent car service and that means but a few minutes from the city's business centre. That is the situation at present, but there are even better transportation facilities in store for the future residents of this grand locality. It is proposed to extend the car line from Rosedale right to the foot of Rosedale Heights, near St. Andrew's College. When this car service is inaugurated no part of Toronto will be better served.

LOTS IN ROSEDALE HEIGHTS Lately the growing demand for lots in this locality has caused us to take active measures towards placing the whole beautiful property on the market. There are something over a hundred lots with frontages of from 50 to 150 feet and a depth of from 125 to 600 feet. These lots are on the brow of the hill overlooking St. Andrew's College, with its velvety acres, and nearly all are beautifully wooded.

#### THE PRICES

range from \$20 to \$100 per foot, according to location and depth. The terms are \$500 down and \$50 quarterly.

### **BUILDING RESTRICTIONS**

That each and every buyer may be assured that he will be surrounded by high-class homes, building restrictions of from \$5000 to \$20,000 are required. When we tell you that several residences have already been erected adjoining the North West corner of the property at a cost of from \$8000 to \$40,000, you will realize the desirableness of living in this locality.

#### THE FUTURE

That this magnificent section will shortly be taken into the city is an assured fact. When that takes place the enhanced values will be even greater than was the case in the Avenue Road Hill district. Any discerning man will realize the fairness of that statement.

#### NOTHING BETTER EVER **OFFERED**

In offering this superb home-section to the public we feel that such appreciation will be shown that these lots will quickly pass into the hands of new owners. Every man who knows Toronto is aware of a future that will surely find such an unsurpassed locality as this well filled with fine homes in a very short time.

#### PROMPT ACTION NECESSARY

There should no hesitation about a proposition so unusually attractive as this one. Read the prices and terms again. Make an appointment with us any hour, and our automobiles are at your service to look over and convince yourself that this is the lot proposition, par excellence, in Toronto, or come out Saturday afternoon or any time Monday, the holiday, when some of our representatives will be there to meet you. Remember just north of St. Andrew's College-on
