The upward movement in the higher priced Cobalts was carried further today under the leadership of La Rose, but with this exception the local mining markets were practically featureless, trading continuing generally very dull.

The recovery of La Rose stock is being forced almost entirely by N.Y. and Montreal interests, local brokers reporting that Toronto holders are taking but little part in the movement. The recent remarks of President McGibbon in relation to the old-time rumor of an amalgamation of the leading product.

McIlwain's Cobalt Letter.

In a market letter, J. A. McIlwain says that the public are disappointed in the Cobalt Lake management, in so far as allowing the newspapers to publish on several occasions a report that the directors have decided to reduce the capitalization of Cobalt Lake from \$5,000,000 to \$3,500,000. Even the brokers have carried this report to their clients. We think that the directors should have penned a line to the press to the contrary. However, the loss that the public have suits along the remarks of President McGibbon in relation to the old-time rumor of an amalgamation of the leading product. McIlwain's Cobalt Letter.

They have a large winter storage here and do the business in the summer by refrigerator cars from the Toronto abattoir. They maintain two other branches in this district at the Soo and Haileybury, which obviates the necessity of the local office con-cerning itself about the business on these lines of railroad. The Sudbury office takes care of the trade only between Parry Sound and Chapleau and North Bay to Blind River, and up the C.N.O.R. Among their regular patrons on this latter route are the Gowganda Transport Company's road houses and camps, the Dobie-Reeves Mine, and the Garrison Mine.
