fresh-

firm. Rails played no part worthy of comment, aside from considerable activity in Denver and Rio Grande preferred, which rose almost three points, with some reaction towards the close. New York, Chicago and St. Louis, the Nickel Plate, control of which was recently surrendered by New York Central interests, made a recession of four points, to 39. Total sales of stocks amounted to 153,000 shares.

sales of stocks amounted to 153,000 shares.

Today's general news included further export enquiries for steel and iron trade reports showing a moderate halt in various lines of business, the decision of the federal court favoring the American Can-Company, and additional May statements of railway earnings, including that of the Great Northern road, showing a net gain of about \$900,000.

The actual condition of the clearing house institutions fulfilled popular predictions, the bank statement showing a cash contraction of about \$53,000,000, with a decrease of almost \$36,000,000 in surplus, drawing the excess reserves down to \$53,546,000, the smallest total for this item since the new system of weekly reports came into operation. A year ago excess reserves approximated \$163,000,000.

Bonds evinced an easier tendency on limited dealings. Total sales (par value), \$1,940,000.

United States and Panams 2's and \$1,940,000.
United States and Panama 2's and United States registered 4's declined ½ per cent. on call during the week.

Cement, Smelters and Steel of Canada Feel the Effect of Relizing and Liquidation.

Saturday witnessed the close of a holiday week in the Toronto market. Except where necessity warranted traders were not anxious to make commitments and only in four issues was there any pretence of activity. Realizing and liquidation were present in Cement, Smelters and Steel of Capada and to a lesser extent in Steamships. All of these issues have been builed for months and at the high prices it has been found difficult to get new buyers. Big business and huge profits have worn out their influence in the minds of speculators and holders are beginning to take a view of conditions as they might be when war orders are curtailed or dropped altogether. The more staple securities were dull, but investors are sitting tight and weakness in the specialties is not much of an influence on these. Public speculation has subsided to a large extent in this market and a further steady toning down in the prices of stocks which have had phenomenal advances is both natural and anticipated.

## **ONTARIO STEEL MAY** ENTER BIG MERGER

Consolidation With Carriage Factories Believed to Be Impending.

The Daily News of Montreal says: The advance in Carriage Factories this week to 44, a gain of six points, has brought to light the fact that merger developments are in the air.

Before the recent advance it was rumored that important changes were about to be made in connection with the company, and now the definite statement is made that the control has clienged hands, and that a different dividend policy will be introduced. In addition to the change in the di-vidend methods it is also stated that a proposed merger will include the On-fario Steel Products Company. This latter company is in a position to manufacture certain staple requirements of the automobile and carriage business of Carriage Factories, and it is understood that quite a quantity of the shares of each company has been tassing into the hands of the same shareholders recently. Such a condition is no doubt responsible for the

## recent strength in Ontario Steel. MONTREAL STOCK MARKET.

MONTREAL, July 8.—A further decline of 1¼, to 65¼, in Cement common, was the feature of trading on the local market on Saturday. Elsewhere the trend was irregular, steel stocks closing fractionally lower with exactly steels. ractionally lower, with small gains general among the industrials.

About 50 per cent. of the morning's sales were in Cement. Opening at 66½ unchanged from Friday's close, the price soon weakened and declined to 66. Further pressure resulted in the last sale being recorded at 65½. The closing bid, however, was ½ higher than the low, at 65% comparing with 66½ on Friday. Steel of Canada and Smelters each declined %, and Ontario Steel Products ¼. Iron was firm and closed ½ higher, at 54%. The preferred showed no change, at 98.

Thrucut the day local improvement was

Thruout the day local improvement was general. Brazilian displayed considerable strength, advancing 1, to 61, and closing at the best. Cottons also finished 1 highat the best. Cottons also finished 1 high-fit, Price Bros. 1½ better, Quebec Railway and Steamships preferred each ¼ better. Detroit, Toronto Railway, Carriage and Wayagamack all finished unchanged. Bank of Montreal shares improved 1. 230. while, in the bond department, ramway, debentures showed a gain of ¼, at 77. The war loan was unchanged, at 99.

Unlisted stocks were quiet. Civic Investment was ¼ better, and Tramway Power unchanged at the close. The morning transactions footed up 2814 shares, 162 rights, \$25,500 bonds.

Professional Interests Hold Mining Market Fairly Active With Strong and Weak

COPPERS YET GO DOWN

Bonds Evince Easier Tendency on New York Exchange.

NEW YORK, July 2.—Professional traders were in complete control of Saturday and perfunctory market, virtually all offerings coming from that source. There was relative selling of such speculative issues as United States Industrial Alcohol and the more distinctive war stocks, like the equipments, New York Air Brake, Crucible Steel and Motors. Alcohol recorded an extreme dedine of 3½ points, duplicating its low pries of the year, at 126%.

Coppers and affiliated shares continued their declining tendency of recent days, but Mexicans were fairly steady when not under severe pressure. Sugars and the shipping group lost ground, probably off further, selling group lost ground, probably off further realizing for profits, but the more stable industrials, including United States Steel and Lackawanna Steel, were fairly steady when not under severe pressure. Sugars and the shipping group lost ground, probably off further realizing for profits, but the more stable industrials, including United States Steel and Lackawanna Steel, were fairly steady when not under severe pressure. Sugars and the shipping group lost ground, probably off further realizing for profits, but the more stable industrials, including United States Steel and Lackawanna Steel, were fairly steady when not under severe pressure. Sugars and the shipping group lost ground, probably off further realizing for profits, but the more stable industrials, including United States Steel and Lackawanna Steel, were fairly steady when not under severe pressure. Sugars and the shipping group lost ground, probably off further realizing for profits, but the more stable industrials, including United States Steel and Lackawanna Steel, were fairly steady when the shipping group lost

# Mining Notes

At the People's.

The contract has been let for the sinking of the shaft on the People's Mining Company property from the present level to the contact. Mr. John McGuire has undertaken the work, and will put on three eight-hour shifts in order to rush the work. Mr. McGuire expects to sink at the rate of about 80 feet a month, and, as the distance to the contact is approximately 250 feet from the present depth of 318 feet, the work should be completed about the middle or latter part of September. As mentioned previously in The Daily Nugget, the cost of the work will be borne jointly by the People's and the Ophir Mining Companies, and before letting the contract the joint companies put everything in shape at the property, including the installing of a pump at the 200-foot, level, and a new holst, eight inches by ten inches, adequate for holsting from a depth of 600 feet.

property, including the installing of a pump at the 200-foot level, and a new hoist, eight inches by ten inches, adequate for hoisting from a depth of 600 guate for hoisting from a depth of 600 guate for hoisting from a depth of 600 grant foot cars of ore per week is being shipped by the Right-of-Way Mining Company to the Northern Customs Concentrator at Mileage 104. Practically all of this is coming from the old stopes on the 83-foot and the 142-foot levels. All of it is low grade, however, but can be milled profitably. All operations are being carried on thru the north shaft. The company has paid several dividends of one-half of one per cent. within the past

Second Payment Made.

The second payment was made in Haileybury on Wednesday of this week on a property in Deloro Township owned by Haileybury and Cobalt men. The deal in question was for \$100,000, and was put thru about six months ago, when the sum of \$2000 was paid down. The payment made on Wednesday was for \$8000. The owners of the claim are Messrs. J. Wheedon, James McCrea and Frank Fishley of Halleybury and Dr. McLaren of Cobalt.—Cobalt Nugget.

## RECEIVERS REPORT ON ST. LOUIS RAILROAD

ST. LOUIS, July 8.—The final report of the receivers of the St. Louis & San Francisco Raliroad was filed today in the federal district court, preparatory to the sale of the road at foreclosure on July 19. The report shows \$131,512,000 liabilities incurred prior to the receivership, and The report shows \$131,512,000 liabilities incurred prior to the receivership, and for which claims seeking preference have been filled. Of this amount, the report states that \$279,000 has been paid.

As unpaid liabilities of the receivers are entered, miscellaneous items of \$1,404,000 and overcharge freight claims of \$1,288,000. \$1,288,000.

The foreclosure sale will be under outstanding bond issues, and a minimum price of about \$47,000,000 has been fixed by the court.

## COBALT ORE SHIPMENTS

COBALT, July 8.—Shipments of ore from Cobalt during the past week were very light. Only three companies were shippers, as follows: Coniagas, 140,253: Trethewey, 42,120, and La Rose, 96,212, making a total of 278,555 lbs. The shipment made by Trethewey consisted of ment made by Trethewey consisted of two carloads, one of high-grade and the other milling concentrate. This is the first shipment from this mine since oper-ations were resumed on June 1.

## CEMENT UNDER PRESSURE.

Heron & Company report:
MONTREAL, July 8.—The persistent selling of cement was the feature of an otherwise dull market. The action of the market in this stock would suggest that there may be some truth in reports that the dividend policy of this company has been changed. Other local stocks were on the heavy side, but the volume of trading was very small and the market is best described as a waiting one.

## WATCH BRITISH TROOPS WITH MUCH ADMIRATION

Position in Sector North of Somme River Presents Great Difficulties in Opinion

of French. PARIS, July 8 .- The French are watching with admiration the fight of the British troops in the sector north of the Somme River. The great natural and artificial difficulties with which they have to contend are realized and all agree that they are doing as much as is humanly possible.

French military opinion is that the

German positions are so strong and so well furnished by lines of communication that the British will be able to accomplish little more until the heavy French guns are installed inside the French sailent whence they can enfilade the German positions opposed to the British. As these guns of 305 and 400 millimetres are mounted on rail road trucks, time is required to lay the tracks for their movement, which has to be done carefully. The French are so solidly established that the work soon will be completed and it is asserted that these guns will not be long in making their influence felt.

WAS REPORTED KILLED. COBOURG, July 8.—Pte. Frank Blackbourne of Hastings, at first re-ported missing and later killed in ac-tion, wrote to his relatives in Hasttion, wrote to his relatives in Hastings on July 3, stating that he was a prisoner of war in Germany. The news that he was still alive was welcome to his relatives.

PRICE OF SILVER NEW YORK, July 8.—Bar silver, 62c.

# **ADVANCES WHEAT**

Dakota.

Market Begins to React on More Conservative Reflection.

CHICAGO, July 8.—Black rust reports from Ypsilanti. North Dakota, brought about a sensational advance today in the price of wheat. The rise from the lowest quotations of the session amount to 5c a bushel. The close, however, was uzsettled, at gains of 2%c to 3c to 3%c net. with July at \$1.06% and September at \$1.09 to \$1.09%. Corn finished %c to %c up, oats unchanged to %c higher, and provisions varying from the same as yesterday's finish to a rise of 20c. Notwithstanding that, according to high authority, it was doubtful whether the wheat plant in North Dakota could be far enough advanced to show black rust, the assertion that the dreaded infection had been found led instantly to an upward rush in values. At first little attention was paid to opinions that a more likely place for the discovery of the rust would be in the southern part of the spring crop region. Before the end of the day, tho, conservative views were given heed, and a good deal of a reaction in prices took place, especially as some advices referred to the evil as not rust, but, instead, black smut.

Prior to the alarming news from North

place, especially as some advices referred to the evil as not rust, but, instead, black smut.

Prior to the alarming news from North Dakota, indicating the possibility of a huge damage to the spring crop, wheat prices had swung within comparatively narrow limits, and seemed during the early part of the day to act on the whole in favor of the bears. Indeed, the ruling influence was a report that the surplus moisture in the northwest was disappearing fast, and that the prospects there were encouraging for a big yield. Besides the bearish effects of the government crop report continued in evidence. On the other hand, word of liberal export sales helped give force to the subsequent sharp upturn in the market.

Corn bulged when wheat turned strong. Previously the market was weak, owing to the bearish government figures, and as a result of ideal weather. Oats reflected the course of other cereals. Scattering reports of rust continued, and stocks in store showed a big decrease for the week.

Higher prices on hogs carried provisions up-grade. Selling, which widened out on the advance, appeared to come chiefly from one of the big packers.

CHICAGO GRAIN. J. P. Bickell & Co., Standard Bank building, report the following prices on the Chicago Board of Trade:

MONTREAL GRAIN MARKET. MONTREAL, July 9.—The export trade in all lines of grain Saturday was quieter owing to the fact that cable advices in most cases indicated that foreign buyers were indifferent, consequently only sales of a few loads of Manitoba barley and American corn were made. There was a better demand from domestic buyers for car lots, and a more active business was done. Demand for flour continued quiet, and the trade in militeed is duli. The butter market was quiet and steady. Receipts for the week were 18,496 packages, as against 18,191 a year ago. Cheese dull and weak. Receipts for the week, 93,504 boxes, as compared with 95,359 last year. Eggs active and firm. Receipts for the week, 23,499 cases, as against 23,016 a year ago. Stocks: Wheat, 1,433,225; corn. 206,671; oats, 2,471,182; barley, 144,658; Rye, 47,251; buckwheat, 1881; flax, 18,600; flour, 99,839 sacks.

WINNIPEG GRAIN MARKET. WINNIPEG, July 8.—Winnipeg wheat closed from 1 7-8 to 2 1-2

higher today, October was the strong-est month, with 2 1-2 cents gain. Fluctuations were wide, being nearly four cents. four cents.
Oats were ¼ to ¼ higher, and flax was 5 5-8 to 5 cents higher. The drive began in the last hour, when reports of black rust reached the American markets. There was some good export buying reported, but none confirmed. Shorts rushed for cover. Everybody wanted to buy, none to sell. Prices shot up in a few minutes. Then those who had got in at the beginning began to take their profits and this caused a slight decline.

The cash demand was not so good and the premium disappeared towards the close on No. 1 northern, which sold at a par with July.

## LIMBERS SHALL TOUCH FROM SOMME TO SEA

LONDON, July 8.—The question whether Great Britain will be able to maintain an adequate supply of ammunition at the present rate of wastage, received an answer in part yesterday from Frederick G. Kellaway, M.P., secretary to Dr. Christopher Addison, who, next to David Lloyd George, is the most important official in the ministry of munitions. Mr. Kellaway says:

"We are not yet at the full flood of our output of guns and shells. If the Germans cannot be driven home otherwise, our army shall have such a supply of guns that the limbers shall touch each other in a continuous line from the Somme to the sea." Kellaway says:

LONDON, July 8.—An optimistic feeling prevails on the Stock Exchange. Today dealers transacted the usual Saturday business, chiefly in gill-edred securities, Argentine Rails and oil shares, while Pekin Syndicate and Cuban Ports were outstanding features. Mexican issues had a good tone and American securities closed quietly steady, a shade under the best.

Money was in shorter supply-and discount rates were firm. The leading banks have declared half yearly dividends equal to last year. They have also written down investments and puid increased expenses, which indicate ratisfactory banking conditions. AFTER LONG ILLNESS

D. W. Lamont, a well-known resident of West End, Toronto Issiand, passed away early Tuesday morning the had been ill ever since his business trip abroad last January. Mr. Lamont was one of the best-known travelers in the Maritime Provinces, where he had a large and influential circle of business friends. He is survived by unusually havy rain, the war office announced today, During the last few days the British have captured twenty and the last few days the British rame to the place active the service at the house and fifty-one muchine guns.

REV. FREDERICK GREUL

ANNOUNCES RESIGNATION At the morning service of the Parkdale Baptist Church yesterday, Rev. Frederick Greul, the minister, announced his resignation. A special meeting will be held at the church on Wednesday evening to consider the

HELD MEMORIAL SERVICE.

WANTED IN BERLIN.

Mrs. M. Sealey, 343 Jarvis street, was arrested last night by Detectives Archabold and Nursey on a charge of theft, preferred against her by the Berlin, Ont., police.

SIDNEY CROSSING, July 8.—An impressive memorial service was held here for Pte. Orma Atkins, who was killed in action on June 12. Rev. E. 1. Cook of Selby, a former pastor, conducted the service, assisted by Rev. L. Sharp.
