The NATTY DRESSER

For the man of reserved and quiet
taste in his attire, often finds it hard
to make a choice in fabrics, simply
because his tailor "has not got the
goods." His range of clothes is con-
fined to a few domestic woolsens. At
this store things are different, and
we would be pleased to show you a
range of imported goods second to
none.

usual everything is free.

Entomological Discovery.

An entomological discovery, new to
this locality, has just been made by Mr.
John A. Balkwill, a well-known local
naturalist, namely the Blue Asparagus
beetle (Crioceris asparagi), in the
garden of Mr. C. J. Fox, South Lon-
don. This dainty little beetle, unlike
the well-known red, 12-spotted (C. 12-
punctatus), is of a dark blue color,
spotted white, and is just as destruc-
tive in the asparagus bed as the red
one. The hen and chicken method will
help clear him out, or the use of fresh-
ly-slaked lime and paris green dusted
on the plants when the dew is on them
will finish his antics with the favorite
vegetable.

Old Boys in Woodstock.

Woodstock Sentinel-Review: The
London Old Boys of Woodstock and
Oxford County met to make further
arrangements for the annual reunion in
London the first week in August. There
was a good attendance. The secretary
pro tem was instructed to order badges
the same as those used at the last out-
ing three years ago. That badge was
a very neat and attractive one, and
the members thought it could not be
improved upon. Communications were
read from the secretary of the home
guard, B. C. McCann, giving detailed
information regarding the proposed
program. The president and vice-
president, A. D. Borland and Chief
Thompson, were appointed a commit-

tee to interview the Grand Trunk as
to train arrangements. It is expected
that a couple of cars may be reserved
at Woodstock and attached to a
through morning train on Monday,
Aug. 3. The final meeting will be held
on Thursday, July 30, when all ar-
rangements will have been completed.

LONDON TO BID FOR CONVENTION

Grand Lodge, A., F. and A. M.,
Will Be Invited To Forest
City Next Year.

A strong effort will be made by the
London representatives at the annual
convention of the Grand Lodge, A., F.
and A. M. in Niagara Falls this week
to bring the next convention of the
Grand Lodge to London.

Mr. A. E. Cooper, the London mem-
ber of the Grand Lodge, executive
body, stated that London's nat-
ural advantages alone made it de-
sirable that the Grand Lodge hold its
next meeting here.

London's hotel accommodations are
second to none in Canada, with the
exception of Toronto and Montreal,
and the natural beauties of the place
are unsurpassed.

It is expected that over a thousand
representatives will attend next year's
gathering, and it can readily be seen
that it would be to London's benefit
to secure the honor if possible.

Next year will be to the Grand
Lodge what is known as the "on-
year," in other words, the time when
the big elections of officers takes
place, and the attendance will conse-
quently be larger than ordinarily.

It would appear that it was dis-
tinctly the duty of the reception com-
mittee of the city council to make
every effort to bring the Grand Lodge
convention to London next year, and
it is felt that a little effort in the
right direction will bring about the
coveted result.

LINE FENCE.—You must build half
of the fence on the lines between you
and your neighbors on either side of
the way which goes through both
100 acres, and change the center of
the division line between you so that
it is not 80 rods, but two sections on
either side of the railway. If the
parties cannot agree as to wire fence,
number and wires, etc., the fence
viewers will decide on the applica-
tion of either party. A line fence is usu-
ally 4½ feet high with which to keep
out cattle and hogs.

DISTRIBUTING THE REVENUE.

The reports of the various depart-
ments of a great railway system,
would, if made public, often surprise
the readers of current news. It has
been gathered that the Grand Trunk
Railway system has spent, within the
past few years, not less than fifteen
million dollars in double-tracking the
main line, and that the pioneer Cana-
dian Railway now operates the long-
est stretch of double track under one
management, in the world.

In addition to this they have spent
other millions in stations, shops and
other improvements, thus increasing
the carrying capacity of the road, con-
tributing to the upbuilding of the
country, and at the same time afford-
ing added security to the lives and
property of its patrons which the in-
stallation of block signals on a single-
tracked line could never secure. By the
expenditure of all these millions in
Canada, they are distributing the re-
venue, or a good share of it, among
the people.
