

THE KAMMEL LEOPARD.

The Kammel Leopard iz a 2 story and attik animal. They are as spotted az a coach-dog, and have a split futt.

They are a bad job tew mount, and a wuss one tew stik to.

They are perpindikular in the bak, and hav an ear like a yung mule. They kan kik further and faster than the mule kan.

Thare iz no more hair on their tails, than thare iz on a rope.

They chew the kud, and swallo the juce.

They kan run faster than a ghost, and jump klean away from their shaddo.

They are natiffs ov Afrika, and cum here, az our coloured brother did, on spekulashun.

They are one ov the luxuries ov civilizashun I belave, but which one ov the luxurys, i cant state.

They are useless at home, and are only worth here 25 cents for a chance tew look at them once.

Az a studdy they may be valuable, but a man who waz at all quick in the branes, could studdy one tew deth, in just about 10 minitts.

If i owned all the Kammel Leopards in the world, i would sell them for a dollar a hed (if i kould git it), and buy me a farm out in Iowa.
