**ST. JOHN'S EXPORT TRADE**

Valuable Information in a New and Interesting Board of Trade Publication

The St. John Board of Trade, through Secretary W. E. Anderson, has issued an interesting booklet dealing with St. John's trade and opportunities for reaching the markets of the world afforded to manufacturers who locate here.

The first page of the booklet shows in a striking manner St. John's steamship connections with Liverpool, London, Manchester, Havre, Antwerp, Glasgow, Bristol, Dublin, Belfast, Cape Town, Port Elizabeth, Mexico, Havana and the West India Islands, Boston, Halifax, Digby and other Nova Scotia ports. The inner pages show a summary of St. John's winter exports for 1908-1909, presenting the volume of export trade as \$24,864,840. A comparison of the exports of Montreal, Halifax, Quebec and St. John as taken from the customs returns for the fiscal years 1908 to 1909 inclusive, shows St. John's export trade has increased in a greater proportion to its volume than any of the other ports named. This can best be shown by the figures of these ports for 1908 and 1909, which are as follows:

1908	1909	
Montreal	\$61,117,703	\$77,199,745
Halifax	6,219,820	10,015,500
Quebec	6,001,149	4,838,590
St. John	7,983,992	29,068,317

A statement of the winterport exports from 1897-8 to 1908-9 inclusive according to Board of Trade returns from ships' manifests show that the value of winter export trade has increased from \$4,848,768 in 1897 to \$24,864,840 in 1908-9. Comparative statements of grain, live stock and lumber shipments are also shown.

The whole booklet presents St. John's case in an admirable fashion, and Secretary Anderson and the Board of Trade are to be congratulated upon it. It will be distributed to all upper Canadian boards of trade and newspapers and to the principal marine and trade papers of Great Britain and the United States.

**SALOON KEEPERS MUST OBEY NEW LAW**

No Devices of Any Sort Will Be Permitted Which Will Prevent an Unobstructed View of the Interior of all Liquor Saloons

At the resumption of the proceedings against Peter Mahoney, William Savage and George Gamett, proprietors of saloons on Main street and Thomas O'Brien saloon keeper on Mill street, before Judge Ritchie this morning G. A. Henderson for the prosecution stated that the informations were preferred for the purpose of eliminating obstructions to an entire view of saloons as directed under the new law. He contended that Messrs. Mahoney and Savage had not removed obstructions from the front of their stores. Mr. O'Brien has fully complied with all the conditions of the law and Mr. Gamett has removed his office.

The question of dispute is over the office and although the liquor license inspector has not requested that such be removed Mr. Mahoney has professed a willingness to obey the inspector if he orders that the office in his saloon be taken down. Savage had a bright light in his window which was effective as a screen, but it has been eliminated. The light was contrived to be a device and as all devices are prohibited it was contrary to the provisions of the law.

Mr. Henderson further said that warnings were noticed on saloons on the south side of Main street and as these were also devices they would not be tolerated in such instances where warnings were never before installed over the saloon windows. Mr. Henderson vouchsafed that the four saloon keepers displayed a disposition to comply with the law and that in the south end the offences against the act committed by tavern proprietors are far more flagrant than in the north end.

E. M. Baxter, counsel for the liquor dealers stated that he inspected the premises of his clients late yesterday afternoon and they removed all obstructions at his bidding. He asserted that there were no screens, blinds, colored or ground glass and that they removed the light and a reflector in Savage's saloon and they were instantly removed. He contended that the offices were not installed after the new law entered into effect and were not devices. He admitted that they interfered with the full view of the barrooms but claimed that only the bartender was observed from the vision of passersby whilst the patrons were recognizable. Mr. Baxter proposed that Mr. Henderson and Inspector Jones should accompany him on a tour of inspection of the quartette of saloons and if they were unable to catch a solitary violation of the difficulties, his honor could personally inspect the stores.

His honor in the course of his remarks stated that he was not able to understand the motive of the legislature in using such a large number of words in formulating the law when the words would suffice the sole device was the light and a reflector. He alluded to the fact that wholesale in addition to retail dealers must obey the provisions for a full view of the store, etc., for every day's violation a penalty is permissible. He said the liquor commissioners should have distributed copies of the law, as it is a rather drastic one, to the dealers. He stated that the tavern owners had abundant time to remove the obstructions from their saloons.

It was decided that the inspection should be made and the hearing thereupon adjourned until Friday morning next at 11 a. m.

**FISHING SEASON IN THE HARBOR**

The fishermen in the harbor and Piscataway report an improvement in the catches yesterday and today. This morning about 2000 shad were brought to the dealers here, from Piscataway and yesterday about 1000 were taken. The price shows little change, however, owing to the brisk demand for the fish in the west and most of the catch is being shipped away.

Good catches of gaspereaux are still being made and a few salmon are being taken.

**TOMORROW'S BALL GAMES**

Some first class baseball can be expected tomorrow afternoon and evening on the Every Day Club grounds, when the Marathons and the Moncton aggregation will clash. A change has been announced in the lineup of the local team. Brury the third baseman, will play the first cushion. Nesbitt will twirl in the afternoon and Trevarin will dispense the batters in the evening. Moncton teams as a rule play good ball, and Balse, one of the twirlers, is a box artist of more than ordinary caliber. The city league in the railroad town has opened for the season, and plenty of practice has been acquired.

Mrs. C. E. Harding and Miss Cline Harwood set on an "Eve" Rupert this morning for Wallville, N. S., to be present at the closing of Acadia Seminary. Thomas H. Sime, agent for the Bureau Veritas, who has been seriously ill at his home, West End, for some time, was resting comfortably this morning.
