THEY WILL HAVE A SPECIAL PULLMAN

The officers of the St. John Board of Trade have made admirable arrangements for the accommodation of St. John business men who desire to attend the meeting of the Maritime board at Amherst, N. B. A special Pullman will be attached to the late train from St. John next Tuesday night, landing the passengers comfortably in Amherst on Wednesday morning.

On Thursday night a Pullman will be at the station for the St. John men, and the late train will bring them to St. John.

Thus they will have two clear days in Amherst, and travel in comfort both ways at night. It is hoped a large delegation will go.

HEAVY RAIN IS GREATLY NEEDED

The Elaine arrived this morning at ten o'clock with a large passenger list. The freight, however, was not as heavy as usual. Those residing up river state that the country is now in need of rain. The weather has been uncommonly dry and if this kind of weather lasts much longer without a drop of rain now and again, the crops will become so parched that they will be injured materially.

The Elaine will run an excursion up the river tomorrow at 1.45 o'clock returning at 4.15 p.m.

A NATIVE OF NEW BRUNSWICK

He Returns Stricken with Blindness—Has Lived in Guatemala, Panama and Jamaica

Among the passengers on the Calvin Austin this morning was a native of New Brunswick who returns to his native province under most unfortunate conditions. Though but 32 years of age, he is stone blind. Aside from this terrible affliction, however, he is a stalwart, intelligent and most interesting man.

T. H. O'Donnell was born in New Brunswick, but when a mere child was taken to Halifax. He lost both his parents while still too young to realize the extent of his bereavement. The only thing he knows about New Brunswick is that he was born here, and that when a young man he sailed for two years with the schooner, on the N. B. schooner Desires McLean.

Mr. O'Donnell came now from Panama, via New York and Boston. It was in Guatemala that he lost his sight, through a premature explosion of dynamite, the evidences of which are still seen in his face.

He was interested in railway construction there, and was a man well known. After the accident he removed to Jamaica, where he bought a banana plantation, but here again trouble followed him. In the great disaster of 1903 he was rendered practically penniless.

Some time after this, Mr. O'Donnell engaged in Christian work, as an evangelist, and proposes to continue that work in his native Canada.

The Kingston Daily Gleaner of Sept. 3, 1905, tells of evangelistic services held by Mr. O'Donnell, and the writer states that he was "wonderfully used of God" in that work, which was spoken of by thousands.

The Panama Star-Herald of June last tells of Mr. O'Donnell's work as an evangelist there, and tells also the story of his earlier misfortunes, which are vouched for by the manager of the International Banking Association, who knew him before he lost his sight.

Mr. O'Donnell will be glad to meet and converse with anyone in St. John interested in Christian work.

He is residing for the present at 86 Coburg street.

NO LICENSE FOR CARLETON

To the Editor of the Times:
Sir—"Liquor Selling in Carleton, An Appeal to Judge Forbes to Take Action in the Matter," was the heading of an article which appeared in the Times last week, supposed to be written by a member of the W.C.T.U., who did not give her name or address.

The writer, no doubt, had good intentions, but she is not a member of the west and W. C. T. U., neither does she understand that our motto in Carleton is: No license; no rum shop; no saloons; we well satisfied with the services of our police.

HANNAH RETALLACK,
Care, W. C. T. U.

FIRST VISIT ON BRITISH SOIL

When Professor Barlow crosses the boundary with his herd of world-renowned performing elephants it will be the first time that great attraction has been on Canadian soil. Since the elephants showed in the great Hippodrome in New York city they have been on the go constantly from one end of the United States to the other, but never performing in a small city. St. John will be distinguished in this connection also, for this feature is a "headline" in the metropolis of the universe, not by any means a secondary show. It commands a fortune for a season as long as that of the St. John Exhibition, and P. G. Spencer, who will manage Madame Albani's world-tour, commencing next winter, is risking a great deal of money in signing the Barlow act. But the St. John Exhibition people are bound to have the best.

ITALIANS FOR FREDERICTON

One hundred and six Italians arrived on the Calvin Austin this morning and have gone to Fredericton to work on the water works.

Messrs. Harry McManus and Patrick Mooney were at the Star line wharf this morning with the men, who are a fine, likely looking lot. On account of the Calvin Austin not arriving earlier, the Maritime did not leave wharf until ten o'clock, thereby being an hour and a half late.

HIS HAND CRUSHED IN PRINTING PRESS

Fred Ellison, an employee of the Telegraph job room, met with a very painful accident about 8 o'clock this morning. He was feeding cardboard into one of the presses and in attempting to get hold of a piece that had dropped down in the machine, his hand got caught and was quite badly crushed. He was taken to Dr. P. R. Inches' office, and after examining the injury the doctor sent him to the hospital. It will probably be two or three weeks before he can use the hand again.

HUNDREDS FROM BOSTON

The steamer Calvin Austin arrived from Boston at nine o'clock with 400 passengers. The above number of passengers does not include the small children, of whom there must have been nearly two hundred on board. The people say that the heat is almost unbearable, and that the mortality among the small children around Boston and vicinity is large. The Austin also brought 106 men who go brought to Fredericton to work on the waterworks now going on in that city.

The Raymond & Whitcomb tourists number 67 people, and will return by the Austin next Tuesday. They were to go by way of Halifax, but they were so well pleased with the Austin that they have decided to come back this way. Some of them are from Philadelphia, Baltimore, and places in the northern states.

The steamer Huron, of the same line, landed 102 passengers last night and sailed to return this morning with a large passenger list.

A "Handy" Rink for Everybody

The re-opening of Victoria Rink will be a boon to people living in the north end and valley sections, as well as a convenience to thousands of others. It is centrally located, and on the line of street railway. Once inside, the air is cool and refreshing and an hour or so of roller skating will be no exertion, in spite of the fiercest onslaughts of Old Sol. The new hardwood flooring is an immense piece of carpeting, and as true as spirit level and tools can make it. The music of Dunbar's Band from Boston will be a great feature. Monday night the happy whirl commences.
