DEATH OF JOHN DEMPSEY.
Many friends in this city will regret to learn of the death of John Dempsey, which took place at his residence in New York city on Sunday. He was born in the old Town of Portland more than fifty years ago. He left St. John in 1881 after graduating from the Christian Brothers' school and completed his education in the States. In later years he became an interior decorator and met with success. Two years ago he retired owing to ill health. His one great hobby was art and literature and he accumulated a valuable collection of paintings, prints and etchings, as to the latter he was considered an expert. Besides many works on art he had a library of 2,000 volumes on general subjects. He is survived by his wife, one daughter, Elizabeth, and one son, Paul, also his father, Jeremiah Dempsey, and two sisters, who are residing in Brooklyn. Miss Mary Ogilvie of Fredericton is an aunt. The funeral took place yesterday at Holy Cross cemetery, Brooklyn.

EXPECTS DEFICIT THIS YEAR IN THE HARBOR ACCOUNT

Report of Commissioner Bullock Presented to Council Yesterday

Wages Paid to Ferry Employees Exceeded Total Revenue—A Few Words on Harbor Commission—Need of Speeding Up Development.

The revenue from the harbor department during 1920 exceeded the expenditures by \$18,212.18, notwithstanding an added interest charge of \$3,281.77, as well as an increase in wages and material costs, according to the report of T. H. Bullock, commissioner of harbors, ferries and public lands, presented at yesterday's council meeting.

The following are extracts from the report:

There is every possibility that the expenses will show an excess over the receipts in 1921 on account of the depression in tonnage and a proposed increased expenditure for repairs.

The west side terminals are lacking modern long and unloading devices, outside the steam trolley lifts and electric trucks operated by the C. P. R.

With the advent of hydro-electric the city should advertise the port in the principal centres. Boston recently voted an expenditure of \$200,000 for this purpose.

Harbor Commission.
Local shipping interests are on record as recommending harbor commission "as the only practical solution of the various harbor problems at present confronting the city, and under which a comprehensive plan of development can be carried out." It is anticipated a plebiscite will be taken on the matter this spring.

Federal control, wisely administered, is in many ways commendable. Every effort should be made to speed up development work; neglect may mean loss, since there should be completed several new piers on the west side in readiness by the time the present depression is lifted and exports and imports aggregate a vast business than the port has ever heretofore experienced. Arrangements could be made whereby the regular liners could have an exclusive berth and under annual rental.

The C. N. R. is also greatly in need of increased deep water terminals. The extension of the Negro Point breakwater is essential for the protection of the private and public wharves in the harbor, Public Lands.

During the year fifteen lots were leased at 107 leases renewed. Rentals from the east and west side lands yielded \$18,278.38.

The postoffice of the Lancaster lands account is not much improved; the deficit in that account appears as \$1,591.28. Cost of coal and ashes..... \$1,407.36
Wages..... \$61,663.16
Steamer repairs..... 21,565.46

INLAND REVENUE TO BE MERGED IN THE CUSTOMS

Change on April 1—Some Effect on Local Staff.

The branches of the inland revenue department all over Canada will lose their identity after tomorrow according to a memorandum received by the collector of customs here from the customs department at Ottawa. The work of the inland revenue department is to be merged with that of the customs department on April 1 under a collector of customs and excise.

The amalgamation, which it is thought is being carried out in the interest of economy, will likely mean a reduction in the staffs, particularly in the smaller centres, but what changes will be made locally have not yet been announced.

So far as the post is concerned, there will be no great change in the procedure here, with the exception that the office of the inland revenue department will be moved to the customs long room tomorrow. The cash returns from excise will be accounted for separately by the collector, but the remittances from both departments will be made to Ottawa in the one draft.

VICE-PRESIDENT OF C. P. R. HERE

Grant Hall, vice-president of the C. P. R., arrived in the city this morning in his private car Mount Royal, which was attached to the Halifax Express. He is accompanied by George W. Allan, member of parliament for South Winnipeg, who is availing himself of an opportunity of seeing this section of the country.

Asked if the C. P. R. contemplated making any improvements or changes in the New Brunswick district, Mr. Hall said that there was nothing under consideration at present. He pointed out that they had done considerable work at Sand Point during the last couple of years.

This morning he inspected the new buildings at Sand Point and the local terminals. He was accompanied on his tour by J. M. Woodman, general superintendent of the New Brunswick district. At noon he was a guest of friends at luncheon at the Union Club. He will leave this evening for Montreal.

Furniture That's Made For YOU --- And Not For Profit

There are two kinds of furniture—

One is the kind that usually looks pretty well on the surface. The kind that makers take a chance on. Use a little glue where they should use a dowel pin—hide a defect with a pinch of putty "because it will never show." Drive a light brad where a screw belongs, and put on a fake finish to give it the appearance of what it is not.

This kind of furniture is made for profit—not for you. We never but it, neither should you.

Another Kind—well styled, honestly constructed furniture—workmanship and woods that will endure for generations. Furniture of integrity—the kind we looked for when we bought the first piece of our stock.

And we believe you'll find this the right kind of a store for the right kind of a buyer—if you are particular and know values.
