

SPORT NEWS OF A DAY; AT HOME AND ABROAD

LACROSSE

Attendance Falls Off
Professional lacrosse is run without any expenses for grounds and it should prove a financial success under the old conditions. Two years ago ten thousand people was a regular thing at a big lacrosse match. This year no game has yet been played.

ATHLETIC

Longboat and Shrubbs
Tom Longboat is going "good" in these days. In Toronto the other night he big Onondaga beat Alfred Shrubbs a third of a lap in a three-mile match race in the excellent time of 15m 24.5s. Shrubbs announces that he will retire permanently when his engagements are concluded in September.

BASEBALL

East End League
The Nationals defeated the Commercial in a good East End League game last evening by a score of 4 to 4. There were numerous errors on both sides.

City League
Carleton won from the Rocklands 6 to 4 in the City League last evening. In eleven innings both pitchers were touched for but ten hits.

Fairville League
Good ball is being played this season in the Fairville League, which is composed of the Cubs, Royals, Tartars and Athletics. Already thirteen games have been played and thirteen yet remain. A silver trophy presented by Recorder J. B. M. Baxter, M. P. P., and a supper and watch fobs are offered by the R. J. Reach Co. as prizes for the winners; the competition so far has been very keen.

Tomorrow night in their game with the Athletics, the Cubs will introduce their new pitcher, Dr. Dalton, of Fairville, who some years ago had quite a reputation as a slub artist on local diamonds. The Cubs and Tartars will play tonight.

Finamore Available
A telegram from Art Finamore announces that he has quit the Glace Bay club of the Cape Breton League and will try for a position as outfielder with one of the New Brunswick & Maine League clubs.

Ball Team Crippled
Seventeen persons, including the members of the Danbury baseball team of the New York and New Jersey League, were thrown from a large motor truck descending a steep hill near Danbury. Manager Ernest C. Landgraf got a broken leg and Frank Hardy of Providence, an umpire, was rendered unconscious. Several of the players had their ankles sprained. The drivers, who were in the car and it jumped over a ditch and through a barbed wire fence.

"Buck" O'Brien
Buck O'Brien has been sold by the Red Sox to the White Sox. Jimmy Callahan always liked O'Brien and more than once has said that he would like to have him on his staff. Jim was an old pitcher and has done a lot of good work with some of the members of his present club of boxers. He should be able to interest O'Brien in his work more than a manager who never was a pitcher.

Having a manager who knew the ins and outs of the pitching game has meant a lot to Walter Johnson of the Senators. Griffith has been able to get much more work out of Johnson than Jim McAlexander did, and none will admit this quicker than the present Red Sox president, Johnson, under Griffith, has developed

Andrews' Chat About the Boxers

Johnny Coulon's Hard Luck—A Promising Featherweight—New Boxing Bill—Sad Ending of Career of Once Star Lightweight

(By T. S. Andrews)
Milwaukee, July 6.—Johnny Coulon, the bantamweight champion, has had his share of hard luck in the last year. The little fellow was in a position early last fall to clean up a snug fortune during the winter season, but owing to illness he was obliged to take a six months' lay-off and lose at least \$3,000 each, which makes a nice total gone to waste. It was not lack of courage that made the little fellow lose the coin and matches, for he is a game to the core and never comes off fighting.

Just at a time when he was getting on his feet, he was hit by a bad cold, which he has not yet recovered from. He has lost his money, appeared on the horizon again at St. Louis, St. Louis 10, Detroit 10. He took the match with Frankie Burns at Kenosha, Wis., to try himself out on a championship bout with Williams on the coast, and though he was not just satisfied with his condition and showing he had made some improvement, he was not prepared to mind to go through with the Williams match. On top of this Johnny is hiked to the hospital in Chicago and notified by the doctor to keep quiet for two weeks at least, so that the match for July 29th is impossible. Johnny now asks for a postponement until Labor Day, when he says he will be ready to meet the Baltimore boy and fight for the title with Kid Williams to see if he can meet the Kid in a championship match and settle the question.

There is a young featherweight down east who must be a pretty nifty boy with the gloves. His name is Joe Goldberg and he hails from Rochester, N. Y. The other night he knocked out Kid Julian, the Syracuse featherweight, in four rounds. Now any lad that can turn out a knockout like that will be pretty near the top class, for Julian is a pretty clever and husky featherweight himself. He has a right to be proud of his feat, including a knockout of Joe Coster, who was considered a championship caliber man long ago. The Goldberg boy is not an accident, for he has been fighting all the good boys around New York state, and has been showing improved form right along. His final victory being over Julian. His manager, Jack Carey, thinks he is ripe for all the prize money he can get, but it is not he will soon be ready for a clash with the champion, Johnny Kilbane. Julian is a good fighter, but he is not a Syracuse lad to get into the running again.

Light Graves, the former Milwaukee knockout, who has developed into a great admirer of athletics of all kinds, regarding his alleged fight with Tommy Dixon in Nebraska. "You can say for me," writes the Kid, "that I have not been away from the east for the past eight months and the Kid Graves who was supposed to be some featherweight, as Dixon is also a 122 pound boy. The report, however, is entirely wrong. I have won my money good and hard. I have whipped the best of the eastern welterweights and I am now going to get one in the country, including Ray Brington, for the championship. I intend to visit the middle west, the coming season and will then endeavor to have it out with the best welter for the title."

With Tommy Burns and Arthur Pelletier the heavyweights doing a vaudeville act around the country, the interest around the big fellows will once more attract attention. Tommy will no doubt head for the east and steer his new champion up against the heavies in New York state.

Wisconsin Bill
The passing of the Hedding boxing bill by both branches of the Wisconsin legislature must be gratifying to the boxing fans of the state and to J. A. Hedding himself. The latter, like Senator Frawley of New York state (father of the New York boxing bill), has been a great admirer of athletics of all kinds, including boxing, and he made the grandest kind of a fight for the passage of the bill, once he took hold of the matter. Mr. Hedding was one of the stars of the baseball nine at Wisconsin and he has mixed in all the various lines of sport, so that he knew what he was talking about when he tackled the boxing bill.

The bill which legalizes boxing in Wisconsin, is drawn after the New York bill, although there are several amendments to it—all of which should help the game. The sizes of gloves are graduated according to the weights of the contestants. For instance, boxers under the 128 pound class must wear nothing under five ounces, while those under the middleweight limit of 168 pounds, must don six ounce gloves, or over, and those above the middleweight limit must wear nothing less than seven ounce gloves. It is a sensible move and will not hurt the game in any way. The kidney blow, which has always been obnoxious to most fans, is also barred and referees will have to be instructed on what constitutes a kidney blow.

The commission plan, the same as in New York, is to be followed and there is no reason why it should not succeed. The members of the commission should be men well up in athletics and boxing and who are familiar with such work. The clubs are obliged to pay over a cent and also 5 per cent of all receipts to the state, which means that all bouts will be under the supervision, to a certain extent, of the commission. However, the Milwaukee clubs have been noted in the past for the excellent manner in which they have acted directly on the bows, regulating them—on the kidney, giving them case and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health.

Dr. Morse's Indian Root Pills
is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The unadvised food and other waste-matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidney, giving them case and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health.

is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The unadvised food and other waste-matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidney, giving them case and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health.

TORTURED WITH TERRIBLE ECZEMA

Had to Wear Rubber Gloves "Fruit-tives" Cured Her

Grand Ligne, Que., Jan. 2nd, 1913. "My wife was troubled for three years with eczema on the hands, which her hands almost useless. The doctor gave her several ointments to use, of which had any effect. He also advised her to wear rubber gloves, but she wore them for three days and they were of no use. She then tried "Fruit-tives" and was cured in ten days. She is now cured and both hands are as good as new. "Fruit-tives" positively cures Skin Troubles because it is the great blood purifying medicine in the world. A box, 4 for \$2.50 and 12 for \$10.00. At dealers or from Fruit-tives Ltd., Ottawa.

To make sure the youngster was disobeying the bass fishing law, game warden took his string of fish to a large black bass wiggling on a string weighed down with a stone and as the boy what he was doing with fish. "Well, you see," answered the boy, "he's been taking my bait all morning and so I just tied him up there until he got through fishing." National Fish Magazine.

REVERSED
"Is your wife fond of baseball?" "Very." She doesn't care how long a 15-inning game keeps me waiting for supper."
