Liverpool, July 3rd. The National Chamber of Serbia has con-

Milan made a brief speech before the Chamber in which he declared that though young he would learn to make the people happy.

Paris, July 3. In the Corps Legislatif to-day M. Manage, Minister of Finance, during the debate on the Budget replied to the attacks which had been made on the Government for continuing its military preparations, and declared that armament or disarmament was equally a gage of peace.

M. Ollivier who followed the Minister of Finance said, nations were led arm themselves by fear. France if she held the lead among the nations of Europe, could easily dispense with her costly armaments and then her financial condition would improve.

New York, July 3rd. It is asserted that President Johnson will issue a general amnesty proclamation to-morrow, including Jeff. Davis and all leaders in the late rebellion.

London, July 3rd. Gen. Napier is at Windsor to-day where he is guest of Queen Victoria.

Reports from China state the Rebels have met with recent successes and that Pekin is severely menaced.

Paris, July 2nd. In the Corps Legislatif to-day the debate on the budget was resumed.

A brilliant speech was made by M. Thiers the burden of which was that peace, liberty and good management, were the only cure for the financial deficit.

New York, July 4. The anniversary of American Independence is being observed to-day throughout the country with all the honors. No business is done.

The weather is, very hot.

Washington, July 4. The President has issued a proclamation of universal pardon and amnesty to all who took part in the late Rebellion except those under indictment.

London, July 5th. The Austrian Government has initiated the work of disarming by leaves of absence of 30,000 men in the standing army.

The Skouptchina or National Chamber of Serbia has passed a law excluding Prince Alexander Kash Georgewitch and his family from all right of succession to the throne.

The regulation of the succession having been completed the Chamber has adjourned.

Milan was to-day consecrated and anointed at the Cathedral, as the sovereign Prince of Serbia, with the most imposing religious and military ceremonies.

New York, July 6. Gold 140 1/2.

During a riot at a Fenian Picnic at Bull Eye Gardens on the 4th, the police were attacked with muskets and swords by soldiers of the 4th Fenian regiment, but the police speedily overcame them and quelled the disturbance.

There were several deaths from excessive heat yesterday.

London, 6th. In the House of Lords this evening Lord Stratheden presented the petition of the people of the New Confederation.

The Boundary Bill was passed in Committee. Dispatches from Shanghai have been received which represent that the Rebellion in Japan had received a new phase.

Sir Morton Peto has passed through the Court of Bankruptcy, and has been discharged.

Radical Blessings.

A comparison of the Canadian and United States tariffs does not preposses one with the estimable superiority of our Government, financially speaking, over that of the Dominion. We have to pay on each pound of tea one quarter of a dollar; the Canadians only seven and a half cents—both rates being gold denomination. On sugar—as for the cane plantations of Louisiana, now given over to alligators, while the only laborers who can work them, and once worked them to such rich production, are fed by the Bureau and voted by the party—we pay three cents per pound; the Canadian sweeter the cup of life at two. Molasses he has at an impost of six cents per gallon, and we see him that and go two better. Even petroleum, which we first struck, is taxed to us at forty cents per gallon and to the Canuck at fifteen. Our cigars, with all Kentucky, Maryland, Virginia, Tennessee, North Carolina, Louisiana, and the Connecticut Valley under ageis, cost us just twice as much as his. We cannot be sick but there is \$50 impost to pay on each \$100 worth of medicines while the Canadian drug tariff is just half. Flour is twenty per cent ad valorem with us and free with them. We pay thirty five per cent on cotton goods, they fifteen. The glasses we drink out of, the foot gear we wear, the flutes that soothe the night, and the pianos, over which our young men and maidens sit, all cost us thirty five dollars on the hundred, and but fifteen north of the St. Lawrence. Machinery for our mills, leather for the trotter's trace and the racer's dapper pigskin, our wheat, our oats, our barley, even our good friend, the Irish potato are all the occasions of imposts from ten dollars per hundred to ten cents, and yet it only costs a fitting over the border to get them absolutely free. Who wouldn't be a Canuck, even with the fear of

Fenians forever in one's eyes? Let us beat this GRANT or prepare to take up our beds, those of us who will not find them tax assessed from under us, and walk out of this best Government the world ever saw into the effete monarchy of that bloated despot, Vic.—N. Y. World.

ARRIVAL OF IMMIGRANTS.—Mr. Alexander Beaton, of East Point, communicates the following facts:—“Along the north side of the Island, extending many miles from East Point is a windrow of ants or pismires, in some places three feet deep, and as many wide, mixed with other insects. The ants, or pismires, are very large and winged. A large proportion of them were alive when washed ashore. As soon as they arrive on terra firma and become recruited with the heat of the sun, they strike off for the nearest woods. How are we to account for such a strange occurrence? or what is the meaning of it? Can any one yet explain the matter; for certainly it has astonished the natives? The flying ants are very common to many parts of Europe and Africa. In the United States, too, they are not unfrequent visitors. This is the first time we have heard of their migration so far North. We are not aware that any danger need be apprehended from their presence, as they subsist altogether upon animal matter.—Charlotte-town Patriot.

The Provincial Secretary gives notice that, on and after March, 1869, the Government will not pay for the recording of Marriage Certificates.—Jesse Baker is appointed a Coroner for York. William Davis a member of the Board of Health for Northumberland and Gloucester; and Dugald Stewart and George Haddow, Commissioners for the examination of Insolvent Debtors for Restigouche, under the amended County Court act.—The following Clerks of the Circuit are appointed:—Daniel L. Hanington, Westmorland; Samuel G. Morse, Albert; Caleb Richardson, Kent; Joseph Cunard Barbarie, Restigouche; Samuel Thompson, Northumberland; Lewis A. Mills, Charlotte; Randolph K. Jones, Carleton; Finimore E. Morton, King's; and Timothy R. Wetmore, Queen's.

The Hon. Mr. Tilley proceeded to St. John by steamer yesterday. It is said he is on an official visit to the Custom Houses of this Province and Nova Scotia; and no doubt while at St. John he will be prepared to show the improved position of this Province under union.

As a pattern of neatness and regularity, commend us to the "Marine Hospital" in this place. The House, garden and grounds are scrupulously neat; and the judgment and taste displayed in the selection of plants and flowers, argue a refinement not often met with in public institutions. The Minister of Marine will find all things right in this establishment.

The Standard.

SAINT ANDREWS, JULY 8, 1868.

The 1st of July we notice by the "Journal" was generally observed in the City of St. John as a Holiday, and even the "Freepress" acknowledges the fact as it said "at least four fifths of all the places of business were wholly or partially closed at 10 o'clock in the forenoon, and of the few then open several closed before noon;"—work was suspended in the factories, flags were flying from private poles in honor of the day, and on the shipping in the harbor.

In St. Andrews, some of the stores were closed and others partially; flags were flying at the Court House, Marine Hospital and some private residences, business however was not suspended. There was no turn out of the Rifles or Battery and consequently no salute was fired. Several enjoyed the day by fishing.

At St. George, we learn Capt. Bolton's Battery turned out and fired a Salute, after which three cheers were given for the Queen and three for the Dominion. A gentleman from this town who was present, informed us that Captain Bolton made a loyal and clever speech, pointing out the benefits which would ultimately result from Union, but that too much should not be expected from a measure, the provisions of which required time to carry out.

At Woodstock, the Artillery turned out and fired a Salute; and at Halifax, N. S., the display of Union flags, on the 1st inst., gave evidence of the feelings of the citizens. (A Halifax paper says the citizens are true to the core.

On Sunday last, the Rev. W. H. Tilley, preached impressive discourses in the morning and evening in All Saints Church, in this place, to large and attentive congregations.—The Rev. gentleman's style, manner, and oratorical powers, are highly spoken of, and give promise of great future usefulness, as he is a very young man of undoubted piety, and possesses natural and acquired abilities of no mean order.

The "Fourth" was duly celebrated by our neighbors in the United States. The excursion to Calais on the Steamer Queen was well patronized; many from here took advantage of the cheap trip to visit their friends at St. Stephen and vice versa. Everything passed off well, and we have not heard of any accident.

We have heard several complaining of dyspepsia, lack of appetite, and general debility this summer, to such we recommend "Fellow's" Moosewood Bitters" as a safe and pleasant remedy, having tried it ourselves. That it is an excellent tonic cannot be denied, and we may add that these Bitters might be profitably used by those afflicted with bilious diseases.—For sale by the Druggists and others.

T. T. Odell, Esq., of the firm of Odell & Turner, left here last week to take passage in the Scotia from New York, to visit his native

country, England, after an absence of nearly quarter of a century. He expects to return early in September.

On the first page of this day's issue, we have commenced "An Account of the St. Andrews & Quebec Railroad from its first inception in 1835" compiled by W. M. Buck, C. E. With the facts as given by Mr. Buck, we are familiar, of the original Association, not one now remains.

ON DIT.—It is probable that ere many days elapse, the Hon. L. A. Wilmot will be gazetted Lieut. Governor of New Brunswick, and that the Hon. Charles Fisher will be appointed to the vacant seat on the Bench.

We understand that W. M. Smyth, Esq., of St. John, has been appointed Inspector of Steamboats for New Brunswick and Nova Scotia.

The Rev. Thomas Street, is at present on a short visit to his friends in this Province.

The St. John Oarsmen were beaten in the boat race at Boston on the fourth July. It was not the Paris Crew however, and the race was one with six oared gigs, rather a new thing to our St. John friends. Their defeat will lead to a match that will place St. John men, where they have hitherto been on the side of victory.

The Hon. Mr. Tilley proceeded to St. John by steamer yesterday. It is said he is on an official visit to the Custom Houses of this Province and Nova Scotia; and no doubt while at St. John he will be prepared to show the improved position of this Province under union.

As a pattern of neatness and regularity, commend us to the "Marine Hospital" in this place. The House, garden and grounds are scrupulously neat; and the judgment and taste displayed in the selection of plants and flowers, argue a refinement not often met with in public institutions. The Minister of Marine will find all things right in this establishment.

The Hon. Mr. Howe, is expected at Halifax next week. What is in store for him, and what has become of the seven millions of Sovereigns promised for the building of the Intercolonial Railroad? Perhaps they are gone where his arguments went for a Union of the Colonies.

DOW'S PATENT KNIFE AND SCISSORS SHARPENER, is one of the simplest and most effective articles ever invented; it is a machine which should be in every house, and will perform all that is claimed for it, and costs but a trifle. It also cuts glass; directions for use gratis.

The second rendition of the Cantata of Esther was given in the Masonic Hall, St. Stephen, on Monday evening last. From what we heard of it, we think this organization is doing much to improve the musical taste of our neighbours, and we congratulate the Society on its success.

Woodstock was united by rail with St. Stephen and St. Andrews on Friday last. An Excursion train to St. Stephen passed over the line on Saturday.

The Dominion Monthly for July has been received, and fully sustains its high literary standing; the contents consist of fourteen original articles, while with the selected pieces make this number a most interesting one.

The Rev. W. M. Poushon has gone to Prince Edward Island, where he is to preach and deliver lectures.

The Rev. Robert Wilson, was appointed at the recent conference to this station for another year.

Mr. Thos R. Jones, of John, has been appointed a Legislative Councillor. The St. John papers speak well of him.

We learn that a former resident of this Town, John Rodger, Esq., for several years Cashier of the C. C. Bank, died recently in London, after a few hours illness. Mr. Rodger was well known and generally respected in this community.

A letter from Rome, of the 8th, says—"This morning between seven and eight the Pope celebrated in his private oratory, in the Apostolical Palace, the marriage of Count di Caserta with the daughter of Count de Trapani. Those present were very numerous; all the royal family of Naples, Francis II. at their head, a number of Neapolitan and Roman guests and Spaniards. His Holiness spoke a few words of exhortation to the youthful pair, and then everybody retired. A large assemblage of Neapolitans were waiting on the Place-Santo-Petro to see the bride and bridegroom come out, and when they made their appearance they were saluted with emphatic

marks of respect and sympathy. At the present moment no one can possibly deny that hopes are dawning for the Neapolitan Bourbons.

Rev. Mr. Poushon's lecture on "Wesley and his Times" drew a very large number of our citizens to the Centenary Church last evening. Every sitting in the body of the Church was filled, and several hundreds of persons found seats in the galleries. The reverend gentleman's lecture was a model of chaste fervid eloquence and noble sentiment—the principal passages drawing forth hearty demonstrations of applause from an enthusiastic audience, numbering probably 1,500 persons.—Telegraph.

The Boston Regatta on Saturday last, "the Fourth of July," turned out badly for the St. John six-oared boat which left here on Wednesday last. In the Race for six-oared boats the Wards came in first, the McLellan second, Harvard third, and St. John fourth and last! But few here knew of the intention to send a boat to Boston, and it is believed that the crew were unprepared for the task they were persuaded to assume.—[Journal.

The Sussex Cheese Factory have now about 200 cheeses made and which will be ready to be sold in a few days.—[Ib.

SHOCKING ACCIDENT.—During the firing of the Royal Salute at Halifax on the 1st inst a terrible accident occurred at the Saluting Battery. It appears by the accounts of the accident in the Halifax papers that while the charge was being rammed into one of the guns it exploded, killing almost instantly, two of the men, named McHugh and Bennet. Both men were mangled in a shocking manner.—The deceased were young men highly respected in the service, and their untimely death has cast a gloom over the whole garrison at Halifax.

A soldier of the 13th Hussars, stationed at Montreal, was last week tried by courtmartial for having caused the death of his horse by hard riding. He was sentenced to a term of imprisonment, and to be put under stoppages of his daily pay until the value of the horse (some £30 sterling) be made good! If the man is ordinarily careful of his clothing, and can manage to keep out the cells and the hospital, the Government will probably have recovered the amount in about ten years from date.

ITEMS.

Whelan, the alleged murderer of Hon. T. D'Arcy McGee, will be brought to trial on the 2nd September. The Chief Justice of the Court of Common Pleas in Ontario will preside at the trial.

The Halifax Reporter says that a Temperance Society has been formed on board H. M. S. Royal Alfred now lying in that port.—The Council of the Dominion Rifle Association will meet at Ottawa on the 15th inst.

THE GEOLOGICAL SURVEY.—We understand that Prof. Bailey and Mr. Matthew started yesterday morning to make a commencement of the survey in this section of the Province. They will probably begin the investigation in the vicinity of Pisanoon. We learn that Mr. Robb (brother of the late Dr. Robb, of Fredericton,) is prosecuting on the St. John River somewhere near Woodstock.

WANTON MURDER.—The Amherst Gazette says a man belonging to Halifax, N. S., named Gormley, while entering a hotel in Truro, was assaulted and kicked so severely by two brothers named McNut, that he died immediately. The deceased did not know either of the murderers, and no cause is assigned for the outrage. At last accounts the McNuts were not captured.

INSTRUCTION TO THE DEAF AND DUMB.—Mr. Chas. Priest, a graduate of the Deaf and Dumb Asylum, in London, England, is about opening a School for the instruction of deaf mutes in this City. Mr. P. has considerable experience as a teacher, and furnishes first class recommendations. He can for the present be seen at Crawford's Hotel, King's Square.—Globe.

THE LESSONS OF ECONOMY.—It is an old saying that "take care of the pennies and the pounds will take care of themselves." Millions of dollars are spent annually for worthless stuff called "remedies;" but it is an acknowledged fact, that a box of Grace's Celebrated Salve has saved to many a poor man a large doctor's bill. Try it.

GENERAL TOM THUMB and wife, Commodore Nutt and Miss Minnie Warren, will visit St. John on the 21st inst., giving a series of lectures, commencing on that day, at the Institute.

POSTAL IMPOSITION.—The proprietor of the Portland Transcript states that in nearly all the Nova Scotia post offices the papers are charged two cents postage instead of one, contrary to an order issued on this subject by the Head office. This is quite too bad.

PRETTY LARGE.—There was a sweet potato in a window in Portland, Me., the other day, and it is probably there still, which was 40 lbs. weight, 23 inches long, 9 in diameter and 29 in circumference. It was described as being the largest ever raised in Cuba.

IMMIGRANTS.—The steamer "Acadia," Capt. Lees, which left Glasgow on the 15th ult., arrived at her wharf on Wednesday morning last having touched at Halifax on Saturday, to land goods and passengers. She brings 26 immigrants, viz: 21 Scotch, and 5 English.—The "Acadia" will leave for Glasgow to-morrow.

The desertions from the Papal army have become so serious that the authorities find great difficulty to supply vacancies caused by this epidemic. As the new military law of France will interfere very much with foreign

enlistment, the Pope is looking towards North and South America for recruits.

DEATHS.

On Sunday last, 5th July, after a short illness, Mr. Michael Fauls, aged 73 years, a native of Strabane, Co. Tyrone, Ireland, and for nearly forty years a resident of this town.

At East Boston, on the 24th ult., of measles and lung fever, Hamilton Blair, only son of Alexr. and Helen Muir, of St. Andrews, aged 5 yrs, 7 mos and 19 days.
