

FROM THE STATES.

BANNOCK, Oct. 17.
Confederate Steamer Alabama, formerly 290, received her armament and crew near Western Island, from an English Bark.
She has destroyed ships Brilliant, Ocmulgee, Benjamin Tucker and one unknown; barks Virginia, Eliza Dunbar, Ocean River; brig Attanah; schooners Courser, Weather Gauge and Starlight. It is supposed she would cruise some time about Grand Bank for larger American ships.
McClellan has commenced to advance. Hancock's division left Harper's Ferry yesterday morning and occupied Charleston after an Artillery skirmish.
Main body of Confederates occupy position extending from Bunker Hill to the Shenandoah.
Buell pressing the rear of Bragg's army. Another heavy fight reported on Wednesday between Lexington and Richmond, Ky. Confederates beaten.

Oct. 17.
Herald's Washington despatch says information has been received from Nashville that Confederates were in large force near that city on 11th, who demanded its surrender. Federal force ample for defence.

Irish residents of Luzerne Co., Penn., made resistance to the draft. Military were called out in town of Blakeley, and fired on the insurgents, killing four or five. Forceful opposition was put down.

Lee is at Winchester with a large force. Jackson is at Bunker Hill, and Stuart's Cavalry is on the Shenandoah.

Federal pickets were driven in from the direction of Leesburg.

Reported that Gen. Fremont expects an important command Southward.

Vera Cruz advances report no fighting except guerrilla skirmishes. Gen. Forey arrived there with superior diplomatic powers to Salguero, in addition to Military Command.

Oct. 18.
Gen. Schofield with an advance guard has left Cassville, moving Southward to Arkansas line.

Seven thousand Confederates concentrated at Pochontas, East Arkansas, under Gen. McBride.

Gen. Holmes and Hindman, with considerable force, threatened Gen. Carr, Helena.

Bragg, with forty thousand at Camp Orchard, on Tuesday, was retreating rapidly towards Mount Vernon.

Kirby Smith is getting out of Kentucky in Bragg's track.

Mountaineers reported felling trees in the roads to prevent their escape.

New York Underwriters have advanced war rates for sailing vessels in track of the Steamer Alabama, five cents.

McClellan's army cautiously advancing and feeling of enemy.

Washington despatch says Antietam battle exerted decidedly beneficial influence in Europe in favor of Federals. Gold 135.

FERNANDO WOOD OF THE REPUBLIC.
Fernando Wood, ex-Mayor of New York, who has the reputation of being a very able man (says the Halifax Express) and as such is said to have impressed the Duke of New castle, thus speaks of the once Great Republican of the Western World: "If it be said, as it may with truth, that the present Congress is utterly unfit to represent the American people, and that it has been successful in but one thing, viz. in uniting the South and dividing the North, the declaration of such sentiments is regarded as treason. If the conduct of the war is the theme discussed, and the wickedness and weakness of some of our military and executive rulers be held up for proper examination and reprobation, it is deemed as giving aid and comfort to the enemy, and as a crime against the state. It is dangerous, therefore, to speak the truth. We must prevaricate and extenuate of falsity to secure safety and exemption from misrepresentation or personal wrong. In short in speaking of the political questions of the day a man must lie to keep out of jail. And it has come to this in our favored land of liberty. Our boasted republicans has dwindled into a disposition more despicable than exists elsewhere upon the face of the globe. All the free expressions and honest independence of thought and action incident to the genius of our institutions are lost to us, and the American people, as if it were in a night, have sunk into the depths of the darkest bondage and the meanest cowardice."

CANADIAN ITEMS.
The receipts on the Great Western Railway of Canada for the week ending 10th Oct were \$62,716.04, being an increase of \$9,583.65 on the receipts at the corresponding week of last year.

The Ottawa branch of the Bank of Montreal was recently entered by burglars, and large amount of specie and paper money taken therefrom.

The Orangemen of Hamilton have presented the Rev. Mr. Goddes with a Bible, as a mark of their appreciation of the stand taken by that gentleman in the affair resulting out of the death of Sir Allan McNabb.

Eight young men lately arrived in Toronto from Kentucky, for the purpose of attending College, and it is said that many others will avail themselves of the peaceful condition of the Provinces to pursue their studies.

Gen. Napier presented the prizes to the successful competitors at the Queenstown Heights celebration, and in a very neat address assured the Volunteers of the interest he took in everything that concerned their welfare, stating that they were the right

arm of the service in the Colonies. England having so many dependencies to look after, it could not be expected that she could at any time furnish more men for defence than were at present in the Provinces, and felt confident that the Militia of today would act as promptly and as bravely in defence of their country as their forefathers who successfully repelled the invaders of 1812.

Bangor, Oct. 20.
The Charleston Mercury mentions the capture of four steamboats laden with munitions for Buell's army, in Cumberland River, on the 14th Sept., by a regiment of Partisan Rangers. The cargoes were secured, and the boats burnt.

The Grenada Appeal attributes the Corinth defeat to the drunkenness of Van Dorn.

400 Confederates attacked the Federals opposite Island N. 10, firing into each other and retreating.

Oct. 21.
Guerrilla Morgan captured two Federal trains in Kentucky.

All Confederate bands appear making their way out of Missouri rapidly.

Richmond Examiner puts Federal loss at Perryville battle twenty thousand. Confederate five thousand.

Two thousand Confederates reported in rear of Caseyville on Ohio River, but prevented from taking possession of town by two gunboats.

ST. ANDREWS, OCT. 22, 1862.

The Attorney General's reasons for resigning have been made public; there are a diversity of opinions with reference to the stand he has taken. It should not be disguised, that he will be supported in his views, by men of all shades of politics. Even those who do not agree with him upon the subject respect him for his independence. His resignation does not imply that he will oppose the Government upon any other measure.

Substance of communication giving reasons for retirement of Attorney General:—

The Delegates representing the Government of this Province at the convention recently held in Canada, to consider the subject of the Intercolonial Railway from Halifax to Quebec, have undertaken, on behalf of this Province, to build the Railway conjointly with Canada and Nova Scotia; and to bear seven twenty-fourths of the cost of the work, and the Council have affirmed their action and are preparing to take steps to give effect to the arrangement so made.

This scheme, in my opinion, is fraught with consequences most injurious to the best interests and welfare of this Province. It involves a heavy charge upon the Revenue, which, added to our present indebtedness, will impose a financial burden, which, I think, our population and resources will not justify upon any sound principles of political economy.

A very important element in the consideration of this subject, in my judgement, is the fact that these works are to be constructed with borrowed foreign capital, the payment of the interest of which will be a never-ending drain upon our financial resources, which ultimately must have a most withering effect upon the prosperity, and seriously retard the advancement of the Province.

It should not be forgotten that the interest on the debt already contracted for our present Railway is about two hundred pounds per day. The earnings of the road, it may be said, are not more than sufficient to pay the running expenses, including wear and tear. The interest is paid abroad, and I am much mistaken if the effect of this has not already been highly prejudicial to the business of the country.

Our present financial condition is by no means flattering and will require the most careful and prudent management in order to meet local requirements and preserve public faith.

The proposed enterprise, if accomplished, must largely increase taxation, which, in my estimation, the people are unable and unwilling to bear. The present tariff is as high as circumstances will warrant. My views on this subject may be erroneous, but I have given it the most careful and deliberate consideration, with a full appreciation of its magnitude and the importance of the step I am about to take.

Under these circumstances, I feel myself constrained by a sense of public duty, to separate from my colleagues and retire from the Government, and now beg to tender to your Excellency my resignation of the office of Attorney General as well as my seat in the Executive Council.

I would beg respectfully to ask Your Excellency's permission to make public the reasons for my resignation.

A. J. SMITH.

BOAT RACE AND FISH FAIR.—The Campo Bello Boat Race and Fish Fair will be held at Welchpool, on the 30th Oct. inst.

The opportunity thus offered to our up-country friends to select and purchase their winter supply of dry and pickled fish, should be improved; besides they will enjoy the sport of witnessing the Boat Race, and enjoying the "good time" which always takes place at Campo Bello on such occasions.

The St. Croix Agricultural Society's Exhibition took place on the 15th inst. Owing to unavoidable absence at St. John, we were prevented from attending, but hoped to have been in a position this week to give a list of premiums &c. We were informed that the display in grain, vegetables, dairy produce, and domestic manufactures was large and very good; and the Show of horses and Stock was of a superior description, evincing decided improvement in the breeds. Would it not be a move in the right direction to appoint semi-annual meetings of the Directors of the various Agricultural Societies in the County; it would form a nucleus for farmers clubs in the different parishes, where subjects connected with Agriculture could be freely discussed, and an interchange of views upon cropping, feeding, &c., would take place, of great benefit to our agriculturists. We trust the suggestion will be acted on.

PLANT TREES.—There is nothing which gives so picturesque appearance as having trees planted on the side walks, it is not only an evidence of good taste but also gives a lively and rich appearance to the streets.

We are pleased to notice that there is a gradual improvement being made in this respect by several persons who have planted out trees in front of their residences. There is very little trouble or expense attending the operation, trees can be had for the small expense of hauling, and half a day's work will plant as many as any one person will require; the only care required after they are set, is to protect them from being destroyed by animals running at large, and mischievous boys breaking the limbs. Plant the trees at all events.

MINERAL RESOURCES OF NEW BRUNSWICK.—On our first page we have published an instructive communication from Prof. Bailey of the New Brunswick University.

To many (and they are by no means unintelligent) the information in the Professor's letter will be quite fresh and of great practical value. The explanations and directions with reference to distinguishing the various minerals and ores are at once plain and easily understood. From the letter it appears that our County—Charlotte—contains good ores of several of the metals—iron, lead, copper, zinc blende—and even gold has been discovered in this County.

We trust the letter will be carefully and extensively read.

FROST.—The weather has become decidedly cool requiring great coats in the mornings, and fire in workshops and houses.

On Monday afternoon the cold was felt so keenly as to indicate a heavy frost during the night: all tender plants and vines are withered—ice formed a quarter of an inch in thickness. The weather up to the present week has been unusually fine.

Large amounts have been raised at Quebec in aid of the British operatives in England. Collections have also been made in the Churches at St. John and Halifax for a similar purpose; and a Public meeting held in St. John to devise means to raise money for the same charitable intention.

Since writing the above we learn that the Sheriff of this County has been invited to call Public Meetings, for the purpose of devising means, to relieve the sufferings of the unemployed operatives in England.

The Steamer Arabian on her last trip from Quebec to Shediac, met with an accident at Riviere du Loup—one of the boiler flues collapsed, killing four men and injuring others.

We have much pleasure in stating that Second Master Vernon Jones, (third son of the High Sheriff of this County) late of H. M. S. Euryalus, and now commanding H. M. Steamship "Oberon" at Rio Janeiro is promoted to be First Master. Mr. Jones is a gentleman of fine talents, and for his age, of large experience; and should be spared will attain the highest position in the Navy. We need hardly add that St. Andrews claims the honor of hailing him as one of her sons.

AMERICAN BANK NOTES.—Complaints are made daily of the large quantity of American Bank Notes offered in this County; in fact it is difficult to get any other paper—St. John or St. Stephen notes are like angels visits—few and far between.

Those who pay Western bills, should in justice receive them at the same value. A correspondent "X" is so personal in his remarks on this subject, that we decline publishing his letter.

Two fires took place in St. John yesterday morning, destroying some workshops, and injuring the neighboring dwellings. Fires of late have been so frequent in the City, that the Mayor has offered \$100 Reward as will lead to the conviction of the incendiaries.

PROVINCIAL APPOINTMENTS.—John M. Johnson, Esq., to be a Member of the Executive Council in place of the Hon. Albert J. Smith, resigned.

The Honorable John M. Johnson to be Attorney General of the Province, provisionally, in the place of Albert J. Smith, Esquire, resigned.

Albert J. Smith, Esq., to be one of Her Majesty's Counsel for the Province, provisionally.

James Thompson, Esq., to be High Sheriff of the County of Victoria, in place of Francis E. Beckwith, Esq.

William Caldwell to be Commissioner of Buys and Beasons for the Port of Dalhousie, in place of William McGregor deceased.

Mr. J. R. Marshall to be Chief of the Police for the City of St. John in the place of Mr. George Scollair.

We learned last night from gentlemen just arrived from Ottawa, that on Wednesday night the building occupied by the Ottawa branch of the Bank of Montreal was broken into, and that the contents of one of the safes, consisting of a very large sum in specie and paper money were carried away. This is one of the most daring robberies ever committed in Ottawa, and it seems the perpetrators, up to the departure of the cars for Montreal yesterday morning had not been discovered. [Montreal Gazette.]

THE CELEBRATED HORSE "ETHAN ALLEN" INJURY.—The Niagara (Suspension Bridge) Herald, of Saturday, says—"On Monday the celebrated stallion, Ethan Allen for whom the owner had but the day before refused \$3,000, while at the stock yards, took flight at the cars, and started down towards the bridge with a sulkey attached to him. At the depot, he was turned aside by a long ladder which was held up, when he came in contact with a dirt train standing there, tearing the sulkey in fragments.

Following the track, he ran on to the bridge, a cross Spring Avenue, which not being plank ed, he fell through between the stringers, bruising him very badly. This the second time that horses have been injured by running upon the same bridge; and we suggest if it would not be well to place the gates at the east end of the structure? As for \$3,000 invested in horseflesh, if we had him, we should want to keep selling him. As an unlucky scratch might cost about \$2,000, which is quite too expensive."

Among the defeated Candidates for Congress at the election in Ohio the other day, is the notorious Vallandigham, who spoke so abusively of England in the House of Representatives at the time of the Trent affair, and who has been suspected all along of being a rebel in sentiment. The fact of his defeat affords the best evidence that the people do not endorse his sentiments toward Great Britain. [Globe.]

A ROYAL SQUABBLE.—A Frankfort letter tells the following story about the Elector of Hesse Cassel: The other day, in his own royal theatre at Cassel, he chose to get up a quarrel with the Electress, and abuse her for something or other, the cause unknown.

The public soon found the rival attractions of the comedy in the electoral box superior to those of the legitimate boards. The louder he waxed in his wrath, the more silent became the malicious public, fearful of losing a syllable proceeding from such exalted lips. No sooner did he perceive the look of quiet gratification settling upon their countenances, than he rushed out of the royal box, dragging his consort after him by the skirts. We must suppose that his highness's modesty prevented him from responding to the thundering applause which greeted his exit."

George Grove, Chief Engineer of the Dispatch, new in New York, says the Captain made a proposition to him when the vessel was on its way from Liverpool to Nassau, to sink the ship if she was likely to be captured, but not to do so until he passed the word, so that he might be able to claim damages at the hands of the United States. The Captain had a bundle of papers rolled up in canvas and spun yarn, supposed to be misgives from Mason and Slidell to the rebel government, which were to be thrown into the sea in case of capture. The steamer went from Nassau to near Charleston, but being afraid of the U. S. fleet the cargo was transferred to two schooners, which are supposed to have succeeded in running the blockade.

FAST SAILING.—The Hooyland, a new vessel, (built by Wm. Muirhead, Esq., of Chatham), made the passage from this port to Liverpool, G. B., in the short space of fourteen days. This beats the voyage of the Triumph, owned by John O'Brien Esq., of Bathurst, which vessel had a splendid run of fifteen days to the same port.

The Muscongus, McMillan, belonging to Messrs. D. & J. Ritchie, arrived here on Tuesday last, after a fine run of 20 days from Liverpool. She had a large cargo on board. This is the third voyage this vessel has made to this port from Liverpool this season. This is her second vessel belonging to this firm that has made three voyages to this port the present season. [Miramichi Clearer.]
