At \$40, \$50, \$60 THE POLIGE COMS

A Complaint Presented About Not Having Enough Light.

The police commissioners held their regular meeting this morning, there bepresent the chairman, Judge Houston, Lis honor, Judge Bell, and Mayor Smith. Chief of Police Young submitted the full draft of the revised rules and regulations for the police department. The commission decided to visit the police station to-morrow with a view of putting in a new granolithic floor for the cellar.

The purchase of a ocycle of the force, combined experiment was also left for consideration.

The chief, on behalf of the force, combined of the present electric light system, which was not nearly so satisfactory as the old arrangement. He instanced a case of one night when an attempt was made to enter the store of H. Macaulay on King street. There were no lights burning that night and it was practically impossible to see across the street.

The judge thought that some arrangement should be made by which the lights should be turned on at any time in the night on the direction of the chief.

The mayor recommended that the police report when the lights are out upon dark nights and also when they are burning poorly.

It was decided to look into the matter. The cierk was instructed to advertise for tenders for the officers' spring uniforms.
