**SWIMMER DROWNS
 IN "MARATHON" RACE**

Thousands Who Attend Chicago Contest See Sad Accident.

Chicago, July 20.—One contestant was drowned and half a dozen others were seized with cramps and rescued with difficulty during the first annual "Marathon swim" of the new Illinois Athletic Club in the Chicago river on Saturday. The water proved far too cold for the swimmers, and only seventeen of a field of sixty managed to finish the two-mile course.

A. G. Fresse, 45 years old, was seized with cramps and drowned near the Madison street bridge, in view of thousands of spectators. The race was won by S. C. Jenkins of the new athletic club. His official time was 44:1-2-5. None of the out-of-town contestants finished.

When Fresse sank he had covered about two-thirds of the course. He was the oldest contestant in the event, and for years has been noted as a distance swimmer at the local beaches. Fully 100,000 persons watched the race, lining the banks and crowding the bridge from the start at the life-saving station at the mouth of the river to the Twelfth street viaduct, on the south branch of the stream, where the course ended. The greatest crowd was near the Madison street bridge, and although several men plunged to aid Fresse he sank before any of the rescuers could reach him. The body was recovered later.

ILLNESS OF ACCUSED,

Berlin, July 20.—Prince Philip zu Eulenberg was either insensible or in a condition of semi-consciousness for several hours following the suspension on Friday of his trial on charges of perjury in connection with the court scandals of last July. On Saturday his condition was worse, but his physicians announce that his life is not in immediate danger.

**REVIVAL OF INTEREST
 IN VANCOUVER REALTY**

Brisk Movement is Foreshadowed as Result of Good Crop Report.

Vancouver, July 18.—Real estate dealers declare that the confidence born of the reports of the good crop in the northwest and the better financial conditions which are prevailing throughout the Dominion and the States, is making itself locally evident in the revival of interest in the realty market to an extent hitherto not reached this year. All the dealers interviewed were agreed that a good movement was on though some could ascribe no cause for it. The consensus of opinion of those looking behind the conditions are given above.

A feature of the market, which is classed as a future, is that afforded by the large number of tourists now in Vancouver. Many of these are moneyed men who have heard a few things about the city but have never actually seen the location or understood the firm bases on which its hopes for advancement was founded. Such parties drop into the real estate offices of the city every day. Invariably the brokers are able to put in the possession of their visitors such telling points in favor of local investments that, taken with seeing for themselves the situation here, leads to the belief that they will come back later on business trips.

DIES FROM WOUNDS.

Fight With Outlaws in Philippines Proves Fatal to U. S. Lieutenant.

Manila, July 20.—Lieut. Barr, who was wounded in July in an attack on outlaws at Corral Island of Mindanao, has died from his wounds. Lieut. Barr and Whitney, commanding a detachment of constabulary, stormed Corral which was occupied by the outlaw Tyan. Fourteen of the outlaws were killed and two more were captured.

An embalmed body is called a mummy because "mummy" is the name of the wax used by the Egyptians.

10c. The latest success.

**BREEDERS CONDEMN
 ANTI-GAMBLING LAW**

Kentucky Business Men Decide to Protect Their Racing Interests.

Lexington, Ky., July 20.—Several hundred thoroughbred horse breeders, land owners and business men of this section met here on Saturday to take action to protect racing interests in Kentucky from adverse legislation. The meeting was an outcome of the new racing laws in New York and Louisiana. Col. E. F. Clay, a member of the state racing commission, who issued the call for the meeting, presided.

Many of the leading business men spoke before the gathering. Both Gov. Hughes of New York, and the manner in which the anti-racing law was being enforced at the race tracks were condemned. A committee was appointed who will meet here next Saturday to draft a constitution and by-laws for the organization of a "Personal Liberty League," similar to that formed in New York.

**POWER OF THE GOSPEL
 IN CHINA TO-DAY**

Dr. Menzies Delivers Interesting Address on Results of Mission Work.

Pender Island, July 18.—The arrival of Dr. Menzies by the steamer Ivo Maru at Victoria, has already been mentioned in the Times. Dr. Menzies has been making a brief visit here with his brother, A. Menzies, prior to continuing his journey east. The doctor gave an address in the Presbyterian church on Sunday on the Chinese and conditions viewed from the missionary's standpoint. In brief, incisive sentences he pictured the Chinese with his conviction of the vast importance of his own country as "the greatest in the world." His dim knowledge, geographically, leads him to think this, and that all other countries are at best tributary to it in importance. He spoke of their civilization dating back long before the time of Abraham. Their reverence for learning and philosophy and their ambition to excel in these, the highest positions being given as a reward. He referred to their filial love and obedience to their parents. He touched lightly on some of the difficulties met with by the missionary-patients brought him when in a dying condition or after being wrongly treated by their own physicians, when nothing could be done, and the missionary then blamed that the patient died under his care. The extreme conservatism and egoism of these people were the strongest barriers to progress and improvement. In spite of great obstacles Dr. Menzies spoke most hopefully of the good that was being accomplished. He told one or two graphic stories, showing the wonderful transforming power of the Gospel among these people and of the evidence of their great sincerity as evinced by their suffering, in some instances severe persecution rather than give it up and go back to the gods of their people.

**ATTRACTIVE WEDDING
 AT LADYSMITH**

Nuptials of Mr. James Dunbar and Miss Jennie Conlin.

Ladysmith, July 18.—A big crowd gathered in the Catholic church on Thursday morning to witness the nuptials of Mr. J. S. Dunbar and Miss Jenny Conlin. Both families have been years in the district, and have a large circle of friends. The wedding, therefore, attracted a large number of friends and well-wishers to the church for both groom and bride were widely known and very popular.

Miss Mary Ellen Conlin, a sister of the bride, acted as bridesmaid, while Mr. John O'Connell supported the groom. Father Nicholay performed the marriage ceremony, after which the young couple, with their friends and the guests of the family, partook of breakfast at the Conlin residence.

Mr. and Mrs. Dunbar boarded the 9 o'clock train for Victoria, where they will spend a part of their honeymoon. There was a big crowd at the depot to see them off, and good wishes were as thickly as the inevitable showers of rice.

The bride looked charming in a beautiful costume of white voile, and a picture of white chiffon taking the form of a veil, with lilies of the valley and ostrich plumes. The happy pair were the recipients of quite a number of useful and handsome presents.

PRINCE RUPERT'S HOTEL.

Prince Rupert, July 18.—Since the opening of the Premier hotel travellers visiting the Prince Rupert are now assured of a comfortable place to eat and sleep, and where all the conveniences of an up-to-date modern hotel can be enjoyed. The hotel, which is 100 feet by 20 feet and three stories high, is situated on a bluff overlooking the harbor, of which a beautiful view can be had from the spacious dining-room as well as from the piazzas. The rooms are large and airy, and about 100 guests can be accommodated comfortably.

The proprietors, Messrs. K. D. Munro, formerly of Vancouver, and Capt. J. E. Gilmore, of Port Essington, have spared neither pains nor expense to make the Premier the best stopping place in British Columbia, north of Vancouver. Eugene D. White, of Portland, Ore., is in charge of the office, and white labor only is employed throughout.

MINING AT ROSSLAND.

Rossland, July 18.—Following were the shipments from Rossland mines for the week ending this morning: Centre Star, 2,789; Le Roy, 1,098; Le Roy Two, 385; Evening Star, 35. Total for week, 4,200. Total for year to date, 156,907 tons.

**GOLDEN SANDS
 AT WRECK BAY**

COMPANY TO COMMENCE OPERATIONS AT ONCE

Rich Metal is Found in Paying Quantities 40 Feet Deep.

Ladysmith, July 18.—As the result of a deal which has just been put forth here by John Stewart, the west coast of the island is to have an important gold mining industry.

The discovery of placer mining sand on Wreck Bay, Walter Myles of Ladysmith, was reported in the Times of February. Mr. Myles has always been satisfied that the beach sands and the gravel dune behind held gold in more than paying quantities. The samples which he sent to Messrs. Ogden, the Denver assayers, yielded an unprecedented proportion of gold, and there was little or no trouble in extracting the interest of capitalists.

After many weeks of negotiations Mr. Myles finally got an offer from some gentlemen who wished to visit Wreck Bay themselves. This visit took place a week or two ago, and in the party were Dr. H. N. Lewis, head of the American Mining & Machinery Co., Buffalo, N. Y. The company has a branch in Toronto, and for testing purposes of the trip, Mr. Lewis brought with him a fine and up-to-date machine to sift the sand.

Everybody was satisfied with the results of the test. Prospect holes were sunk as deep as forty feet in the gravel bank and gold was still found at that depth. The faith of Mr. Myles in his discovery had more than been justified, and the party returned convinced of the wealth that lay ready to be extracted from the sand.

However, it was, of course, impossible to agree upon a deal right away. There are eight claims staked off on the dune, and Mr. Myles had to consult his partners, Messrs. Lewis and Huff, also, could do nothing without reference to the other gentlemen, with whom they were associated, for whom they were acting as representatives.

However, Mr. Lewis came through from Portland on Thursday. A bargain was quickly struck, and a deal put through in Mr. Stewart's office by which Mr. Ellis and his partners, the majority of whom belong to one or two of the whole property on terms that are completely satisfactory to everybody.

Mr. Lewis proposes to put in one of his own latest and most up-to-date machines. The machine alone will cost \$38,000, and a sawmill will also be erected to cut the lumber for the sluice boxes.

The first party will go up in three weeks time and the machinery will be shipped and installed as rapidly as possible. Before the summer is out Wreck Bay gold should be trickling into the assay offices, and its sands will be a scene of bustling industry.

**OPponents OF
 ALL-RED ROUTE**

SIR WILFRID DECRIES LITTLE CANADIANISM

Mr. Foster's Efforts to Ridicule an Imperial Project.

Ottawa, July 11.—In replying to Mr. Foster's criticism of the All-Red route project during the discussion on Mr. Laurier's amendment, Sir Wilfrid Laurier showed all his fighting form and his eloquence roused his followers to the highest pitch of enthusiasm. He said:

It were comical were it not so serious, to note the efforts of my hon. friends opposite to kill this project while they pretend to be in favor of it. Some Hon. Members: Oh.

Mr. Foster: That's all the thanks we get for supporting you.

Sir Wilfrid Laurier: My hon. friend (Mr. Foster) is perhaps not aware that in his verbose extravagance he does not weigh his own words, and probably he does not remember that not five minutes ago he used these very words: I am opposed to have the country saddled with this new burden.

Mr. Foster: I did say that, but I coupled with it the condition that I was opposed to have this country burdened with the financial responsibility contemplated unless we had the definite plans and the basis for it.

Sir Wilfrid Laurier: Let my hon. friend have whatever comfort he can take from that. The hon. gentleman is opposed to this project unless we have a definite plan, but I had understood that hon. gentlemen opposite were in favor of the idea, that they were anxious to have it investigated, although now they say they are opposed to it.

Mr. Foster: Do you say we are opposed to investigation?

Sir Wilfrid Laurier: My hon. friend (Mr. Foster) has all along shown that he does not want this scheme, but if he will permit me to say so, he has not had the manliness to come forward and declare it boldly. The hon. gentleman wants to know what is the scheme before the House. Well, I spoke with perfect candor, and I stated that there were two ways that one could approach the subject, and that there was more than one kind of steamer afloat on the ocean. The hon. gentleman asks: Is this the scheme of the opposition as well, have let the scheme of the Prime Minister, as if there was any difference whatever between the scheme of the member for Brandon and the Prime Minister. My hon. friend knows the English language even better than I, and here are the words of the resolution:

"That we are in favor of a steamship service by the best service available within reasonable cost."

Mark, with reasonable cost. If we can have a 24-knot service we are in favor of it. If we can have it within reasonable cost; if we can have a 25-knot service; if we can have a 27-knot service, or the best service of the ocean, we are in favor of it, provided we can get it at reasonable cost.

Mr. Foster: That's right.

Sir Wilfrid Laurier: I referred this afternoon to the Mauretania and the Lusitania, and the hon. gentleman (Mr. Foster) spoke as if that was the type of steamer we had in mind at the time we were in the English language even better than I, and here are the words of the resolution:

"That we are in favor of a steamship service by the best service available within reasonable cost."

Mark, with reasonable cost. If we can have a 24-knot service we are in favor of it. If we can have it within reasonable cost; if we can have a 25-knot service; if we can have a 27-knot service, or the best service of the ocean, we are in favor of it, provided we can get it at reasonable cost.

Mr. Foster: That's right.
