The Golden Klondike.

An Enormous Rush of Gold Seekers Going In.

Some Sound Advice from One Who Has Made the Trip, and Knows Something of the Hardships the Gold Seekers Must

In the rush towards the golden fields of the Klondike, there are thousands who are ill-fitted to stand the strain of hardship and exposure, which are inseparable from that trip. Illness, disease and death is almost certain to claim many of the ill-prepared adventurers. The following letter from one who has undergone the hardships of the trip, will prove interesting to those who intend going into the desolate but gold laden north:

SKAGWAY, Dec. 12th, 1897

but gold laden north:—

SKAGWAY, Dec. 12th, 1897.

DEAR SIRS.—My object in writing this letter is to give a word of advice to those who contemplate going to the Yukon gold fields. For ten years I have followed the occupation of prospecting, timber estimating and mining, and the hardships and privations which one has to undergo, are enough to wreck the strongest constitution. In the spring of 1897 I was stricken with pleurisy, as the result of exposure. I recovered from this, but it left behind the seeds of disease which manifested themselves in the form of heart and kidney troubles. I managed to reach Vancouver, but did not have much hopes of recovering. I was advised, however, to give Dr. Williams' Pink Pills a trial and at first purchased but two boxes. Before these were gone I found beyond a doubt that they were helping me, and their continued use "put me on my feet again," to use a common expression. I then engaged to go to the Yukon country and only those who have made the trip to Dawson City can form even the faintest conception of the hardships that have to be borne in to go to the Yukon country and only those who have made the trip to Dawson City can form even the faintest conception of the hardships that have to be borne in making the trip. Before starting I added to my outfit two dozen boxes of Dr. Williams' Pink Pills and I can honestly say no part of my outfit proved of such invaluable service to me, and I would strongly urge every man who goes in to take a supply with him, as he will find the need of such a tonic and upbuilder of the system on many occasions. I went in and returned to this place by the Dalton trail, which consists of 350 miles of old Indian trail, starting at Pyramid Harbor. In going over the trail one has at times to wade through mind more than a foot deep, and ford streams waist deep in ice cold waters. When I started for the Yukon my weight was only 149 pounds, and I now weigh 169 pounds, thanks to Dr. Williams' Pink Pills.

pounds, thanks to Dr. Williams' Pink Pills.

I am soon starting for another trip to Dawson by the same route. This time, however, the travelling will be on snow-shoes, and you may depend upon it Dr. Williams' Pink Pills will again form part of my outfit.

I write this letter for the two fold purpose of letting you know what your medicine has done for me and urging those who go in to take a supply with them. Every man, whether he is sick or well, who undertakes the trip to the Yukon will require something to brace him and keep his constitution sound in that country. I may say that my home is at Copper Cliff, Out., where my wife now resides.

Yours very truly,

A & A D JOHN PICHE.

Reginald de Koven and Sir Arthur Sullivan have both been commissioned by the Ladies Home Journal to give a musical setting to Rudyard kipling's great "Recessional" poem written for the Queen's Jubilee. DeKoven has finished his setting of the poem as a hymn with chorus and solo, and the composition will be published in its entirety in a forthcoming issue of The Ladies' Home Journal. Giorgii, arrested on suspicion of being implicated in the attempt to assassinate King George of Greece, has made a confession. He declares that he acted at the instigation of Karditza, the latter representing that to kill the king would be an act of grand courage and glorify them both. Giorgii's courage ozaed out at the last moment and he was unable to hit the horses, upon which everything depended. A bomb has been found near the scene of the attack. It contained a hundred drachmas of dynamite. Karditza, when examined, admitted that he intended to throw the bomb into the king's carriage. The general result of the inquiry thus far appears to indicate the existence of a secret conspiracy.
